UNSTOPPABLE US

Carrying forward the momentum from the previous year, in 2017 Trimegah recorded another encouraging year supported by strong economic and market conditions. Through our experience and operational excellence, we managed to optimize every opportunity achieving incredible results.

Agility, strength, and tactical strategy of a football team to tackle obstacles and score beyond the goals have become our inspiration to push our performance higher. With our helmets strapped on, we are prepared to charge forward as an unstoppable team.

2018

STAYING AHEAD OF THE WAVE

The year 2018 was a challenging year for the Indonesia's economy. A volatile exchange rate, and interest rate hikes became a challenge for the financial sector, including the capital markets.

Despite this strenuous environment, like a skillful surfer staying ahead of the crashing waves and gliding above the turbulent waters, Trimegah successfully navigated its course through these hurdles by staying prudent in its business and operations.

2019

STEADY REACHING THE HEIGHT

In spite of unfriendly external factors, Trimegah kept uplifting its determination to defeat the challenging circumstance.

In 2019, Trimegah depicts the Company as strong rock climber full of endurance and agility. After staying ahead of the waves, as a solid team, Trimegah comes with new courage to reaching the height.

Either boulder or steep, nothing is easy to conquer. However, we keep going, ready for another challenge to face.

LAPORAN DEWAN KOMISARIS

Report from the Board of Commissioners

Pemegang Saham yang Terhormat,

Pada awal tahun 2020, dunia dikejutkan dengan munculnya COVID-19 di China yang kemudian menyebar dan menyebabkan krisis kesehatan global, serta memaksa banyak negara menerapkan berbagai kebijakan seperti pembatasan sosial berskala besar maupun mikro.

Konsekuensi dari kebijakan ini adalah terhentinya sisi penawaran dari ekonomi secara tiba-tiba (*abrupt supply side disruption*) yang berakibat menurunnya permintaan akan tenaga kerja, penurunan pendapatan, serta penurunan konsumsi masyarakat. Ketidakpastian yang ditimbulkan dari terhentinya sisi penawaran tadi juga berakibat penurunan investasi sehingga ekonomi, baik di tingkat nasional maupun di tingkat internasional, mengalami kontraksi.

Dampak negatif pandemi COVID-19 juga dirasakan oleh Indonesia. Meski perekonomian Indonesia pada kuartal I 2020 masih tumbuh 3,0% secara *year-on-year*, kebijakan pemerintah berupa Pembatasan Sosial Berskala Besar (PSBB) pada bulan April 2020 mengakibatkan kontraksi tajam pada perekonomian Indonesia kuartal II 2020 sebesar 5,3% secara *year-on-year* atau sebesar 25,0% secara *quarter-on-quarter seasonal adjusted annualized rate*. Memburuknya sentimen terhadap perekonomian mempengaruhi investor di sektor keuangan yang berujung keluarnya mereka dari dari pasar domestik dan beralih ke '*safe-havens assets*'.

Meskipun demikian, seiring dengan stimulus yang dikeluarkan oleh Pemerintah dan Bank Indonesia, serta pelonggaran pembatasan sosial secara bertahap, pasar modal Indonesia berangsur-angsur menunjukkan perbaikan. IHSG yang sempat menyentuh level terendah 3.938 pada tanggal 24 Maret 2020 mulai menunjukan kecenderungan meningkat di kuartal III 2020, dan ditutup di level 5.979 pada penutupan 2020.

Dear Shareholders,

In early 2020, the world was shocked by the emergence of COVID-19 in China which then spread and caused a global health crisis, and forced many countries to implement various policies such as large-scale and micro-scale social restrictions.

The consequence of this policy was a sudden cessation of the supply side of the economy (abrupt supply-side disruption) which resulted in reduced demand for labor, decreased income, and decreased public consumption. The uncertainty arising from the cessation of the supply side also resulted in a decline in investment which caused contraction in the economy, both at the national and international levels.

The negative impact of the COVID-19 pandemic was also experienced by Indonesia. Although the first quarter of the Indonesian economy still grew by 3.0% year-on-year, the government's policy of Large-Scale Social Restrictions (PSBB) in April 2020 caused a sharp contraction in the second quarter of the Indonesian economy by 5.3% year-on-year or 25.0% by quarter-on-quarter seasonally adjusted annualized rate. The deteriorating sentiment towards the economy affected investors in the financial sector which forced them to exit the domestic market and moved to the 'safe-havens assets'.

However, in line with the stimulus issued by the Government and Bank Indonesia, as well as the gradual easing on social restrictions, the Indonesian capital market has shown a gradual improvement. The JCI, which touched the lowest level of 3,938 on March 24, 2020, started to show an increasing trend by the third quarter of 2020, and closed at 5,979 level in the 2020 closing.

KINERJA TAHUN 2020

Meski menghadapi kondisi yang sulit, Perseroan masih dapat membukukan beberapa catatan positif sepanjang tahun 2020, seperti nilai perdagangan saham oleh nasabah ritel, baik konvensional maupun secara *online*, yang tumbuh lebih 20% dari tahun sebelumnya, dan pengguna aktif aplkasi *online* TRIMA yang naik hingga hampir 80%.

Dengan sinergi antara Divisi Investment Banking dan Divisi Fixed Income Trading, Perseroan berhasil membukukan lebih dari 30 transaksi penerbitan obligasi korporasi, sehingga dapat menaikkan peringkat Perseroan dalam *Bloomberg Bond League Table* penerbitan obligasi korporasi dari peringkat 7 di tahun 2019 menjadi peringkat 3 di tahun 2020. Selain itu, Perseroan mempertahankan pangsa pasar dalam volume transaksi Surat Utang Negara dan menjadi perusahaan sekuritas dengan volume transaksi terbesar.

Dalam industri reksa dana, dana kelolaan anak perusahaan Perseroan yang sempat turun ke Rp14,6 triliun pada akhir kuartal I 2020, berangsur-angsur pulih dan mencapai Rp17,6 triliun pada penutupan tahun 2020. Selaras dengan itu, tim Agen Penjual Efek Reksa Dana (APERD) Perseroan berhasil mencetak peningkatan dana kelolaan menjadi Rp2,1 triliun per 30 Desember 2020, meningkat dari tahun sebelumnya.

Catatan-catatan positif tersebut juga tercermin pada kinerja keuangan Perseroan. Di tengah kondisi yang berat, pada tahun 2020 Perseroan masih berhasil membukukan laba bersih positif sebesar Rp28,3 miliar, meski menurun dari tahun sebelumnya sebesar Rp64,9 miliar. Di tengah isu *credit crunch* yang membayangi perekonomian, Perseroan tetap mampu mengelola likuiditasnya dengan baik dan memenuhi kebutuhan pendanaan untuk semua aktivitas bisnis sepanjang tahun 2020, serta semua kewajiban keuangannya.

PT Pemeringkat Efek Indonesia (PEFINDO) pun kembali memberikan peringkat "idA" untuk Perseroan dan MTN yang diterbitkan Perseroan di 2018, walau terjadi penurunan prospek "stabil" menjadi "negatif" sebagai dampak kinerja pasar modal secara keseluruhan. Meskipun demikian, Perseroan meyakini prospek ini akan kembali meningkat sejalan dengan perbaikan ekonomi dan pasar modal Indonesia.

THE 2020 PERFORMANCE

Despite facing difficult conditions, the Company managed to book positive records throughout 2020, including equity trading value by retail clients, both conventional and online, which grew over 20% from the previous year, and active users of TRIMA online application, which increased by almost 80%.

Supported by a synergy between Investment Banking Division and the Fixed Income Trading Division, the Company successfully executed more than 30 corporate bond issuance transactions, and improving the Company's rating at Bloomberg Bond League Table for corporate bond issuance from 7th rank in 2019 to 3rd rank in 2020. In addition, the Company also maintained its market share in Government Bonds transaction volume and became the securities company with the largest transaction volume.

In the mutual fund industry, the asset under management of the Company's subsidiary that once decreased to Rp14.6 trillion by end of the first quarter of 2020, gradually recovered and reached Rp17.6 trillion by the end of 2020. In line with this condition, the Mutual Funds Selling Agent team (APERD) managed to increase the asset under management to Rp2.1 trillion as of December 30, 2020, higher than previous year.

These positive records were also reflected in the Company's financial performance. Amidst the tough conditions, in 2020, the Company still managed to book a positive net income of Rp28.3 billion, although decreasing from Rp64.9 billion in the previous year. Amidst the credit crunch issue that overshadowed the economy, the Company managed to maintain its liquidity properly and fulfilled the funding needs for all business activities, as well as its financial obligations throughout 2020.

PT Pemeringkat Efek Indonesia (PEFINDO) has affirmed its "idA" rating for the Company and the MTN issued by the Company in 2018, despite the outlook downgrade from "stable" to "negative" as a consequence of overall capital market performance. However, the Company believes that the prospect will recover along with recovery in the Indonesian economy and capital market.

TATA KELOLA PERUSAHAAN

Dewan Komisaris Perseroan berkomitmen untuk mendukung penerapan Tata Kelola Perusahaan yang Baik sebagai bentuk tanggung jawab Perseroan sebagai perusahaan publik. Rapat Dewan Komisaris dan rapat gabungan Dewan Komisaris dengan Direksi juga telah diselenggarakan secara teratur sebanyak 7 kali selama tahun 2020 dengan 100% kehadiran anggota Direksi dan Dewan Komisaris. Rapat gabungan Dewan Komisaris dengan Direksi menjadi forum utama bagi Dewan Komisaris untuk menyampaikan arahan-arahan dan rekomendasi-rekomendasi bagi Direksi, baik dalam aspek tata kelola maupun dalam aspek bisnis, terutama dalam menghadapi kondisi pasar yang begitu berat.

Dalam menjalankan fungsi pengawasannya, Dewan Komisaris dibantu oleh beberapa komite yaitu, Komite Audit, Komite Nominasi dan Remunerasi, dan Komite Tata Kelola Terintegrasi.

Sepanjang tahun 2020, Komite Audit telah melaksanakan 4 rapat bersama dengan Manajemen dan Divisi Internal Audit, dan juga dengan auditor eksternal, untuk menelaah draft laporan keuangan setiap kuartal, dan membahas temuan-temuan dalam kegiatan operasional Perseroan, untuk kemudian menyampaikannya kepada Dewan Komisaris.

Komite Audit juga telah melakukan evaluasi terhadap pelaksanaan pemberian jasa audit oleh Kantor Akuntan Publik (KAP) atas tahun buku 2019, serta memberikan rekomendasi kepada Dewan Komisaris dalam penunjukan KAP untuk tahun buku 2020. Berdasarkan evaluasi yang dilakukan selama tahun 2020, secara umum Komite Audit berpendapat bahwa Perseroan telah melaksanakan praktik-praktik tata kelola yang baik dalam berbagai aspek yang penting.

Komite Nominasi dan Remunerasi juga telah membantu Dewan Komisaris dalam penentuan kompensasi, bonus, insentif, dan hal-hal lain yang menyangkut nominasi dan remunerasi Dewan Komisaris, Direksi dan karyawan Perseroan dan anak perusahaan. Komite Nominasi dan Remunerasi telah melaksanakan 2 rapat sepanjang tahun 2020 termasuk memberikan usulan pengangkatan kembali Komisaris Utama dalam Rapat Umum Pemegang Saham Tahunan 2020.

CORPORATE GOVERNANCE

The Board of Commissioners is committed to supporting Good Corporate Governance implementation as a realization of the Company's responsibility as a public company. The Board of Commissioners meetings as well as the Board of Commissioners and the Board of Directors joint meetings have also been held regularly in 7 meetings throughout 2020 with 100% attendance of the Board of Commissioners and Board of Directors members. The Board of Commissioners and Board of Directors joint meetings were also the main forum for the Board of Commissioners to give direction and recommendations for the Board of Directors, both in governance and business aspects, especially in dealing with the difficult market conditions.

In carrying out its supervisory function, the Board of Commissioners is assisted by several committees, such as Audit Committee, Nomination and Remuneration Committee, and Integrated Governance Committee.

Throughout 2020, Audit Committee held 4 joint meetings with the Management and Internal Audit Division, as well as with external auditor, to review draft of financial statements each quarter, and discuss the findings in the Company's operational activities, which then submitted to the Board of Commissioners.

The Audit Committee has also evaluated the implementation of the audit services provided by the Public Accounting Firm for the 2019 financial year, and provided recommendations to the Board of Commissioners concerning the appointment of Public Accounting Firm for the 2020 financial year. Based on the evaluation conducted in 2020, in general the Audit Committee viewed that the Company has implemented good governance practices in various important aspects.

The Nomination and Remuneration Committee has also assisted the Board of Commissioners in formulating compensation, bonuses, incentives, and other matters related to nomination and remuneration of the Board of Commissioners, Board of Directors and the employees in the Company and the subsidiary. The Nomination and Remuneration Committee held 2 meetings throughout 2020 including recommendation for reappointment of the President Commissioner in the Annual General Meeting of Shareholders 2020.

LAPORAN DEWAN KOMISARIS

Report from the Board of Commissioners

Di tahun 2020, Komite Tata Kelola terintegrasi juga telah melaksanakan tugasnya dan menyampaikan Laporan Tata Kelola Terintegrasi sebanyak 2 kali ke Otoritas Jasa Keuangan (OJK) yaitu pada bulan Juni dan Desember.

Untuk terus menjaga dan meningkatkan kompetensinya, anggota Dewan Komisaris juga mengikuti berbagai pelatihan dan seminar antara lain, "Program Pendidikan Berkelanjutan Direktur-Komisaris", serta "Sosialisasi dan Diseminasi terkait Pasar Modal, kewajiban yang harus dipenuhi oleh Emiten, dan peran Anggota Direksi dan anggota Dewan Komisaris dalam menjalankan perusahaan untuk memenuhi ekspektasi dan melindungi kepentingan pemegang saham" yang diselenggarakan oleh OJK bersama BEI.

PERUBAHAN ANGGOTA DEWAN KOMISARIS

Dalam Rapat Umum Pemegang Saham Tahunan pada tanggal 26 Agustus 2020, RUPS menyetujui pengangkatan kembali saya sebagai Komisaris Utama / Komisaris Independen. Atas kepercayaan para pemegang saham, saya menyampaikan terima kasih. Kepada seluruh anggota Dewan Komisaris dan Direksi, saya juga berharap dapat menjaga kerja sama yang baik seperti tahun-tahun sebelumnya.

PROSPEK USAHA

Dalam laporan *Global Economic Prospect* yang terbit pada Januari 2021, *World Bank* memproyeksikan pertumbuhan ekonomi dunia tahun 2021 sebesar 4%, dengan asumsi vaksin dapat terdistribusi dengan baik sepanjang tahun. Memasuki tahun 2021, meski cukup optimis dengan tren pergerakan IHSG di awal tahun 2021, dan jumlah investor ritel yang diperkirakan masih akan terus meningkat, Dewan Komisaris memandang bahwa kondisi pasar modal Indonesia masih dipengaruhi oleh (1) keberhasilan program vaksinasi COVID-19, (2) stimulus fiskal dari pemerintah dan stimulus moneter dari Bank Indonesia untuk menjaga kestabilan perekonomian dalam jangka pendek, serta (3) kebijakan *US Fed* untuk mengurangi injeksi likuiditas ke sistem keuangan (dengan cara mengurangi pembelian surat berharga yang

In 2020, the Integrated Governance Committee has also carried out its duties and submitted 2 Integrated Governance Reports to the Financial Services Authority (OJK) in June and December.

To maintain and improve competencies, the Board of Commissioners members have also attended various trainings and seminars, including, "Director-Commissioner Continuing Education Program", as well as "Capital Market Socialization and Dissemination, the obligations that shall be complied by Issuers, and roles of the Board of Directors and Board of Commissioners members in running the company to meet expectations and protect interests of the shareholders" held by OJK in collaboration with the IDX.

CHANGE IN BOARD OF COMMISSIONERS MEMBERS

In the Annual General Meetings of Shareholders on August 26, 2020, the GMS approved my reappointment as the President Commissioner / Independent Commissioner. I would like to express my gratitude to the shareholders for the trust given to me. To all members of the Board of Commissioners and the Board of Directors, I hope we can continue the good cooperation that has been established just like the previous years.

BUSINESS PROSPECT

In the Global Economic Prospect report published in January 2021, the World Bank projected global economic growth in 2021 would achieve 4%, with the assumption that the vaccines can be well distributed along the year. Entering 2021, despite fairly optimistic on the JCI trend in early 2021, as well as expectation on growing number of retail investors, the Board of Commissioners view that the Indonesian capital market condition will still be influenced by (1) the success of the COVID-19 vaccination program, (2) fiscal stimulus from the government and monetary stimulus from Bank Indonesia to maintain the short-term economic stability, and (3) the US Fed policy to reduce liquidity injection into the financial system (by reducing the purchase of securities issued by the US Treasury or tapering) as a result of higher inflation rate

diterbitkan oleh *US Treasury* atau *tapering*) sebagai akibat naiknya tingkat inflasi di Amerika Serikat yang dapat mempengaruhi *investor appetite* terhadap *financial assets* di negara negara berkembang, termasuk Indonesia.

in the United States that could affect investor appetite towards the financial assets in developing countries, including Indonesia.

Dewan Komisaris berkomitmen untuk terus mengikuti implementasi rencana-rencana kerja, dan pencapaian target-target Perseroan yang disusun bersama antara Direksi dengan Dewan Komisaris, sesuai dengan proyeksi ekonomi dan pasar modal 2021. Pertumbuhan jumlah investor di pasar modal yang signifikan di tahun 2020 merupakan sebuah peluang, dan diharapkan dapat dimanfaatkan oleh Perseroan sebaik-baiknya untuk memperkuat posisinya di tahun 2021. Rencana strategis Perseroan untuk semakin mempercepat proses transformasi *digital* terutama melalui *online platform* TRIMA akan menjadi salah satu momentum terpenting bagi Perseroan dalam jangka panjang, di tengah semakin kompetitifnya industri pasar modal Indonesia.

The Board of Commissioners is committed to always overseeing the implementation of the Company's work plans, and the achievement of the targets that have been prepared together by the Board of Directors and the Board of Commissioners, in accordance with economic and capital market projections in 2021. The significant growth in number of investors at the capital market in 2020 is an opportunity, and the Company is expected to optimally seize the opportunity to strengthen its position in 2021. The Company's strategic plan to further accelerate the digital transformation process, especially via TRIMA online platform, will be one of the crucial momentum for the Company in the long term, amidst the more competitive Indonesian capital market industry.

Sebagai penutup, atas nama Dewan Komisaris, saya mengucapkan selamat atas usia Perseroan yang memasuki tahun ke-30. Kami berharap dengan pengalaman yang dimiliki dan hubungan yang baik dengan seluruh pemangku kepentingan, Perseroan dapat terus hadir dan berkontribusi bagi pasar modal Indonesia. Tidak lupa kami mengingatkan, agar Perseroan terus menerapkan prinsip-prinsip Tata Kelola Perusahaan yang Baik sehingga dapat mempertahankan posisinya sebagai *investment partner* yang *prudent* bagi masyarakat.

As a closing, on behalf of the Board of Commissioners, I would like to congratulate the Company for 30th anniversary. With the experience and good relationships with all stakeholders, we hope the Company will continue its existence and contribution to Indonesian capital market. In addition, we would also remind that the Company shall always implement the Good Corporate Governance principles in order to maintain its position as a prudent investment partner to the society.

Amidst the COVID-19 pandemic, the Company has treated work safety as one of top priorities in 2020 through the implementation of Partial Work from Home policy, while still ensuring that the Company's business activities and operations were run as usual to ensure the Company's going concern and position in the industry.

LAPORAN DIREKSI

Report from the Board of Directors

Pemegang Saham yang Terhormat,

Pandemi COVID-19 di tahun 2020 telah membatasi mobilitas dan kegiatan masyarakat, sehingga akhirnya menekan kegiatan ekonomi, baik negara maju maupun negara berkembang, bahkan sempat menyebabkan resesi di beberapa negara. Setelah *World Health Organization (WHO)* mendeklarasikan bahwa pandemi COVID-19 telah melanda dunia pada 11 Maret 2020, dalam *World Economic Outlook, International Monetary Fund (IMF)* yang semula memproyeksikan pertumbuhan ekonomi dunia tahun 2020 sebesar 3,3%, melakukan beberapa kali revisi hingga akhirnya melaporkan kontraksi ekonomi dunia sebesar 3,5% dalam *release*-nya di bulan Januari 2021. Di sisi domestik, sejalan dengan kondisi ekonomi global, ekonomi Indonesia tahun 2020 juga mengalami kontraksi 2,07%, dibandingkan tahun 2019 yang mencatat pertumbuhan 5,02%.

Pandemi COVID-19 pada gilirannya juga ikut berdampak pada pasar modal Indonesia. Sepanjang tahun 2020, terjadi *net sell* Surat Berharga Negara sebesar Rp86,8 triliun, dan *net sell* saham mencapai Rp47,9 triliun. IHSG menyentuh level terendah 3.938 pada bulan Maret 2020, dan baru mulai memperlihatkan sinyal positif di semester II tahun 2020, serta menutup tahun 2020 di level 5.979, atau turun sekitar 5% dari penutupan 2019 pada level 6.299.

Di tengah pandemi COVID-19, Perseroan telah menempatkan keselamatan kerja sebagai salah satu prioritas utama sepanjang tahun 2020 dengan pemberlakuan kebijakan *Partial Work from Home*, namun sambil tetap memastikan kegiatan bisnis dan operasional Perseroan tetap berjalan seperti seharusnya untuk memastikan keberlangsungan dan posisi Perseroan di industri.

Dear Shareholders,

In 2020, COVID-19 pandemic has restricted public mobility and activities, and eventually contracted the economic activity, both the developed and the developing countries, and even once caused a recession in some countries. Following the declaration by World Health Organization (WHO) stating the COVID-19 pandemic outbreak worldwide on March 11, 2020, in the World Economic Outlook, the International Monetary Fund (IMF), which originally projected the world economic growth of 3.3% in 2020, made several revisions and finally reported global economic contraction of 3.5% it its release in January 2021. Domestically, along with the global economic conditions, the Indonesia's economy also experienced a contraction of 2.07% in 2020, compared to 5.02% growth in 2019.

In turn, COVID-19 pandemic also affected the Indonesia's capital market. In 2020, the net sell of Government Securities amounted to Rp86.8 trillion, and the net sell of stocks amounted to Rp47.9 trillion. The JCI hit the lowest level of 3,938 in March 2020, and just started to indicate positive signals in the second half of 2020, and closed 2020 at 5,979 level, or down approximately by 5% from the 2019 closing at 6,299 level.

Amidst the COVID-19 pandemic, the Company has treated work safety as one of top priorities in 2020 through the implementation of Partial Work from Home policy, while still ensuring that the Company's business activities and operations were run as usual to ensure the Company's going concern and position in the industry.

Report from the Board of Directors

Sejalan dengan kondisi pasar, nilai perdagangan saham yang dibukukan oleh bisnis *Equity Trading* Perseroan di tahun 2020 juga mengalami penurunan, dan baru mencatat perbaikan kinerja di kuartal III 2020. Meskipun demikian, nilai transaksi oleh nasabah ritel, baik secara konvensional melalui kantor-kantor cabang maupun melalui aplikasi *online* TRIMA, mencapai Rp33,9 triliun, meningkat 21% dari tahun sebelumnya. Perseroan juga mencatat rekor pengguna aktif TRIMA sebanyak 13.013 pengguna pada tahun 2020, naik 79% dari tahun 2019.

In line with market conditions, in 2020 Equity Trading business booked a decline in equity trading value, and the performance started to improve in the third quarter of 2020. However, transaction value by the retail clients, both conventionally through branch offices and via TRIMA online application, achieved Rp33.9 trillion, increased by 21% from the previous year. The Company also recorded TRIMIA users record of 13,013 active users in 2020, grew by 79% from 2019.

Meskipun Bank Indonesia menurunkan *BI 7-Day Reverse Repo Rate (BI7DRRR)* dari 5,00% di awal tahun 2020 menjadi 3,75% di akhir tahun 2020, pandemi COVID-19 telah menyebabkan dunia usaha menunda ekspansi bisnis dan aksi korporasinya terutama untuk instrumen ekuitas. Meskipun demikian, Divisi Investment Banking tetap membukukan beberapa transaksi *advisory,* dan *right issue*. Bekerja sama dengan Divisi Fixed Income Trading, Divisi Investment Banking juga membukukan lebih dari 30 penerbitan obligasi korporasi, berpartisipasi dalam penerbitan 4 *Global Bonds*, serta terlibat dalam penerbitan 1 MTN dan 2 NCD.

Although Bank Indonesia lowered the BI 7-Day Reverse Repo Rate (BI7DRRR) from 5.00% in early 2020 to 3.75% at the end of 2020, the COVID-19 pandemic had forced the business sector to postpone their business expansion and corporate actions, especially for equity instruments. However, Investment Banking Division managed to book some advisory and rights issues transactions. In collaboration with Fixed Income Trading Division, the Investment Banking Division also booked more than 30 corporate bond issuances, participated in issuance of 4 Global Bonds, and was involved in the issuance of 1 MTN and 2 NCDs.

Dalam *Bloomberg Bond League Table*, Perseroan menempati peringkat 3 dalam penerbitan obligasi korporasi, naik dari peringkat 7 di tahun 2019. Perseroan juga berhasil meraih penghargaaan "*Rank 3rd Best Local Brokerage*" dalam *The 31st Annual Asiamoney Brokers Poll*, dan mempertahankan prestasinya sebagai Dealer Utama Terbaik dari Kementerian Keuangan Republik Indonesia setelah sebelumnya memperoleh penghargaan serupa selama 3 tahun berturut-turut.

The Company achieved the 3rd rank in the Bloomberg Bond League Table for corporate bonds issuance, improved from the 7th rank in 2019. The Company has also been awarded as "3rd Rank Best Local Brokerage" in The 31st Annual Asiamoney Brokers Poll, and maintains performance as the Best Primary Dealer from the Ministry of Finance of the Republic of Indonesia after receiving the same award for 3 consecutive years.

Selain itu, pada bulan September 2020, Divisi Fixed Income Trading meluncurkan *website* fit.trimegah.id yang merupakan *platform* untuk nasabah mempelajari dan membeli obligasi korporasi secara *online* saat penerbitan (Pasar Perdana).

In addition, in September 2020, the Fixed Income Trading Division launched fit.trimegah.id website as a platform for clients to learn and buy corporate bonds online at the issuance (Primary Market).

Dalam kegiatan Agen Penjual Efek Reksa Dana (APERD), per 30 Desember 2020 Perseroan berhasil membukukan dana kelolaan sebesar Rp2,1 triliun, atau naik 3% dari akhir tahun sebelumnya. Meski sempat mengalami tekanan terutama pada bulan Maret 2020, pada akhir 2020 entitas anak Perseroan berhasil membukukan dana kelolaan (AUM) sebesar Rp17,6 triliun, dan menjaga kinerja produk-produknya sehingga beberapa produknya memperoleh penghargaan di kelas asetnya. Salah satu produk tersebut adalah Reksa Dana Trimegah Balanced Absolute Strategy (BASTRA) yang berhasil mencatat kinerja positif sebesar 22%.

Dampak pandemi COVID-19 pada kinerja pasar modal dan Perseroan tidak sepenuhnya dapat dihindari. Pada tahun 2020 Perseroan membukukan pendapatan usaha sebesar Rp424,0 miliar, sedikit lebih rendah dari pendapatan usaha tahun 2019 sebesar Rp443,0 miliar. Beban usaha meningkat 3,4% dari Rp299,3 miliar pada tahun 2019 menjadi sekitar Rp309,5 miliar pada tahun 2020, antara lain karena peningkatan beban pemasaran, dan cadangan kerugian penurunan nilai terkait dengan penerapan PSAK 71 yang mulai berlaku pada tahun 2020. Dalam kondisi yang sulit ini, Perseroan masih membukukan laba bersih tahun berjalan 2020 yang positif sebesar Rp28,2 miliar walau turun dari Rp64,9 miliar di tahun sebelumnya. Laba bersih tahun berjalan tahun 2020 ini mencerminkan sekitar 37% dari target Perseroan yang dibuat di akhir 2019, sebelum terjadinya pandemi COVID-19.

Sehubungan dengan *Medium Term Notes* yang diterbitkan Perseroan di tahun 2018, PT Pemeringkat Efek Indonesia (PEFINDO) menegaskan peringkat "idA" untuk Perseroan dan MTN I Tahun 2018 tersebut, walau merevisi prospek Perseroan dari "stabil" menjadi "negatif" sebagai akibat turunnya kinerja pasar modal secara keseluruhan. Meskipun demikian, Perseroan optimis prospek ini dapat kembali membaik sejalan dengan pulihnya pasar modal Indonesia ke depan.

In Mutual Funds Selling Agent (APERD) activities, as of December 30, 2020, the Company managed to book asset under management of Rp2.1 trillion, or increased by 3% from end of the previous year. Despite experiencing pressures, especially in March 2020, as end of 2020, the subsidiary of the Company managed to book asset under management of Rp17.6 trillion, and maintained the products performance thereby some of the products earned awards in their asset class. One of the awarded products is Trimegah Balanced Absolute Strategy (BASTRA) Mutual Fund which successfully recorded a positive performance of 22%.

Impact of COVID-19 pandemic on the capital market and the Company's performance is inevitable. In 2020, the Company booked revenues of Rp424.0 billion, slightly lower than 2019 revenues of Rp443.0 billion. Operating expenses increased by 3.4% from Rp299.3 billion in 2019 to around Rp309.5 billion in 2020, partly due to higher marketing expenses and provision for impairment losses related to implementation of SFAS 71 which was effectively implemented since 2020. Under these difficult situations, the Company managed to book a positive net income for the year of Rp28.2 billion in 2020, although lower than the previous year's net income of Rp64.9 billion. Net income for the year in 2020 represented around 37% of the Company's target set at the end of 2019, prior to the COVID-19 pandemic.

Regarding the Medium Term Notes issued by the Company in 2018, PT Pemeringkat Efek Indonesia (PEFINDO) affirmed "idA" rating for the Company and the MTN I Year 2018, although still revising the Company's outlook from "stable" to "negative" as a consequence of overall decline in the capital market performance. However, the Company remains optimistic that this prospect will recover in line with the future recovery in the Indonesia's capital market going forward.

LAPORAN DIREKSI

Report from the Board of Directors

PRAKTIK TATA KELOLA PERUSAHAAN

Sebagai perusahaan publik, Perseroan menyadari bahwa keberlangsungan Perseroan dalam jangka panjang harus juga didasarkan pada Tata Kelola Perusahaan yang Baik. Sepanjang tahun 2020 Rapat Direksi diselenggarakan sebanyak lebih dari 50 kali, dihadiri oleh Direksi, Sekretaris Perusahaan dan unit-unit kerja terkait. Rapat gabungan Direksi dan Dewan Komisaris juga diselenggarakan secara teratur, dengan frekuensi rapat sebanyak 7 kali sepanjang tahun 2020.

Sejalan dengan bisnis *online* Perseroan yang semakin berkembang, di tahun 2020 Divisi Internal Audit melaksanakan pemeriksaan terhadap kegiatan transaksi *online* sebagai wujud komitmen untuk ikut menjaga momentum pertumbuhan yang sehat untuk jangka panjang.

Dalam mengantisipasi kondisi pasar yang tidak bersahabat, Divisi Risk Management melakuan beberapa inisiatif, antara lain melakukan serangkaian *stress test* untuk memantau risiko likuiditas Perseroan, dan mengembangkan otomasi proses monitoring risiko terutama risiko kredit.

KOMPOSISI DIREKSI

Terkait komposisi Direksi, kami laporkan bahwa tidak terdapat perubahan komposisi anggota Direksi pada tahun 2020.

PROSPEK USAHA 2021

Memasuki tahun kedua masa pandemi COVID-19, Perseroan melihat kondisi perekonomian dan pasar modal akan membaik. Dengan proyeksi pertumbuhan ekonomi Indonesia sebesar 4,5% - 5,3% di tahun 2021, berbagai insentif dan upaya pemulihan yang dilakukan oleh pemerintah, pasar modal Indonesia diyakini akan memiliki prospek yang baik di tahun 2021.

CORPORATE GOVERNANCE PRACTICE

As a public company, the Company realizes that the Company's long-term sustainability shall also be determined by a Good Corporate Governance. Throughout 2020, the Board of Directors held more than 50 meetings, attended by the Board of Directors, Corporate Secretary and related work units. The Board of Directors and Board of Commissioners joint meetings were also held regularly, with a frequency of 7 meetings throughout 2020.

In line with the Company's growing online business, in 2020 the Internal Audit Division also conducted an audit on online transaction activities as a mean of commitment to maintain a healthy long-term growth momentum.

In anticipating unfavorable market conditions, the Risk Management Division executed several initiatives, including series of stress tests to monitor the Company's liquidity risk, and developed an automated risk monitoring process, especially for credit risk.

BOARD OF DIRECTORS COMPOSITION

Related to the Board of Directors composition, we would report that there is no change in the composition of the members of the Board of Directors in 2020.

BUSINESS PROSPECT 2021

Entering the second year of COVID-19 pandemic, the Company views that the economic and capital market conditions will improve. With a projection of Indonesia's economic growth of 4.5% - 5.3% in 2021, various incentives and recovery efforts having been implemented by the government, the Indonesia's capital market are believed to have positive prospects in 2021.

Pada pasar obligasi korporasi, penerbitan obligasi korporasi di tahun 2021 dipandang masih cukup menarik. Tingkat suku bunga yang rendah dan likuiditas yang tinggi akan menopang penerbitan dan perdagangan obligasi korporasi di tahun 2021. Obligasi korporasi yang akan jatuh tempo pada tahun 2021 diperkirakan mencapai Rp121 triliun dan penerbitan obligasi korporasi berpotensi mencapai Rp140 triliun, lebih besar dibandingkan dengan realisasi penerbitan obligasi di tahun 2020. Pada Surat Berharga Negara (SBN), di tahun 2021, Kementerian Keuangan Republik Indonesia berencana untuk menerbitkan 6 SBN Ritel senilai Rp80 triliun.

In the corporate bonds market, issuance of corporate bonds in 2021 is still projected promising. Low interest rates and high liquidity will support the corporate bonds issuance and trading in 2021. Corporate bonds that will mature in 2021 are estimated to reach Rp121 trillion and the issuance of the corporate bonds has the potential to reach Rp140 trillion, higher than the realization of bond issuance in 2020. In Government Securities (SBN), the Ministry of Finance of the Republic of Indonesia plans to issue 6 Retail SBNs worth Rp80 trillion in 2021.

Divisi Research Perseroan memproyeksikan IHSG berpotensi mencapai level 6.700 pada akhir 2021 dengan mempertimbangkan beberapa katalis seperti keberhasilan program vaksin dan efikasinya, stimulus pemerintah untuk ekonomi dalam jangka pendek, dampak Omnibus Law terhadap investasi, serta dampak kenaikan harga komoditas terhadap ekonomi.

The Company's Research Division projected that JCI may potentially reach 6,700 level by end of 2021 by considering several catalysts such as the success of the vaccine program and its efficacy, government short-term economic stimulus, impact of the Omnibus Law on investment, and impact of increasing commodity prices on the economy.

Di tahun 2021 PT Bursa Efek Indonesia menargetkan 22 IPO saham, dan nilai perdagangan saham harian rata-rata sebesar Rp8,5 triliun. Sedangkan dalam industri reksa dana, Asosiasi Pelaku Reksa Dana dan Investasi Indonesia (APRDI) memproyeksikan dana kelolaan industri di tahun 2021 berpotensi tumbuh 15-20%.

In 2021, the Indonesian Stock Exchange has set the target of 22 equity IPOs, and average daily equity trading value of Rp8.5 trillion. Meanwhile, in mutual fund industry, Indonesian Mutual Funds and Investment Players Association (APRDI) projected asset under management of the industry has the potential to grow 15-20% in 2021.

Melihat prospek di atas dan jumlah investor yang tumbuh sekitar 56% di tahun 2020, terutama investor ritel pada segmen *online* termasuk generasi millenial, ke depan Perseroan akan semakin memfokuskan pada nasabah ritel terutama segmen *online*, baik untuk investasi pada saham, reksa dana maupun obligasi ritel melalui aplikasi *online* yang terintegrasi yang terus dikembangkan dengan dukungan program edukasi yang semakin intensif.

Looking at the prospects explained above and the number of investors that grew by around 56% in 2020, especially retail investors in online segment including the millennial generation, going forward the Company will be more focused on retail clients, especially for online segment, both for investments in stocks, mutual funds and retail bonds via an integrated online applications, which are continuously developed, and supported by a more intensive education program.

Atas pencapaian tahun 2020, di tengah kondisi pasar modal yang begitu berat, Direksi menyampaikan terima kasih kepada Dewan Komisaris atas pengawasan dan arahan yang diberikan. Terima kasih dan apresiasi kepada para nasabah dan mitra kerja atas kepercayaannya, dan kepada seluruh karyawan atas kerja keras dan loyalitasnya pada Peseroan.

Akhir kata, di usia Perseroan yang ke-30 tahun, kehadiran Perseroan di pasar modal Indonesia selama ini tidak lepas dari dukungan seluruh pemangku kepentingan termasuk komunitas pasar modal Indonesia. Terima kasih telah bersama kami dalam 30 tahun perjalanan. Kepercayaan Anda telah menjadi dorongan terbesar dalam perjalanan kami. Kami berharap sinergi dan dukungan yang sangat baik ini akan terus hadir di waktu-waktu yang akan datang.

For the achievements in 2020, amidst the tough capital market conditions, the Board of Directors would like to thank the Board of Commissioners for their supervision and direction. Our appreciation and gratitude are also addressed to the clients and partners for the trusts, and to all employees for the hard work and loyalty to the Company.

Finally, on the 30th anniversary of the Company, our presence in the Indonesia's capital market is a proof of supports from all stakeholders including the Indonesia's capital market community. Thank you for accompanying us on our 30 years of journey. Your trust has been the biggest drive in our journey. We hope that this very good synergy and support will sustain in the future.

EQUITY TRADING

Pertumbuhan pasar modal yang relatif menggembirakan pada beberapa tahun terakhir mengalami perlambatan pada tahun 2020 akibat COVID-19. Total nilai perdagangan saham di Bursa Efek Indonesia (BEI) yang tumbuh pada kisaran 10% per tahun pada tahun 2018 dan 2019 mengalami sedikit penurunan pada tahun 2020.

Indeks Harga Saham Gabungan (IHSG) sempat tertekan hingga level 3.938 pada 24 Maret 2020, turun 37% dari level pada penutupan perdagangan akhir 2019 level 6.299. Sebagai mitigasi penurunan tersebut, BEI menerapkan beberapa kebijakan antara lain perubahan batasan *trading halt,* pelarangan *short selling,* dan penerapan *Auto Rejection Asymmetric.* Kebijakan-kebijakan tersebut dilakukan untuk melindungi pelaku pasar modal, baik sisi investor maupun emiten, di tengah kondisi pandemi.

Namun demikian, Pasar Modal Indonesia masih mencatatkan beberapa hal positif di tahun 2020. Menurut data BEI, terdapat kenaikan signifikan pada jumlah investor pasar modal yang mencapai 3,5 juta per 31 Desember 2020, naik 42% dari 31 Desember 2019 yang mencapai 2,48 juta. Selain itu, terdapat peningkatan rata-rata frekuensi perdagangan harian hingga lebih dari 40% dibandingkan tahun 2019.

Serupa dengan kondisi di industri, bisnis *Equity Trading* Perseroan juga terdampak oleh kondisi *market* yang kurang kondusif. Nilai perdagangan saham 2020 juga mengalami penurunan dibanding 2019. Hal ini sebagian besar disebabkan oleh kondisi pandemi yang mendorong nasabah, terutama nasabah institutional untuk lebih menjaga likuiditasnya. Seiring dengan pemulihan kondisi pasar di semester II 2020, kinerja bisnis *Equity Trading* Perseroan mencatat perbaikan terutama di bulan Oktober sampai Desember 2020.

The relatively encouraging capital market growth in the last several years slowed down in 2020 due to COVID-19. The total equity trading value at the Indonesia Stock Exchange (IDX) that grew around 10% per year in 2018 and 2019 experienced a slight decline in 2020.

The Jakarta Composite Index (JCI) was depressed to a level of 3,938 on March 24, 2020, down 37% from 6,299 level at end of 2019. As a mitigation to the decline, the IDX implemented several policies, including revision on trading halt limit, prohibition of short selling, and implementation of Auto Rejection Asymmetric. These policies were carried out to protect capital market players, both investors and issuers, amid the pandemic.

However, the Indonesia's Capital Market still recorded some positive records in 2020. Based on the IDX data, there was a significant increase in number of capital market investors, which reached 3.5 million as of December 31, 2020, increased by 42% from December 31, 2019 which reached 2.48 million. In addition, there was also an increase in the average daily trading frequency by more than 40% from 2019.

Similar to the conditions in the industry, the Company's Equity Trading business was also affected by unfavorable market conditions. The equity trading value in 2020 also decreased compared to 2019. This was mainly due to pandemic that forced clients, especially institutional clients, more to maintain their liquidity. As the market conditions recovered by the second half in of 2020, the Company's Equity Trading business performance also rebounded, especially in October to December 2020.

Selain itu, Perseroan mencatat pertumbuhan yang signifikan pada nilai transaksi oleh nasabah ritel, baik secara konvensional melalui kantor-kantor cabang maupun melalui aplikasi *online* yang mencapai Rp33,9 triliun, naik 21% dari 2019. Perseroan juga mencatat rekor pengguna aktif TRIMA mencapai 13.013 *user* pada tahun 2020, naik 79% dibandingkan 2019.

Mencermati pertumbuhan nasabah ritel yang menyumbang kenaikan transaksi pada tahun 2020, Perseroan juga terus meningkatkan kehandalan aspek teknologi informasi sebagai *backbone* operasional Perseroan. Lonjakan nilai dan frekuensi transaksi melalui TRIMA pada tahun 2020 berhasil diakomodasi dengan baik di mana seluruh pengguna dapat melakukan transaksi dengan baik.

Perseroan juga secara aktif menyelenggarakan berbagai *event* edukasi pada tahun 2020 berupa *client gathering* secara *virtual* berupa webinar *online*, Instagram Live dan acara serupa lainnya untuk menjalin hubungan dengan nasabah eksisting maupun calon nasabah. Konten-konten yang dihadirkan merupakan hasil kolaborasi dengan berbagai pihak, termasuk Divisi Research sehingga Perseroan dapat memberikan panduan investasi yang lebih komprehensif dan mendalam.

Divisi Equity Trading optimis bahwa bisnis *equity trading* di tahun 2021 akan lebih baik dibandingkan tahun 2020. IHSG yang berangsur pulih, dan jumlah investor retail di pasar modal yang terus meningkat diharapkan akan memperluas peluang pertumbuhan bagi Perseroan.

Untuk mendukung digitalisasi yang terus berlangsung, Perseroan juga akan terus mengembangkan fitur di aplikasi TRIMA dan terus mengembangkan TELL sebagai salah satu *channel* edukasi Perseroan. Pada tahun 2021, Perseroan berencana untuk melakukan *revamp* aplikasi TRIMA untuk menghadirkan fitur-fitur baru dan *user experience* yang lebih baik, khususnya membangun TRIMA sebagai salah *top of mind* aplikasi *online trading* di Indonesia.

In addition to that, the Company recorded a significant growth in transaction value by retail clients, both conventionally through branch offices and through online application which reached Rp33.9 trillion, grew 21% from 2019. The Company also broke the record of TRIMA active users of 13,013 users in 2020, increased by 79% compared to 2019.

Observing the growth of retail clients that contributed to the increase in transactions throughout 2020, the Company also continues to improve the reliability of the information technology aspect as the backbone of the Company's operations. The surge in value and frequency of transactions via TRIMA in 2020 had been successfully accommodated where all users managed to do their transactions appropriately.

The Company also actively organized various educational events in 2020 in form of virtual client meetings such as online webinars, Instagram Live and other similar events to build relationships with existing or potential clients. The contents presented are collaborated with various parties, including the Research Division thereby the Company was capable to provide a more comprehensive and in-depth investment guide.

The Equity Trading Division views equity trading business in 2021 will be optimistically better than in 2020. The JCI that has been gradually recovering, and the growing number of retail investors in the capital market are expected to expand growth opportunities for the Company.

To support continuous digitalization, the Company will continue to further develop features in the TRIMA application and TELL as one of the Company's educational channels. In 2021, the Company plans to revamp TRIMA application to deliver new features and better user experience, specifically to make TRIMA as one of top of mind online trading applications in Indonesia.

MUTUAL FUNDS SELLING AGENT

Kontraksi ekonomi yang terjadi di seluruh dunia pada tahun 2020 sebagai dampak penyebaran COVID-19 telah mengakibatkan *crash* pada pasar saham di seluruh dunia pada kuartal I tahun 2020, tak terkecuali Indonesia. Indeks Harga Saham Gabungan (IHSG) yang pada penutupan 2019 berada pada level 6.299, jatuh hingga level 3.938 pada 24 Maret 2020, atau turun 37% dalam 3 bulan.

Seiring dengan kondisi tersebut, industri reksa dana juga mengalami penurunan terlihat dari *Asset Under Management* (AUM) industri yang turun dari Rp537,5 triliun pada Januari 2020 menjadi Rp471,8 triliun pada Maret 2020, walau kemudian mulai mengalami perbaikan pada semester II 2020 dengan pertumbuhan sekitar 5%.

Meskipun demikian, di tengah kondisi pasar yang kurang kondusif, tim Agen Penjual Efek Reksa Dana (APERD) Perseroan berhasil mencetak peningkatan dana kelolaan menjadi Rp2,1 triliun per 30 Desember 2020, atau naik 3% dibandingkan tahun sebelumnya. Salah satu strategi yang diterapkan adalah dengan memperluas diversifikasi produk untuk memberikan alternatif yang lebih beragam kepada nasabah.

In 2020, an economic contraction occurred across the globe following the COVID-19 outbreak has resulted in a crash at stock markets worldwide by the first quarter of 2020, including Indonesia. The Jakarta Composite Index (JCI), which on the closing of 2019 stood at the level of 6,299, fell to 3,938 level on March 24, 2020, or fell 37% in 3 months.

In line with these conditions, the mutual fund industry also experienced a decline, as indicated by Asset Under Management (AUM) of the industry, which declined from Rp537.5 trillion in January 2020 to Rp471.8 trillion in March 2020. This, however, rebound in the second half of 2020 with a growth of approximately 5%.

However, amidst unfavorable market conditions, the Mutual Funds Selling Agent (APERD) team of the Company managed to increase the asset under management to Rp2.1 trillion as of December 30, 2020, or increased by 3% compared to the previous year. One of the strategies implemented was to expand product diversification to provide more variety to clients.

Selain dampak penyebaran COVID-19 dan isu-isu yang kurang kondusif di pasar modal, tantangan lain yang dihadapi oleh tim APERD Perseroan adalah semakin meningkatnya persaingan di industri dengan hadirnya perusahaan berbasis *financial technology* (*fintech*) yang juga ikut menawarkan reksa dana. Meskipun demikian, di sisi lain, Perseroan melihat hal ini secara positif karena semakin banyaknya kompetitor menunjukan bahwa literasi dan minat masyarakat terhadap reksa dana cukup tinggi.

In addition to the impact of the COVID-19 outbreak and unfavorable issues in the capital market, another challenge encountered by the APERD team was the increasing competition in the industry following presence of the financial technology-based companies (fintech) that also offer mutual funds. On the other hand, however, the Company views this positively as increasing number of competitors indicates high literacy and interest of the society to mutual funds.

Kondisi pandemi juga mendorong Tim APERD Perseroan untuk beradaptasi, dimana sebelumnya *client gathering* dilakukan dalam bentuk *offline event* namun sekarang dilakukan secara *online* dalam bentuk webinar dan Instagram Live bekerjasama dengan berbagai pihak, baik internal maupun eksternal termasuk Manajer Investasi (MI). Kegiatan tersebut dikemas secara edukatif dan menarik dengan frekuensi penyelenggaraan yang cukup tinggi sehingga jumlah audiens meningkat dari waktu ke waktu.

Pandemic conditions have also forced the APERD Team to adapt, where previously client gatherings were held as offline events, recently, the event was held online in the form of webinars and Instagram Live in collaboration with various parties, both internal and external including Investment Managers (MI). These activities are presented in educational and attractive events with a fairly high frequency of schedule thereby number.

Data Perseroan menunjukkan bahwa *online event* turut berkontribusi pada permintaan produk. Produk tertentu yang semula tidak mencatat permintaan yang tinggi akhirnya menunjukkan kenaikan *demand* yang cukup tajam setelah diselenggarakan webinar sehubungan dengan produk tersebut. Selain sebagai sarana memperkenalkan produk, webinar yang dikemas secara edukatif ini juga menjadi sarana Perseroan dalam meningkatkan edukasi dan literasi keuangan masyarakat selama tahun 2020.

The Company data shows that online events have contributed to product demand. Certain products, which previously did not have high demand, eventually showed a significant increase in demand after a webinars on the product was held. In addition to introducing products, this educational webinars also improves public financial education and literacy throughout 2020.

Memasuki tahun 2021, sejalan dengan pandangan Divisi Research Perseroan yang cukup optimis dengan pertumbuhan IHSG pada tahun 2021, dan harapan bahwa kondisi perekonomian juga akan berangsur pulih, Tim APERD memandang bahwa bisnis reksa dana di tahun 2021 akan tumbuh positif. Seiring dengan pesatnya pertumbuhan investor ritel, Perseroan juga terus mengembangkan inisiatif *digital* termasuk aplikasi dan teknologi Perseroan untuk meningkatkan *user experience* dalam berinvestasi.

Entering 2021, in line with the view of our Research Division which is optimistic on the JCI growth 2021, and the expectation that the economic conditions will also gradually recover, the APERD Team is optimistic that mutual fund business in 2021 will grow. Along with the rapid growth of retail investors, the Company also continues to develop digital initiatives including the applications and technology to improve user experience in investment.

Sebagai dampak pandemi COVID-19, IMF memperkirakan perekonomian global tahun 2020 mengalami kontraksi sebesar 3,5%, jauh di bawah proyeksi pada laporan bulan Januari 2020 yaitu pertumbuhan sebesar 3,3%. Penurunan perekonomian global ini direspon oleh banyak bank sentral dengan menurunkan tingkat suku bunga, atau bahkan melakukan *Quantitative Easing* (QE) untuk meningkatkan likuiditas di pasar. *The Federal Reserve* menurunkan *the Fed Funds Rate* sebesar 1,50% sejak bulan Maret 2020 menjadi level 0,00%-0,25% pada bulan Desember 2020. Di dalam negeri, Bank Indonesia juga menurunkan BI7DRRR dari 5,00% di awal tahun 2020 menjadi 3,75% di akhir tahun 2020.

Dalam rangka Program Pemulihan Ekonomi Nasional (PEN), melalui Kementerian Keuangan, di tahun 2020 Pemerintah meningkatkan penerbitan Surat Berharga Negara (SBN) menjadi Rp1.170 triliun. Sementara itu, di sisi korporasi, pandemi COVID-19 telah menyebabkan korporasi menunda ekspansi bisnis dan rencana penerbitan obligasinya. Beberapa emiten bahkan mempercepat pelunasan obligasi yang telah diterbitkan. Pada tahun 2020, penerbitan obligasi dan sukuk korporasi mencapai Rp92,4 triliun, turun sekitar

As a consequence of COVID-19 pandemic, the IMF estimated the global economy in 2020 will be contracted by 3.5%, way below January 2020 report projection of growth by 3.3%. The global economic downturn was responded by many central banks by lowering the interest rate, and even implementing Quantitative Easing (QE) to increase market liquidity. The Federal Reserve decreased the Fed Funds Rate by 1.50% since March 2020 to 0.00%-0.25% level in December 2020. At national level, Bank Indonesia also cut BI7DRRR from 5.00% at early 2020 to 3.75% by end of 2020.

In the National Economic Recovery (PEN) Program, through the Ministry of Finance, in 2020 the Government increased the issuance of Government Securities (SBN) to Rp1,170 trillion. Meanwhile, in the corporate side, the COVID-19 pandemic has forced the corporations to postpone their business expansion and bond issuance plan. Some issuers even preferred to repay their outstanding bonds earlier. In 2020, the corporate bonds and sukuk issuance achieved Rp92.4 trillion, decreased by around 25% compared to 2019.

25% dari tahun 2019. Tantangan lain di pasar obligasi korporasi datang dari penurunan peringkat dan *outlook* surat utang beberapa emiten akibat pandemi, yang pada gilirannya berdampak negatif pada *appetite* investor dalam bertransaksi pada surat utang.

Meskipun demikian, dengan terus bersinergi dengan Divisi Investment Banking dalam mendapatkan mandat IPO obligasi korporasi, dan menerapkan strategi *reverse referral* yang baik, Divisi Fixed Income Trading berhasil mencatat kinerja positif dengan membukukan IPO obligasi korporasi sebesar Rp10,76 triliun yang terdiri dari 35 IPO obligasi korporasi, 2 *Negotiable Certificate of Deposits* (NCD), dan 1 penerbitan *Medium Term Notes* (MTN). Volume ini tumbuh 9,13% dari Rp9,86 triliun pada tahun 2019 dan turut menaikkan peringkat Perseroan dalam *Bloomberg Bond League Table* penerbitan obligasi korporasi dari peringkat 7 di tahun 2019 menjadi peringkat 3 di tahun 2020.

Seiring dengan komitmen Perseroan untuk '*go digital*', Divisi Fixed Income Trading telah mengembangkan *platform* untuk membantu nasabah mempelajari dan membeli obligasi korporasi secara *online* saat IPO melalui website fit.trimegah.id yang diluncurkan pada September 2020. Sejak peluncuran *platform* tersebut, Perseroan berhasil menyelesaikan 7 IPO obligasi korporasi yaitu Federal International Finance, Bank BJB, Chandra Asri, J Resources, Sarana Multi Infrastruktur, Indonesia Infrastrucuture Finance, dan Indah Kiat Pulp & Paper. Dalam kuartal 4 tahun 2020 terdapat lebih dari 200 nasabah baru. Dengan fasilitas ini, nasabah ritel dapat bertransaksi obligasi secara *online* dengan minimum transaksi sebesar Rp1 juta.

Di pasar sekunder, tingginya volatilitas pasar, peningkatan penerbitan SBN oleh Pemerintah, dan likuiditas domestik maupun global yang berlimpah menyebabkan meningkatnya volume transaksi Surat Utang Negara (SUN). Di tahun 2020 volume transaksi SBN mencapai Rp10.624 triliun, naik dari Rp6.902 triliun pada tahun 2019. Perseroan berhasil meningkatkan volume transaksi di pasar sekunder dari Rp262 triliun di tahun 2019 menjadi Rp376 triliun di tahun 2020, atau naik 43,5%. Perseroan berhasil mempertahankan *market share* dalam transaksi dan menjadi perusahaan sekuritas dengan volume transaksi terbesar (peringkat 1) di pasar SUN.

Another challenge in the corporate bond market came from decrease in rating and outlook of debt securities issued by some issuers due to the pandemic, which in turn, negatively affected investors' appetite in investing in debt securities.

However, by maintaining the synergy with Investment Banking Division to acquire corporate bonds IPO mandate, and implementing a good reverse referral strategy, Fixed Income Trading Division managed to record positive performance by booking corporate bonds IPO of Rp10.76 trillion comprising of 35 corporate bonds IPO, 2 Negotiable Certificate of Deposits (NCD), and 1 Medium Term Notes (MTN) issuance. The volume grew by 9.13% from Rp9.86 trillion in 2019 and improved the Company's rank in Bloomberg Bond League Table for corporate bonds issuance from 7th rank in 2019 to 3rd rank in 2020.

In line with the Company's commitment to 'go digital', the Fixed Income Trading Division has developed a platform to assist clients in learn and purchase corporate bonds online at IPO through the website fit.trimegah.id, which was launched in September 2020. Since the launch of the platform, the Company has successfully completed 7 corporate bonds IPO, namely Federal International Finance, Bank BJB, Chandra Asri, J Resources, Sarana Multi Infrastruktur, Indonesia Infrastructure Finance, and Indah Kiat Pulp & Paper. In the fourth quarter of 2020, there were more than 200 new clients. With this facility, retail clients can make bond transaction online with a minimum transaction of Rp1 million.

In the secondary market, high market volatility, increased issuance of the SBN by the Government, and plenty domestic and global liquidity resulted in an increase in Government Bonds (Surat Utang Negara – SUN) transactions volume. In 2020, the volume of SBN transactions was recorded at Rp10,624 trillion, up from Rp6,902 trillion in 2019. The Company successfully increased the transaction volume in the secondary market from Rp262 trillion in 2019 to Rp376 trillion in 2020 or grew by 43.5%. The Company successfully maintained its market share in transactions and became the securities company with the largest transaction volume (1st rank) in the SUN market.

Bekerjasama dengan sub mitra distribusi (sub midis) *online*, di tahun 2020 Perseroan berhasil mempertahankan kinerja yang baik, dengan penjualan SBN ritel di atas midis lain seperti perusahaan sekuritas, *fintech* dan bahkan beberapa bank umum, walaupun terdapat peralihan dari sistem *offline* ke *online,* dengan penjualan rata-rata SBN ritel, baik konvensional maupun sukuk, lebih dari Rp150 miliar.

Pada tahun 2020 Perseroan berhasil mempertahankan prestasinya dan kembali meraih Penghargaan Dealer Utama Terbaik dari Kementerian Keuangan yang ditandatangani oleh Menteri Keuangan selama 3 tahun berturut-turut atas kinerja tahun 2017, 2018 dan 2019.

Perseroan juga masuk sebagai *Top 3 Arranger* Penerbitan IPO (*Initial Public Offering*) Obligasi Korporasi dan aktif dalam penerbitan NCD pada tahun 2020.

Memasuki tahun 2021, Divisi Fixed Income Trading memperkirakan dampak COVID-19 masih akan tetap

Collaborating with online sub distribution partners, in 2020 the Company successfully maintained its good performance, with sales exceeding the other distribution partners such as securities company, fintech and even some commercial banks, despite there was a transition from offline to online system, with average sales of retail Government Securities, both conventional and sukuk, of more than Rp150 billion.

In 2020, the Company successfully maintained its achievement and again won the Primary Dealer with the Best Performance Award from the Ministry of Finance which was signed by Minister of Finance for 3 consecutive years for performance of year 2017, 2018 and 2019.

The Company is also named as the Top 3 Arranger for Corporate Bonds IPO and active in NCD issuance in 2020.

Entering 2021, the Fixed Income Trading Division projected that the impact of COVID-19 will still

dirasakan dan berdampak pada pasar modal. Vaksinasi pada tahun 2021 diharapkan dapat mendorong pertumbuhan ekonomi dan pada gilirannya pasar modal. Disertai dengan tren penurunan tingkat suku bunga global, Perseroan potensi investor kembali berinvestasi di surat utang, terutama jika likuditas domestik dan global berhasil terjaga pada level yang memadai. Selain itu kondisi global di tahun 2021 diharapkan juga akan yang lebih stabil, salah satunya dengan terpilihnya Joe Biden sebagai Presiden Amerika Serikat yang baru.

Untuk menangkap peluang tersebut, Divisi Fixed Income Trading akan terus bersinergi dengan Divisi Investment Banking untuk memperoleh mandat IPO oblligasi korporasi secara agresif, mencari prospek emiten-emiten baru, dan meningkatkan transaksi *online* untuk IPO dan *secondary market*. Untuk mengoptimalkan potensi *revenue*, Divisi Fixed Income Trading juga akan mengoptimalkan Sistem IPO Obligasi Korporasi *online* untuk mendorong volume pembelian IPO Obligasi Korporasi dari segmen ritel.

Di sisi lain, Perseroan juga akan terus melakukan pengembangan dan penyempurnaan infrastruktur sistem *Fixed Income Trading Online* untuk nasabah ritel terutama untuk transaksi pada pasar sekunder. Hal ini merupakan kelanjutan dari sistem *online whitelabelling* untuk pasar perdana yang telah dikembangkan pada tahun sebelumnya. Untuk memenuhi kebutuhan tersebut, strategi lain adalah dengan menambah personil khusus untuk ditempatkan di 5 wilayah di Indonesia (Bandung, Semarang, Surabaya, Medan dan Makassar).

Memperingati 30 tahun perjalanan Trimegah di pasar modal Indonesia, Divisi Fixed Income Trading akan terus mengembangkan dan menyempurnakan infrastruktur transaksi surat berharga untuk mendukung pertumbuhan Perseroan di masa depan. Dengan sistem dan infrastruktur yang handal, Divisi Fixed Income Trading berharap dapat menghadirkan produk dan jasa investasi pasar modal yang berkualitas untuk semua nasabah institusi dan ritel, baik transaksi IPO maupun pasar sekunder, dan menjadikan Perseroan sebagai '*one-stop-shopping*' dan aspirator bagi masyarakat dalam bertransaksi di pasar modal Indonesia.

prolong and affect the capital market. Expectation towards a recovery post-vaccination initiation in 2021 is expected to boost the overall economic growth. With this optimism, accompanied by a downward trend in global interest rates, the Company sees the potential for investors to re-invest in debt securities, especially when the domestic and global liquidity are maintained at an adequate level. In addition, the global condition is expected to be more stable, among other due to the appointment of Joe Biden as the new President of the United States.

To seize this opportunity, the Fixed Income Trading Division will continue to maintain the synergy with the Investment Banking Division to pursue corporate bonds IPO mandate, seek prospects for new issuers, and increase online transactions for IPO and secondary market. To optimize revenue potential, the Fixed Income Trading Division will also optimize online Corporate Bond IPO System to boost corporate bonds purchase volume from the retail segment.

On the other hand, the Company will also continue to develop and improve the infrastructure of Fixed Income Trading Online system for retail clients, especially for transactions at the secondary market. This is the continuation of online whitelabelling system for primary market that has been developed in the previous year. To fulfil these requirement, another strategy is to recruit dedicated personnel to be assigned in 5 regions in Indonesia (Bandung, Semarang, Surabaya, Medan and Makassar).

Commemorating the 30th anniversary of Trimegah''s journey in the Indonesia's capital market, the Fixed Income Trading Division will continue to develop and improve the infrastructure for securities transactions to support the Company's future growth. Supported by reliable system and infrastructure, the Fixed Income Trading Division plans to provide quality investment products and services to all institutional and retail clients, both in IPO transaction and secondary market, to make the Company the one-stop-shopping and an aspirator for the public in investing in the Indonesia's capital market.

INVESTMENT BANKING

Tren penurunan Indeks Harga Saham Gabungan yang dimulai di akhir 2019 berlanjut hingga 2020, dan akhirnya berdampak pada bisnis Divisi Investment Banking di pasar ekuitas selama sepanjang tahun 2020, baik berupa IPO maupun *right issue*. Secara umum, isu COVID-19 telah mengubah perilaku pelaku usaha menjadi konservatif dan menunda aksi-aksi korporasi selama tahun 2020.

The Jakarta Composite Index showed a declining trend started by end of 2019 and prolonged until 2020, and finally affected Investment Banking Division business in equity market throughout 2020, both in IPOs and right issue. In general, COVID-19 issue had change the behavior of business players to be conservative and postponed their corporate actions in 2020.

Namun, pada pasar pendapatan tetap, untuk mengurangi dampak pandemi COVID-19, melalui Program Pemulihan Ekonomi Nasional, Pemerintah meningkatkan target penerbitan Surat Berharga Negara (SBN) sehingga SBN mendominasi transaksi surat utang sepanjang tahun 2020. Dampak pandemi sedikit banyak juga telah menyebabkan masyarakat untuk bersikap *risk averse* sehingga hanya surat utang dengan peringkat AAA atau minimal single A dengan kupon yang sebanding yang dinilai menarik bagi investor baik institusi maupun ritel.

However, in fixed income market, to reduce the impact of the COVID-19 pandemic, through National Economic Recovery Program, the Government increased the target of SBN (Government Securities) issuance so that SBN dominated debt securities transactions throughout 2020. Impact of the pandemic has also encouraged the society to be risk averse such that only debt securities with AAA or at least single A rating with competitive coupons were considered attractive to both institutional and retail investors.

Per 31 Desember 2020, penerbitan obligasi korporasi & sukuk mencapai Rp92,4 triliun atau turun dibandingkan tahun 2019 sebesar Rp122,9 triliun. Turunnya volume penerbitan obligasi korporasi ini tidak terlepas dari pandemi yang menyebabkan banyak perusahaan yang peringkat maupun *outlook*-nya diturunkan, sehingga calon emiten/penerbit harus memberikan kupon yang lebih tinggi.

As of December 31, 2020, corporate bonds & sukuk issuance reached Rp92.4 trillion or decreased from Rp122.9 trillion in 2019. The decline in volume of corporate bonds issuance was related to the pandemic that caused many companies to have their ratings and outlook downgraded, and the prospective issuers should offer higher coupons.

Namun demikian, di tengah kondisi yang sulit ini, Divisi Investment Banking terus berkomunikasi dengan mitra kerja dan nasabah untuk memberikan masukan dan rekomendasi yang tepat terkait rencana *fund rising* maupun aksi korporasi yang akan dilakukan.

Amid these challenging conditions, however, the Investment Banking Division maintained communication with business partners and clients to provide precise suggestions and recommendations regarding the fund rising and corporate actions plans.

Dengan strategi yang tepat, sepanjang tahun 2020 Divisi Investment Banking berhasil menyelesaikan 6 transaksi *advisory*, penerbitan MTN dan NCD, 2 *Rights*

With the right strategy, throughout 2020, the Investment Banking Division successfully completed 6 advisory transactions, MTN and NCD issuance, 2 Rights

Issue untuk PT Bank Artos Indonesia Tbk (sekarang PT Bank Jago Tbk), dan PT Bank Bukopin Tbk (sekarang PT Bank KB Bukopin Tbk), serta mencatat 35 transaksi surat utang yang didominasi oleh BUMN dan Grup Astra. Perseroan juga berpartisipasi dalam penerbitan 4 *Global Bonds* yaitu *Global Bonds* SEC 6, *Global Bond* SEC 7, *Global Bond* SEC 8, dan *Global Bond Green* Nusantara 3. Di samping itu, Perseroan juga menjadi salah satu perusahaan sekuritas terdepan dalam penerbitan sukuk berbagai korporasi antara lain PT PLN (Persero), PT Adira Dinamika Multi Finance Tbk, PT Elnusa Tbk dan beberapa perusahaan lainnya.

Divisi Investment Banking optimis bahwa kondisi perekonomian dan pasar modal tahun 2021 akan lebih baik daripada tahun 2020. Uji coba vaksin pada awal tahun 2021 telah membawa optimisme dan mendorong *investor appetite,* serta menumbuhkan keyakinan investor untuk melakukan penempatan dana di pasar modal. Dengan demikian, Perseroan berharap dapat mengoptimalkan peluang yang lebih baik di tahun depan.

Untuk memanfaatkan peluang di tahun mendatang, Divisi Investment Banking juga akan terus menyasar calon emiten potensial, terutama dari sektor usaha yang memiliki ketahanan menghadapi dinamika ekonomi dan industri selama beberapa tahun terakhir. Untuk bisnis IPO saham, pada tahun 2021, Perseroan akan menyasar emiten atau calon emiten dengan market kapitalisasi kecil atau menengah yang memiliki kredibilitas dan daya tahan relatif kuat dengan prospek pertumbuhan yang menjanjikan bagi investor.

Di usia Trimegah yang ke-30 tahun, Divisi Investment Banking berharap Perseroan dapat terus maju dengan profitabilitas yang terus tumbuh. Seiring dengan pertumbuhan Perseroan, Divisi Investment Banking akan terus memberikan layanan alternatif pendanaan bagi institusi dan *support* terhadap nasabah ritel dalam menentukan instrumen investasi. Dengan demikian, Perseroan diharapkan dapat terus tumbuh dan menjalankan peran penting dalam pasar modal di Indonesia.

Issues for PT Bank Artos Indonesia Tbk (recently known as PT Bank Jago Tbk), and PT Bank Bukopin Tbk (recently known as PT Bank KB Bukopin Tbk), and booked 35 debt securities transactions dominated by SOEs and the Astra Group. The Company also participated in issuance of 4 Global Bonds, namely Global Bonds SEC 6, Global Bond SEC 7, Global Bond SEC 8, and Global Bond Green Nusantara 3. In addition, the Company also became one of the leading securities companies in issuance of various corporate sukuk, including for PT PLN (Persero), PT Adira Dinamika Multi Finance Tbk, PT Elnusa Tbk and other companies.

Investment Banking Division is optimistic that the economic and capital market conditions in 2021 will be better than in 2020. Vaccine trials in early 2021 have brought optimism as well as boosted investor appetite, and grew investor confidence in placing their funds in the capital market. Therefore, the Company expects to optimize better opportunities in the upcoming year.

To take the opportunities in the upcoming years, the Investment Banking Division will strive to target potential issuers, especially from business sectors with resilience in dealing with economic and industrial dynamics in recent years. In equity IPO business, in 2021, the Company will target issuers or potential issuers from a small or medium market capitalization with relatively strong credibility and resilience as well as having a good growth prospect for investors.

In Trimegah's 30th years of journey, the Investment Banking Division wishes that the Company will keep moving forward with growing profitability. In line with the Company's growth, the Investment Banking Division will continuously provide services of alternative financing for institutions and support for retail clients in choosing the investment instruments. Therefore, the Company is expected to continue to grow and play an important role in Indonesia's capital market.

Sepanjang tahun 2020, tingkat suku bunga acuan Bank Indonesia mengalami penurunan sebanyak 5 kali, dari 5,00% pada awal tahun 2020 turun secara bertahap hingga ke 3,75% pada akhir 2020, untuk mendukung pemulihan ekonomi sebagai akibat pandemi COVID-19.

Meski dilakukan penyesuaian tingkat suku bunga acuan, isu '*credit crunch*' tetap membayangi tahun 2020 di kegiatan perekonomian yang terhambat akibat pandemi COVID-19 memaksa perbankan semakin selektif dan berhati-hati dalam menyalurkan kredit karena risiko yang tinggi.

Bank Indonesia had its benchmark rate tapered-off 5 times throughout 2020, from 5.00% by early 2020 gradually down to 3.75% by end of 2020 in order to support economic recovery following the impact of COVID-19 pandemic.

Although the benchmark rate had been adjusted, 'credit crunch' issue still overshadowed 2020, on the economic activities that were constrained due to the COVID-19 pandemic, forced the banking sector to be more selective and prudent in disbursing the loans due to a fairly high risk.

Hal-hal di atas juga pada gilirannya turut berdampak pada fasilitas *credit line* Perseroan dari perbankan, dimana bank melihat potensi risiko-risiko tambahan akibat perekeonomian yang kurang kondusif. Dalam sumber pendanaan lain seperti *Promissory Notes* (PN), Perseroan juga menghadapi tantangan karena investor cenderung semakin bersikap *risk averse* dan memilih berinvestasi di instrumen yang lebih konservatif dan likuid. Akibatnya, terjadi penurunan secara agregat dalam dana nasabah yang diinvestasikan di PN Perseroan.

Melalui komunikasi yang intensif dengan berbagai pihak, baik investor dan perbankan, Perseroan berhasil meyakinkan mereka bahwa kondisi Perseroan, baik secara bisnis, keuangan maupun likuditas, sangat baik sehingga Divisi Finance berhasil memenuhi kebutuhan pembiayaan untuk semua aktivitas bisnis sepanjang tahun 2020.

The issues above in turn also affected to the Company's credit line facilities from banking sector, where banking sector saw additional risks potential due to less favorable economy. In other sources of funding such as Promissory Notes (PN), the Company also experienced a challenge as the investors tended to be risk averse and chose to invest in more conservative and liquid instruments. Consequently, there was an aggregate decrease in clients' funds placed in the Company's PN.

By intensive communication with various parties, including investors and banking sectors, the Company successfully assured them that the Company's condition in business, financials and liquidity aspects were satisfactory so that Finance Division successfully fulfilled all financing needs of all business activities throughout 2020.

Di sisi lain, secara umum pandemi juga menyebabkan penurunan volume kegiatan di pasar modal sehingga menurunkan kebutuhan akan dana dari unit-unit bisnis. Ditunjang oleh pengelolaan likuiditas yang *prudent*, sepanjang tahun 2020 Perseroan selalu berhasil memenuhi seluruh kewajibannya kepada pihak ketiga secara tepat waktu sehingga terhindar dari kegagalan bayar maupun kegagalan operasional.

Walau masih akan dibayangi oleh sejumlah ketidakpastian, Divisi Finance memandang tahun 2021 dengan cukup optimis. Langkah Pemerintah untuk mendistribusikan vaksin COVID-19 akan memulihkan kegiatan perekonomian dan juga pasar modal.

Memasuki tahun 2021, pada kuartal I 2021, *Medium Term Notes* (MTN) I Perseoran akan jatuh tempo. Sehubungan dengan itu, Perseroan telah melakukan pelunasan pada tanggal 26 April 2021. Sebagai bentuk komitmen Perseroan dalam memenuhi kewajibannya.

Selain itu, untuk terus mendukung bisnis Perseroan, Divisi Finance akan selalu mencari peluang untuk mendapatkan sumber-sumber pendanaan baru untuk memastikan struktur pendanaan yang sehat, termasuk pengelolaan *maturity gap,* dengan biaya bunga yang optimal sehingga kinerja Perseroan di masa mendatang akan semakin optimal.

On the other hand, in general, the pandemics also caused a decrease in capital market volume and reduced the needs for funds from the business units. Supported by prudent liquidity management, in 2020, the Company always successfully fulfilled its all liabilities to third parties on time therefore avoided default in financial and operational aspects.

Despite will still be affected by uncertainties, Finance Division considers 2020 optimistically. The Government's initiative in distributing COVID-19 vaccines is believed will recover economic and capital market activities.

Entering 2021, in the 1st quarter of 2021, the Company's Medium Term Notes (MTN) I will be mature. Regarding with that, the Company has made a payment on April 26, 2021 as form of the Company's commitment to fulfilling its obligation.

In addition, to continuously support the Company's business, Finance Division will keep exploring new opportunities to gain new sources of funding to ensure healthy funding structure, including maturity gap management with an optimum cost of interest for a more optimum Company's performance in the future.

ACCOUNTING & TAX

Bagi Divisi Accounting & Tax, tahun 2020 merupakan tahun yang penting dengan berlakunya beberapa Pernyataan Standar Akuntansi Keuangan (PSAK) baru, yaitu PSAK 71, 72 dan 73 di mana Divisi Accounting & Tax bertanggung jawab untuk memastikan Laporan Keuangan Perseroan Tahun 2020 sudah sesuai dengan PSAK tersebut.

Secara prinsip, PSAK 71 mengatur tentang instrumen keuangan, PSAK 72 mengatur tentang cara pengakuan pendapatan kontrak, sedangkan PSAK 73 mengatur tentang sewa.

Di sisi perpajakan, kondisi pandemi mendorong Pemerintah untuk memberikan stimulus perpajakan berupa relaksasi dan keringanan pajak oleh Direktorat Jenderal Pajak bagi beberapa sektor. Namun, sektor pasar modal tidak termasuk dalam sektor yang menerima stimulus dan relaksasi tersebut.

Pada tahun 2020, Perseroan juga berhasil memenangkan beberapa kasus pajak di tingkat Mahkamah Agung (MA). Ke depan, Divisi Accounting & Tax akan terus mendukung kegiatan bisnis dan operasional Perseroan melalui implementasi standar akuntansi dan kepatuhan perpajakan yang berlaku. Divisi Accounting & Tax berkomitmen akan selalu menjaga kualitas pelaporan keuangan Perseroan sesuai dengan ketentuan PSAK, peraturan perundang-undangan serta prinsip-prinsip Tata Kelola Perusahaan yang Baik.

Accounting & Tax Division considers 2020 as a crucial year following implementation of new PSAK (Statements of Financial Accounting Standards -SFAS), namely PSAK 71, 72 and 73 in which the Accounting & Tax Division was responsible to ensure the Year 2020 Company's Financial Statements would comply to the PSAKs.

Principally, PSAK 71 regulates financial instrument, PSAK 72 regulates contract acquisition recognition method, and PSAK 73 regulates lease.

Regarding taxation matters, the pandemic has forced the Government to provide tax stimulus in form of tax relaxation and ease applied by the Directorate General of Tax for several sectors. However, capital market sector was not included as sectors that received the tax stimulus and relaxation.

In 2020, the Company also successfully won tax cases at Mahkamah Agung (Supreme Court) level. Going forward, the Accounting & Tax Division will continuously support the Company's business and operational activity through implementation of prevailing accounting standard and tax compliance. The Accounting & Tax Division is committed to always maintain the Company's financial reporting quality according to provisions of PSAK, prevailing law and regulation and Good Corporate Governance Principles.

OPERATIONS

Pembatasan aktivitas atau *social distancing* yang diterapkan oleh Pemerintah sebagai akibat penyebaran COVID-19 pada tahun 2020 menjadi tantangan tersendiri bagi Divisi Operations. Seluruh anggota tim harus beradaptasi pada kebiasaan-kebiasaan baru dalam seluruh aktivitas kerja dari sebelumnya bekerja *on-site* dan *full team* pada ruangan kerja menjadi bekerja secara *remote* ataupun dengan cara *partial Work from Home*.

In 2020, restriction of activities or social distancing that was applied by the Government as a consequence of COVID-19 transmission became a challenge for the Operations Division. All team members shall adapt to the new working habits in all activities from previously working on-site and full team at workspace to working remotely or partial Work from Home method.

Meskipun demikian, secara keseluruhan Divisi Operations berhasil menjalankan tugas dan kewajibannnya secara baik meskipun harus menerapkan *partial Work from Home*.

However, overall, the Operations Division has managed to carry out its duties and obligations well even though it had to implement partial Work from Home.

Di tengah kondisi pandemi, Perseroan mencatat kenaikan pembukaan akun baru selama tahun 2020 sebagai bagian dari upaya mendukung inisiatif *go retail*. Dalam proses ini, Divisi Operations terus mendukung kelancaran proses pembukaan akun secara optimal melalui kerjasama yang baik dengan seluruh *business unit* dan Divisi IT Perseroan. Hasilnya, proses pembukaan akun baru, pengelolaan rekening nasabah berkaitan dengan penyelesaian transaksi dan pelaporan transaksi nasabah, serta layanan penarikan dana oleh nasabah berjalan lancar.

Amid the pandemic conditions, in 2020 the Company recorded a growth in new account openings as part of the efforts to support go retail initiative. In this process, the Operations Division always support smooth account opening process optimally through good cooperation with all business units and the IT Division. As a result, the process of new accounts opening, managing client accounts related to transaction settlement and clinet transactions reporting, as well as client fund withdrawal services were performed successfully.

Perubahan sumber daya manusia pada Divisi Operations juga sempat menjadi tantangan pada tahun 2020. Meskipun demikian, hal ini berhasil diatasi dengan baik, dan Divisi Operations tetap mampu memberikan dukungan yang *reliable* dalam seluruh transaksi Perseroan.

Changes in personnel of the Operations Division also brought a challenge in 2020. However, the challenge was successfully resolved, and the Operations Division still managed to deliver reliable support in all of the Company's transactions.

Untuk meningkatkan kehandalan Perseroan dalam memberikan layanan transaksi dan investasi kepada Nasabah, Divisi Operations secara terus menerus dan berkesinambungan meningkatkan proses kerja maupun sistem aplikasi yang digunakan (*back office system)* agar proses kerja yang dilakukan dapat berlangsung dengan lebih efektif, efisien dan terintegrasi, meskipun pergantian sistem *back office* baru yang direncanakan di tahun sebelumnya belum dapat direalisasikan.

To increase the Company's reliability in providing transaction and investment services to the Clients, the Operations Division consistently and continuously improves the work processes and application system (back office system) so that the work processes can be carried out more effectively, efficiently and in an integrated manner, although the new back office system replacement planned in the previous year was still not yet executed.

Di sisi regulasi, implementasi Surat Edaran Otoritas Jasa Keuangan (SE OJK) yang mengharuskan transaksi Manajer Investasi (MI) untuk menggunakan *Single Investor Identification* (SID) dari masing-masing produk berdampak positif pada Perseroan karena proses penyelesaian transaksi menjadi lebih efisien. Di tahun 2020, beberapa inisiatif lain juga sedang dikaji oleh *Self Regulatory Organization* (SRO) bersama pelaku pasar. Inisiatif-inisiatif ini diharapkan dapat sepenuhnya diimplementasikan pada tahun mendatang untuk menjadikan pasar modal yang semakin efisien.

Di tahun mendatang, Perseroan memandang transformasi proses bisnis, khususnya di Divisi Operations masih akan terus terjadi sebagai efek domino dari kondisi di tahun 2020 tersebut. Untuk menghadapi kondisi tersebut, Divisi Operations berkomitmen untuk terus melakukan perencanaan secara matang, memperkuat kerja sama dengan seluruh pihak khususnya Divisi IT untuk mendorong implementasi *Go Digital* secara menyeluruh di Perseroan, serta terus berkoordinasi dengan regulator terkait implementasi berbagai aturan-aturan baru. Perseroan juga akan terus meningkatkan kehandalan operasional untuk mendukung Divisi Risk Management dan Compliance dalam menimimumkan potensi *fraud*.

Melihat posisi Perseroan sebagai salah satu perusahaan efek tertua di Indonesia, dengan rekam jejak 30 tahun, Divisi Operations berkomitmen untuk terus meningkatkan *knowledge* dan kualitas sumber daya manusia untuk mendukung Perseroan untuk terus tumbuh sebagai salah satu perusahaan efek terdepan di Indonesia melalui keandalan operasional terdepan dan tepercaya.

On the regulatory aspect, implementation of SE OJK (Financial Services Authority Circular Letter) which requires Investment Manager (MI) transactions to use Single Investor Identification (SID) of each product makes a positive impact to the Company as transaction settlement process has now become more efficient. In 2020 some other initiatives were also discussed by the Self Regulatory Organization (SRO) altogether with market players. These initiatives are expected to be fully implemented in the next year to create a more efficient capital market.

In the next year, the Company views that transformation of business processes, especially in the Operations Division, will continue as a domino effect of the conditions in the 2020. To deal with these conditions, the Operations Division is committed to continuously prepare out a careful planning, strengthen cooperation with all parties, especially the IT Division to encourage overall Go Digital implementation in the Company, and continue to coordinate with the regulators related to the implementation of the new regulations. The Company will also continuously improve operational reliability to support the Risk Management and Compliance Division in minimizing fraud potential.

Looking at the Company's position as one of the earliest securities companies in Indonesia, with 30 years track record, the Operations Division is committed to keep improving knowledge and the quality of its human capital to support the Company to continue to grow as one of the leading securities companies in Indonesia through prominent and trusted operational reliability by keep building the human capital capacity.

INFORMATION TECHNOLOGY & PROJECT MANAGEMENT OFFICE

Peran Teknologi Informasi (TI) semakin terasa di tengah kondisi pandemi COVID-19. Penerapan Pembatasan Sosial Berskala Besar berdampak pada gaya hidup dan pola kerja masyarakat, termasuk pada Perseroan.

Pembatasan jumlah karyawan yang bekerja di kantor menyebabkan Perseroan harus menerapkan kebijakan partial *Work from Home* (WFH). Untuk mendukung penerapan kebijakan ini, dibutuhkan perangkat teknologi informasi yang andal untuk memastikan produktivitas karyawan tetap terjaga dan operasional Perseroan tetap berjalan seperti seharusnya.

Namun, penerapan WFH juga menciptakan celah pada keamanan *cyber* yang berpotensi menjadi masalah tersendiri. Oleh karena itu, Divisi Information Technology (IT) telah mencoba menerapkan solusi keamanan berlapis dan melakukan patroli *cyber* secara rutin.

The role of Information Technology (IT) has become more important amid the COVID-19 pandemic conditions. Implementation of Large-Scale Social Restrictions has affected lifestyle and work scheme of the society, including the Company.

Limitation on number of employees working at the office caused the Company to implement partial Work from Home (WFH) policy. To support the implementation of this policy, reliable information technology tools are needed to ensure employee productivity is maintained and the Company's operations continue as they should.

However, implementing WFH also creates loopholes in cyber security, which have the potential to become a certain problem in itself. Therefore, the Information Technology (IT) Division has tried to implement layered security solutions and conduct routine cyber patrols.

Penggunaan metode *Virtual Private Network* (VPN) menjadi hal yang standar untuk dilakukan, diharuskan oleh, dan telah lulus audit TI, serta sesuai dengan ketentuan Bursa Efek Indonesia dalam hal melakukan operasional perangkat *remote trading*.

Di samping itu, untuk mencegah *cyber crime* dan meningkatkan keamanan sistem saat WFH, Divisi IT & PMO juga telah menambahkan berbagai fitur serta membentuk tim IT Security yang didedikasikan untuk memastikan keamanan dan meminimumkan *cyber threat*.

Pada tahun 2020, selain meningkatkan *cyber security*, Divisi IT & PMO juga memastikan ketersediaan dukungan teknologi sejalan dengan frekuensi perdagangan saham nasabah ritel yang meningkat signifikan dibandingkan masa sebelum pandemi. Di tahun 2020, Divisi PMO juga mengadopsi metode *Scrum* dalam pola kerja untuk tim *developer*. Dalam metode ini, sebuah *project* besar dibagi-bagi menjadi beberapa *project* kecil yang dikerjakan dengan beberapa *sprint*, sehingga eksekusi setiap *project* besar menjadi lebih efektif. Hasilnya, pada tahun 2020 Divisi IT & PMO dapat menghasilkan *delivery* yang lebih baik dibandingkan tahun sebelumnya.

Divisi IT & PMO berpandangan bahwa di tahun 2021 jumlah nasabah ritel akan terus meningkat dan semakin aktif, sehingga berpotensi meningkatkan frekuensi perdagangan. Untuk menangkap peluang tersebut, Divisi IT & PMO berencana meningkatkan kapasitas dan melakukan *revamp* aplikasi TRIMA agar dapat terus mengakomodasi kebutuhan nasabah ritel di tahun mendatang.

Divisi IT & PMO juga menyadari tantangan yang di masa depan bukan hanya dalam perbaikan infrastruktur teknologi, tetapi juga dalam sumber daya manusia yang harus selalu siap untuk mengantisipasi perkembangan teknologi dan memanfaatkan era *digital* demi perkembangan Perseroan.

The use of Virtual Private Network (VPN) method has become a standard means, required by, and has passed an IT audit, as well as complied with the provisions of the Indonesia Stock Exchange regarding implementation of remote trading device operations.

In addition, to prevent cyber crime and improve system security during WFH, IT & PMO Division have also added various features and established a dedicated IT Security team to assure the security and minimize the cyber threats.

In 2020, in addition to strengthening cyber security, the IT & PMO Division also ensured the availability of technology support in line with equity trading frequency of retail clients that increased significantly compared to the pre-pandemic period. In 2020, the PMO Division also adopted Scrum method in work scheme for the developer team. In this method, a big project was divided into small projects which were carried out through a number of sprints, thereby the execution of every big project became more effective. As a result, in 2020, the IT & PMO Division managed to generate better deliveries compared to the previous year.

In 2021, the IT & PMO Division views that the number of retail clients will still be rising and become more active, therefore, will potentially boost the trading frequency. To seize this opportunity, IT & PMO Division have planned to upgrade the capacity and revamp the TRIMA application to continuously accommodate the demands of retail clients in the upcoming year.

The IT & PMO Division also realizes that the future challenges are not only in technology infrastructure improvement, but also in human capital who should always be ready to anticipate technology advance and utilize the digital era for the Company's growth.

RESEARCH

Terhambatnya aktivitas ekonomi global pada tahun 2020 akibat pandemi COVID-19 menyebabkan banyak negara masuk ke zona resesi. Pada kuartal III 2020 Indonesia secara resmi masuk ke zona resesi setelah Badan Pusat Statistik (BPS) mengumumkan pertumbuhan ekonomi Indonesia mengalami kontrasi 3,49% secara tahunan, dimana pada kuartal sebelumnya, perekonomian Indonesia juga telah mengalami kontraksi 5,32% secara tahunan. Meskipun pertumbuhan ekonomi mengalami tekanan, per November 2020 uang beredar M2 tumbuh 12,2% YoY.

Di sisi lain, Perseroan juga melihat komitmen Pemerintah dalam menanggulangi dampak pandemi COVID-19, seperti *burden sharing* dari Kementerian Keuangan dan Bank Indonesia, relaksasi pembayaran utang perbankan/lembaga keuangan, keringanan pajak, bantuan sosial maupun relaksasi yang diterbitkan OJK. Dari sisi politik, meski penerbitan Undang-Undang (UU) Cipta Kerja (Omnibus Law) yang sempat memicu pro-kontra, diharapkan Undang-Undang ini dapat meningkatkan daya tarik investasi dan daya saing Indonesia di masa depan, yang secara umum sudah terbilang cukup stabil.

Global economic activity downturn due to the COVID-19 pandemic in 2020 has brought many countries to the recession zone. In the 3rd quarter of 2020, Indonesia officially entered the recession zone after the Central Statistics Agency (BPS) announced that Indonesia's economic growth contracted by 3.49% year-on-year, while in the previous quarter, the Indonesia's economy also contracted by 5.32% year-on-year. Although the economic growth was under pressure, as of November 2020, the M2 money supply grew by 12.2% YoY.

On the other hand, the Company also witnessed the Government's commitment to resolve the impact of the COVID-19 pandemic, such as burden sharing from the Ministry of Finance and Bank Indonesia, relaxation of debt payments to banks/financial institutions, tax relief, social aid and relaxation issued by the OJK. Based on a political point of view, although the issuance of Job Creation Law (Omnibus Law) had triggered pros and cons, this Law is expected to drive investment appetite and competitiveness of Indonesia in the future, which is fairly stable.

Di pasar modal, meskipun terjadi volatilitas yang relatif tinggi, *investor appetite* selama tahun 2020 masih cukup baik khususnya investor ritel. Hal ini ditunjukkan oleh jumlah *Single Investor Identification* (SID) November 2020 yang tumbuh 32% dibandingkan SID pada akhir tahun 2019. Meski demikian, total nilai perdagangan saham di bursa tahun 2020 hanya mencapai Rp4.457,6 triliun atau turun 0,09% dari Rp4.461,8 triliun pada 2019, dengan hampir 70% nilai perdagangan disumbang oleh investor domestik. Di tengah kondisi tersebut, inisiatif untuk menarik investor asing terus dilakukan Pemerintah, salah satunya melalui pembentukan *Sovereign Wealth Fund*.

Di tengah kondisi pandemi, Perseroan melakukan berbagai penyesuaian aktivitas selama tahun 2020 untuk seluruh unit kerja, termasuk Divisi Research. Dengan persiapan yang baik, Divisi Research berhasil melaksanakan transisi pola kerja dari *Work from Office* (WFO) menjadi *Work from Home* (WFH) dengan lancar dan menjaga produktivitasnya yang tinggi sehingga Divisi Research terus menerbitkan berbagai analisis dan laporan yang berkualitas, bahkan meningkatkan publikasi *research reports* hingga 87% YoY.

In the capital market, despite dealing with relatively high volatility, investor appetite remained positive throughout 2020, especially the retail investors. This is indicated by the number of Single Investor Identification (SID) of November 2020 that grew by 32% compared to that of end 2019. However, total value of equity trading at the stock exchange in 2020 only reached Rp4,457.6 trillion, down by 0.09% from Rp4,461.8 trillion in 2019, with nearly 70% of trading value contributed by domestic investors. In the midst of these conditions, the Government strived to implement initiatives to attract foreign investors, including establishment of the Sovereign Wealth Fund.

Amidst the pandemic, the Company has carried out several adjustments throughout 2020 for all working units, including Research Division. With good preparation, the Research Division successfully implemented work scheme transition from Work from Office (WFO) to Work from Home (WFH) smoothly and maintained its high productivity so that the Research Division continued to publish various high-quality analyzes and reports, and even increased the number of the research report publications up to 87% YoY.

RESEARCH

Di tahun 2020, dibentuk Trimegah Retail Investment Team. Selama ini, laporan riset umumnya bersifat *long-term* atau *1-year forward looking*. Namun dengan dibentuknya tim ini, riset fundamental dengan *view* jangka pendek sekarang juga telah tersedia, begitu pula dengan rekomendasi harian saham pada fitur Trima Ideas pada aplikasi TRIMA. Hal ini diharapkan mampu memberikan rekomendasi yang jelas untuk investasi saham jangka pendek (perdagangan harian atau mingguan), dan jangka panjang yang didasarkan pada analisis fundamental.

In 2020, the Trimegah Retail Investment Team was established. So far research reports are generally long-term or 1-year forward looking. However, following establishment of this team, fundamental research with short-term view and daily stock recommendations at Trima Ideas feature in the TRIMA application are now available. This is expected to provide clear recommendations for short-term (daily or weekly), and long-term stock investments based on fundamental analysis.

Selain laporan rutin, Divisi Research juga aktif menyelenggarakan kegiatan edukasi literasi keuangan melalui webinar, dan memberikan *update* pasar melalui acara Trimegah MarkeTalk dengan memanfaatkan fitur *live* pada Instagram. Selama Tahun 2020 Divisi Research menyelenggarakan 23 webinar dan 10 Trimegah MarkeTalk. Di samping itu, Divisi Research juga berhasil meng-*cover* 76 saham selama tahun 2020 meliputi sektor perbankan, *consumer*, ritel, layanan kesehatan, telekomunikasi, komoditas, otomotif, semen, konstruksi, *digital* dan sektor lainnya. Komitmen Divisi Research yang terus menjaga kualitas analisisnya pada tahun 2020 diwujudkan dengan kembali diperolehnya apresiasi dari pihak eksternal berupa "Best Individual Research Indonesia – Rank 3rd" dari Majalah The Asset yang berhasil diraih oleh Fakhrul Fulvian – Economist Perseroan, setelah sebelumnya mendapatkan penghargaan serupa di tahun 2019.

Divisi Research memandang tahun 2021 secara optimis. IHSG ditargetkan dapat mencapai level 6.700 dengan mempertimbangkan beberapa katalis seperti inisiatif vaksin dari sisi keampuhan maupun distribusi, stimulus pemerintah untuk ekonomi dalam jangka pendek, dampak investasi dari Omnibus Law, serta dampak kenaikan harga komoditas terhadap ekonomi.

Sejalan dengan semangat Perseroan untuk semakin fokus pada nasabah ritel, Divisi Research tetap berkomitmen untuk memberikan kualitas analisis yang terbaik. Divisi Research juga akan merancang berbagai kegiatan webinar dan mengoptimalkan saluran media sosial lainnya untuk menjangkau lebih banyak nasabah ritel. Melalui inisiatif tersebut, seiring dengan 30 tahun kehadiran Perseroan di industri pasar modal Indonesia, Divisi Research berharap Perseroan akan tetap terdepan dan unggul sebagai mitra investasi tepercaya bagi seluruh nasabah pasar modal.

In addition to regular reports, the Research Division also actively organized financial literacy education activities through webinars, and provided market updates through Trimegah MarkeTalks events by utilizing the live feature on Instagram. Thoughout 2020, the Research Division held 23 webinars and 10 Trimegah MarkeTalks. Furthermore, in 2020, the Research Division also managed to cover 76 stocks including banking, consumer, retail, healthcare, telecommunications, commodities, automotive, cement, construction, digital and other sectors. The commitment of the Research Division to continuously maintain quality of the analysis throughout 2020 was rewarded by appreciation from external parties in form of "Best Individual Research Indonesia – Rank 3rd" from The Asset Magazine achieved by Fakhrul Fulvian - the Company's Economist, after previously received similar award in 2019.

Approaching 2021, the Research Division remains optimistic. The JCI was targeted to reach the 6,700 level by considering several catalysts such as vaccine initiatives in terms of efficacy and distribution, short term government stimulus for the economy, impact of the Omnibus Law on investment, and impact of rising commodity prices to the economy.

In line with the Company's spirit to have greater focus on retail clients, the Research Division is always be committed to deliver excellent quality analysis. The Research Division will also arrange webinars and optimize other social media channels to reach more retail clients. Through this initiative, in line with the Company's 30 years of presence in the Indonesia's capital market industry, the Research Division hopes that the Company will remain at the forefront and excellence as a trusted investment partner for all capital market customers.

HUMAN CAPITAL

Tahun 2020 sekali lagi menjadi pembuktian pentingnya kemampuan adaptasi Sumber Daya Manusia (SDM) sebuah organisasi dalam menghadapi tantangan. Melanjutkan tren *digital* selama beberapa tahun terakhir, pandemi COVID-19 memperkuat urgensi untuk merekrut dan mengembangkan sumber daya manusia dengan kompetensi di bidang Teknologi Informasi dan *digital savvy*.

Perubahan pola kerja menjadi *Work from Home* (WFH) walau secara parsial, yang dijalankan Perseroan di tahun 2020 hanya dapat diterapkan dengan dukungan sistem dan SDM di bidang IT yang andal.

Pandemi COVID-19 juga mengubah prioritas kerja Divisi Human Capital di mana keselamatan kerja menjadi prioritas sepanjang tahun, sambil tetap memastikan kegiatan bisnis dan operasional Perseroan tetap berjalan untuk memastikan keberlangsungan dan posisi Perseroan di industri.

The year 2020 again proved the importance of Human Resources (HR) adaptability in an organization to deal with challenges. Continuing the digital trend over the last few years, COVID-19 pandemic has strengthened the urgency to recruit and develop human capital with competences in Information Technology and digital savvy fields.

Shifting of the work arrangement to Work From Home (WFH), although partially, executed by the Company in 2020 is only possible with support from a reliable system and human capital in the IT field.

The COVID-19 pandemic has also changed work priority in the Human Capital Division in which work safety becomes a priority throughout the year, while simultaneously ensuring that the Company's business and operational activities continue to run to ensure the Company's sustainability and position in the industry.

Divisi Human Capital melakukan berbagai inisiatif dalam mencegah penyebaran COVID-19, antara lain dengan penyemprotan disinfektan di ruang kerja secara berkala, penyediaan vitamin, masker dan *hand sanitizer* kepada seluruh karyawan, penyediaan kendaraan *shuttle* untuk karyawan, pengaturan letak dan jarak tempat duduk, tunjangan untuk *Swab Test* serta beberapa langkah lain untuk meminimumkan risiko penularan COVID-19 di kalangan karyawan.

Selama tahun 2020, Divisi Human Capital juga menunda pelaksanaan Program *Management Trainee*, dan hanya melakukan rekrutmen karyawan baru yang benar-benar diperlukan, serta menyelenggarakan pelatihan secara *online*.

Selain itu, sebagai kelanjutan dari *Human Resources Information System* (HRIS) yang telah dikembangkan selama beberapa tahun terakhir, pada tahun 2020, Divisi Human Capital mengoptimalkan fungsi HRIS untuk berbagai keperluan yang lebih luas, antara lain migrasi data secara keseluruhan sebagai *database* data kepegawaian, termasuk status perizinan dan pelatihan karyawan.

Secara umum, meski menghadapi tahun yang cukup berat, Divisi Human Capital relatif siap dan telah membekali SDM Perseroan dengan pengetahuan dan kompetensi yang memadai untuk terus mendukung seluruh bisnis Perseroan. Divisi Human Capital tetap meneruskan program pengembangan SDM secara konsisten dan mengalokasikan investasi SDM dalam bentuk perizinan dan pelatihan untuk karyawan.

The Human Capital Division has implemented various initiatives to prevent COVID-19 transmission, among others, regular disinfectant spraying at the workspace, supply of vitamins, masks and hand sanitizers to all employees, provision of shuttle vehicles for employees, seating and distancing arrangement, allowances for Swab Test and other steps to minimize the risk of COVID-19 transmission among employees.

In 2020, the Human Capital Division also postponed implementation of Management Trainee Program, only recruited new employees who are highly needed, and held online trainings.

In addition, as a sequence of Human Resources Information System (HRIS) which has been developed over the past few years, in 2020, the Human Capital Division optimized the HRIS function for wider purposes, among other, complete data migration as the personnel data database, including licensing status and employees training.

In general, despite dealing with a tough year, the Human Capital Division is relatively ready and has equipped the Company's human resources with sufficient knowledge and competence to continuously support all of the Company's business. The Human Capital Division continues the HR development program consistently and allocated HR investments in licensing and training for the employees.

Di 2021, Divisi Human Capital akan melanjutkan inisiatif-inisiatif yang telah direncanakan mulai dari rekrutmen hingga pengelolaan kinerja karyawan. Di tahun mendatang, Divisi Human Capital akan meneruskan program *Management Trainee* serta rekrutmen secara spesifik untuk kompetensi tertentu, misalnya teknologi informasi dan *marketing*.

Karena pandemi COVID-19 mungkin masih terus berlanjut hingga 2021, Divisi Human Capital akan terus mempersiapkan seluruh SDM agar organisasi Perseroan semakin siap dalam menghadapi risiko-risiko lain yang mungkin muncul di tahun-tahun mendatang. Divisi Human Capital juga akan melakukan pengkinian *Key Performance Indicators* (KPI) sesuai dengan kondisi aktual Perseroan.

Sebagai perusahaan yang telah hadir selama lebih dari 30 tahun, kemampuan organisasi untuk bertahan dalam berbagai tantangan juga ditentukan oleh SDM yang juga memiliki kemampuan adaptasi yang tinggi dan selalu mampu mengantisipasi masa depan. Divisi Human Capital menyadari peran strategisnya dalam keberlangsungan Perseroan di masa mendatang dan berkomitmen untuk terus mempersiapkan SDM terbaik bagi Perseroan.

In 2021, Human Capital Division will continue the designated initiatives starting from recruitment to employee performance management. In the upcoming year, the Human Capital Division will continue Management Trainee program as well as specific recruitment for particular competences, such as information technology and marketing.

Considering the COVID-19 pandemic may continue in 2021, the Human Capital Division will continuously prepare all personnel to assure the Company's organization will be more ready in facing other potential risks in the upcoming years. The Human Capital Division will also update Key Performance Indicators (KPI) based on actual condition of the Company.

As a company that has been present for more than 30 years, the ability the organization to survive in encountering challenges is also determined by human capital with high adaptive skill and capability to anticipate the future. The Human Capital Division realizes our strategic role in the Company's future sustainability and committed to prepare the best talents for the Company.

TINJAUAN ANAK PERUSAHAAN - TRIMEGAH ASSET MANAGEMENT

Overview of the Subsidiary-Trimegah Asset Management

Dana kelolaan (*Asset Under Management* – AUM) industri reksa dana yang pada akhir tahun 2019 mencapai Rp542,2 triliun, mengalami tekanan pada kuartal I 2020 sebagai dampak pandemi COVID-19, dan mencapai titik terendahnya Rp471,8 triliun pada Maret 2020, atau turun 13%. Dana kelolaan industri ini baru menunjukkan tren peningkatan mulai pertengahan hingga akhir tahun 2020.

Asset Under Management (AUM) of mutual funds industry that by end of 2019 achieved Rp542.2 trillion, experienced a pressure at the first quarter of 2020 following the COVID-19 pandemic, and hit the lowest point of Rp471.8 trillion in March 2020, or down 13%. The industry AUM just started to show an increasing trend in mid to late 2020.

Serupa dengan kondisi di industri, bisnis *Asset Management* Perseroan juga ikut terdampak oleh kondisi pandemi. Dana kelolaan anak perusahaan Perseroan yang sempat mencapai Rp20 triliun pada awal tahun 2020, turun hingga Rp14,6 triliun pada akhir kuartal I tahun 2020, dan kemudian berangsur-angsur pulih hingga menutup tahun 2020 dengan AUM mencapai Rp17,6 triliun.

Similar to the condition in the industry, the Company's Asset Management business was also affected by the pandemic. The Company's subsidiary's AUM that once reached Rp20 trillion in early 2020, decreased to Rp14.6 trillion by end of 1st quarter 2020, and then gradually recovered to end 2020 with AUM reaching Rp17.6 trillion.

Kondisi pandemi yang memukul ekonomi, juga menyebabkan beberapa nasabah, terutama nasabah institusi seperti bank yang memerlukan likuiditas lebih, memilih untuk melakukan *redemption.* Untuk mengantisipasi hal ini, Perseroan selalu menjaga likuiditas pada level yang optimal sehingga dapat memenuhi komitmennya kepada nasabah yang melakukan *redemption* secara lancar. Dengan berhasil memastikan kelancaran proses redemption, *confidence level* nasabah terhadap Perseroan pun meningkat sehingga pada saat likuiditas di pasar kembali pulih, sebagian nasabah yang sebelumnya sempat melakukan *redemption* dana mereka, kembali melakukan *subscription*.

The pandemic condition, which also hampered the economy, had also caused some clients, especially institutional clients such as banks who required more liquidity, to decided to make redemptions. To anticipate this, the Company always maintained liquidity at an optimum level so that it could fulfill its commitment to clients who made redemption smoothly. By successfully ensuring a smooth redemption process, clients' confidence level to the Company also increased thereby when liquidity in the market recovered, some clients who previously had redeemed their funds, resumed subscriptions.

Untuk mencegah penyebaran COVID-19 di lingkungan kerja, Trimegah Asset Management juga menerapkan kebijakan *Work from Home* (WFH) bagi hampir semua karyawannya, yang dapat terlaksana dengan baik antara lain dengan dukungan sistem dan infrastruktur teknologi informasi. Perseroan juga meihat bahwa adaptasi terhadap kebiasaan baru (*new normal)* di masyarakat telah memungkinkan komunikasi/ *meeting* dengan nasabah yang lebih sering secara *online*, dan *event gathering* nasabah secara *online* melalui webinar.

To prevent the COVID-19 transmission at the office area, Trimegah Asset Management also implemented Work from Home (WFH) policy for almost all of the employees, which was successfully implemented, among others, supported by the information technology systems and infrastructure. The Company also observed that adaptation to the new habit (new normal) by the society has allowed more frequent communication/meetings with clients via online, and online client gathering events through webinars.

Salah satu hal baik yang terjadi pada tahun 2020 adalah kenaikan jumlah nasabah ritel secara signifikan, sekitar 37% dibandingkan tahun 2019. Untuk terus menangkap peluang dari segmen ritel tersebut, Perseroan secara aktif meningkatkan *engangement* dengan nasabah melalui konten media sosial. Pertumbuhan *followers* media sosial Perseroan juga tercatat cukup signifikan, naik menjadi sekitar 7.600-an saat ini.

One of positive news that happened in 2020 was a significant increase in total retail clients, around 37% compared to 2019. To keep seizing opportunities from the retail segment, the Company has actively increased engagement with the customers through social media contents. Growth of the Company's social media followers was also recorded quite significantly, rising to around 7,600 nowadays.

Meskipun menghadapi kondisi pasar yang kurang kondusif, Trimegah Asset Management berhasil mencetak kinerja positif, beberapa reksa dana berhasil menjadi juara di *asset* kelasnya, salah satunya Reksa Dana Trimegah Balanced Absolute Strategy (BASTRA) yang mencatat kinerja 22% pada tahun 2020 dibandingkan dengan kinerja IHSG yang negatif 5%.

Despite facing unfavorable market conditions, Trimegah Asset Management managed to record a positive performance, some mutual funds that successfully won as champions in their asset class, including Trimegah Balanced Absolute Strategy (BASTRA) Mutual Fund that posted performance of 22% in 2020 compared to the JCI performance of negative 5%.

Perseroan cukup optimis dengan pergerakan IHSG yang positif di awal tahun 2021, dan kenaikan investor retail yang diperkirakan masih akan terus tumbuh di tahun mendatang. Perseroan juga melihat bahwa hadirnya perusahaan *financial technology (fintech)* akan terus memberikan inovasi-inovasi layanan dan kemudahan bagi masyarakat. Untuk itu, Perseroan telah menyiapkan strategi untuk menambah kerja sama dengan perusahaan *fintech* sebagai mitra distribusi. Dari sisi produk, Perseroan juga akan terus mengembangkan inovasi dan produk sesuai kebutuhan investasi nasabah.

The Company remains optimistic on positive JCI movement in early 2021, and on the increase in retail investors that is expected to keep growing in the coming years. The Company also see that the presence of financial technology (fintech) companies will continue to provide service innovations and convenience to the society. Therefore, the Company has prepared strategies to expand cooperation with fintech companies as distribution partners. From the product side, the Company will also continue to develop innovations and products according to clients' investment needs.

Dengan pengalaman lebih dari 30 tahun di pasar modal, Perseroan masih akan terus berinovasi, menyempurnakan pengelolaan dan sistem agar terus menjadi mitra investasi pilihan.

With over 30 years of experience in the capital market, the Company will continue to develop innovations, improve management and systems in order to stay as the preferred investment partners.

TINJAUAN KEUANGAN

Financial Overview

ASET

Total aset Perseroan mengalami penurunan sebesar 12,3% dari Rp3,1 triliun per 31 Desember 2019 menjadi Rp2,7 triliun per 31 Desember 2020. Penurunan ini terutama disebabkan oleh penurunan total piutang nasabah - neto, piutang beli efek dengan janji jual kembali - neto, dan portofolio efek - neto.

Sementara itu, kas dan setara kas, aset tetap dan aset hak guna meningkat masing-masing Rp73,2 miliar dan Rp43,3 miliar. Aset tetap dan aset hak guna meningkat sehubungan dengan implementasi PSAK 73 yang dimulai di tahun 2020.

LIABILITAS

Total liabilitas Perseroan turun Rp339,1 miliar atau 15,5% dari Rp2,2 triliun per 31 Desember 2019 menjadi Rp1,9 triliun per 31 Desember 2020. Penurunan ini terutama disebabkan oleh penurunan utang nasabah, dan utang lembaga kliring dan penjaminan masing-masing sebesar Rp275,6 miliar atau 19,9%, dan Rp71,3 miliar atau 100% dari posisi pada Desember 2019.

Surat utang jangka pendek juga turun Rp39,6 miliar atau 31,5% dari Rp125,6 miliar per 31 Desember 2019 menjadi Rp86,0 miliar per 31 Desember 2020 sebagai akibat kondisi pasar modal yang sedang menurun. Sementara itu penerapan PSAK 73 pada tahun 2020 berimplikasi pada munculnya liabilitas sewa senilai Rp39,8 miliar.

EKUITAS

Total ekuitas Perseroan per 31 Desember 2020 tercatat sebesar Rp822,3 miliar, turun Rp35,1 miliar atau 4,1% dari Rp857,4 miliar per 31 Desember 2019. Penurunan total ekuitas ini berasal dari penurunan saldo laba sebesar 9,9% dari Rp346,3 miliar per 31 Desember 2019 menjadi sekitar Rp311,9 miliar per 31 Desember 2020 karena penyesuaian atas penerapan PSAK 71. Di sisi lain, cadangan umum naik sebesar Rp1,1 miliar menjadi Rp7,4 miliar per 31 Desember 2020.

PENDAPATAN USAHA

Pendapatan usaha pada tahun 2020 tercatat sebesar Rp424,0 miliar, turun 4,3% dari pendapatan usaha tahun 2019 sebesar Rp443,0 miliar. Penurunan ini

ASSETS

The Company's total assets decreased by 12.3% from Rp3.1 trillion as of December 31, 2019 to Rp2.7 trillion as of December 31, 2020. The decrease was mainly due to a decrease in total receivables from customers – net, reverse repo receivables - net, and marketable securities net.

Meanwhile, cash and cash equivalents, fixed assets and right-of-use assets increased Rp73.2 billion and Rp43.3 billion respectively. Fixed assets and right-of-use assets increased due to the implementation of SFAS 73 which started in 2020.

LIABILITIES

The Company's total liabilities decreased by Rp339.1 billion or 15.5% from Rp2.2 trillion as of December 31, 2019 to Rp1.9 trillion as of December 31, 2020. The decrease was mainly due to a decrease in payables to customers, and payables to clearing and guarantee institution by Rp275.6 billion or 19.9%, and Rp71.3 billion or 100% from the position as of December 31, 2019 respectively.

Short-term promissory notes decrease by Rp39.6 billion or 31.5% from Rp125.6 billion as of December 31, 2019 to Rp86.0 billion as of December 31, 2020 as a result of sluggish capital market conditions. Meanwhile, the implementation of SFAS 73 in 2020 had an implication on lease liability amounting to Rp39.8 billion.

EQUITY

The Company's total equity as of December 31, 2020 was recorded at Rp822.3 million, decreased by Rp35.1 billion or 4.1% from Rp857.4 billion as of December 31, 2019. The decrease in total equity was due to a decrease in retained earnings by 9.9% from Rp346.3 billion as of December 31, 2019 to Rp311.9 billion as of December 31, 2020 due to adjustment of SFAS 71 implementation. On the other hand, general reserves increased Rp1.1 billion to Rp7.4 billion as of December 31, 2020.

REVENUES

Total revenues in 2020 were recorded at Rp424.0 billion, decreased 4.3% from total revenues 2019 of Rp443.0 billion. The decrease was mainly contributed

terutama disebabkan oleh penurunan pendapatan usaha dari jasa kegiatan manajer investasi, dan komisi perantara pedagang efek.

by a decrease in revenue from investment manager activities services, and brokerage commission.

Pendapatan usaha dari jasa kegiatan manajer investasi turun 19,3% dari Rp147,8 miliar pada tahun 2019 menjadi Rp119,2 miliar pada tahun 2020 karena turunnya dana kelolaan entitas anak Perseroan sebagai dampak pandemi COVID-19 pada pasar modal. Senada dengan itu, komisi perantara pedagang efek juga mengalami penurunan dari Rp103,1 miliar pada tahun 2019 menjadi Rp85,6 miliar pada tahun 2020.

Revenues from investment manager activity services decreased by 19.3% from Rp147.8 billion in 2019 to Rp119.2 billion in 2020 due to the decrease in the asset under management of the Company's subsidiary as a result of COVID-19 pandemic on the capital market. Similar with that, brokerage commission decreased from Rp103.1 billion in 2019 to Rp85.6 billion in 2020.

Meskipun demikian, di tengah kondisi pasar yang sulit, beberapa unit usaha lain mencatat pertumbuhan di tahun 2020. Divisi Fixed Income Trading dan Divisi Investment Banking mencatat peningkatan volume bisnis, yang dicerminkan kenaikan pendapatan usaha dari jasa penjaminan emisi dan penjualan efek sebesar Rp7,5 miliar atau 31,3% dari Rp23,8 miliar pada 2019 menjadi Rp31,3 miliar pada 2020. Keuntungan perdagangan efek - neto tumbuh 68,0% dari Rp34,8 miliar menjadi Rp58,4 miliar. Pendapatan dari jasa penasihat investasi juga tumbuh 65,7% dari Rp5,1 miliar menjadi Rp8,5 miliar pada tahun 2020.

However, amidst difficult market conditions, several other business units recorded growth in 2020. The Fixed Income Trading Division and the Investment Banking Division recorded an increase in business volume, which was reflected in an increase in underwriting and selling fees by Rp7.5 billion or 31.3% from Rp23.8 billion in 2019 to Rp31.3 billion in 2020. Gain on trading of marketable securities – net grew 68.0% from Rp34.8 billion to Rp58.4 billion. Investment advisory fees also grew 65.7% from Rp5.1 billion to Rp8.5 billion in 2020

Di sisi lain, pendapatan dari dividen dan bunga tidak banyak mengalami perubahan, dari Rp125,8 miliar pada tahun 2019, turun Rp5,1 miliar atau 3,9% menjadi Rp120,7 miliar pada tahun 2020.

On the other hand, dividends and interest income relatively remained steady, from Rp125.8 billion in 2019, slightly decreased by Rp5.1 billion or 3.9% to Rp120.7 billion in 2020.

BEBAN USAHA

Total beban usaha Perseroan pada tahun 2020 tercatat sebesar Rp309,5 miliar, sedikit mengalami kenaikan dari Rp299,3 miliar pada tahun 2019. Kenaikan ini terutama disebabkan oleh pembentukan Cadangan Kerugian Penurunan Nilai (CKPN), penyusutan dan amortisasi, dan jasa professional.

Pada tahun 2020, muncul pos pembentukan CKPN sebesar Rp17,2 miliar sebagai dampak penerapan PSAK 71 di tahun 2020 yang mewajibkan Perseroan mencatat CKPN atas aset keuangannya dengan model "Kerugian Ekspektasian" (*expected loss*), sehingga pencatatan CKPN dilakukan lebih dini dibandingkan dengan laporan laba rugi Perseroan pada saat penerapan PSAK 55 yang menggunakan model "Kerugian yang Telah Terjadi" (*incurred loss*). Sehubungan dengan penerapan PSAK 73, terdapat peningkatan beban penyusutan dan amortisasi dari Rp9,4 miliar pada tahun 2019 menjadi Rp19,5 miliar pada tahun 2020 seiring dengan kenaikan aset tetap dan aset hak guna.

Di sisi lain, dengan penerapan PSAK 73, jika sebelumnya Perseroan hanya mengakui beban sewa atas perjanjian sewanya (*operating lease*), saat ini Perseroan mengakui beban penyusutan atas aset hak guna dan beban bunga (*finance lease*). Oleh karena itu, beban sewa kantor mengalami penurunan dari Rp15,3 miliar pada tahun 2019 menjadi Rp3,6 pada tahun 2020.

Sebagai dampak pandemi COVID-19, terjadi penurunan iklan dan promosi, jamuan dan sumbangan, dan perjalanan dinas sehingga di tahun 2020 terjadi penurunan biaya-biaya tersebut masing-masing sebesar Rp6,8 miliar, Rp2,3 miliar dan Rp1,2 miliar.

Oleh karena itu, secara keseluruhan total beban usaha Perseroan pada tahun 2020 hanya mengalami sedikit kenaikan dari tahun 2019.

OPERATING EXPENSES

The Company's total operating expenses in 2020 were recorded at Rp309.5 billion, slightly increased from Rp299.3 billion in 2019. This increase was mainly due to provision for impairment losses, depreciation and amortization, and professional fees.

In 2020, a provision for impairment losses of Rp17.2 billion appeared as a result of the implementation of SFAS 71 in 2020, which required the Company to record provision for impairment losses on its financial assets using the "Expected Loss" model, so that the provision for impairment losses was recorded earlier than the Company's income statement at the time of implementing SFAS 55 using the "Incurred Loss" model. In connection with the implementation of SFAS 73, there was an increase in depreciation and amortization expenses from Rp9.4 billion in 2019 to Rp19.5 billion in 2020 in line with the increase in fixed assets and right-of-use assets.

On the other hand, with the implementation of SFAS 73, if previously the Company only recognized lease expenses on its operating lease, currently the Company recognizes depreciation expense for right-of-use assets and interest expense (finance lease). Therefore, office rental expenses decreased from Rp15.3 billion in 2019 to Rp3.6 in 2020.

As a result of the COVID-19 pandemic, there was a decrease in advertisement and promotion, representation and donation, and business trip so that in 2020 there was a decrease in these costs of Rp6.8 billion, Rp2.3 billion and Rp1.2 billion respectively.

Therefore, overall the Company's total operating expenses in 2020 experienced only a slight increase from 2019.

LABA USAHA, PENDAPATAN (BEBAN) LAIN-LAIN

Penurunan total pendapatan usaha dan kenaikan total beban usaha menyebabkan penurunan laba usaha dari Rp143,7 miliar pada tahun 2019 menjadi Rp114,5 miliar pada tahun 2020. Sejalan dengan itu, marjin laba usaha Perseroan juga turun dari 32,4% pada tahun 2019 menjadi 27,0% pada tahun 2020.

Pada tahun 2020, Perseroan juga mencatat kenaikan beban keuangan sebesar Rp3,5 miliar atau naik 5,7% dari Rp61,6 miliar pada tahun 2019 menjadi Rp65,0 miliar pada tahun 2020. Kenaikan beban keuangan ini terutama disebabkan oleh penerapan PSAK 73 yang mencatat beban bunga atas *financial lease*.

LABA BERSIH TAHUN BERJALAN DAN TOTAL LABA KOMPREHENSIF

Dengan laba usaha tahun 2020 yang turun dari tahun 2019, laba bersih tahun berjalan juga mengalami penurunan dari Rp64,9 miliar di tahun 2019 menjadi Rp28,3 miliar. Sejalan dengan itu, total laba komprehensif turun dari Rp65,1 miliar pada tahun 2019 menjadi Rp26,6 miliar pada tahun 2020.

PERBANDINGAN TARGET DAN REALISASI KINERJA

Comparison of Target and Actual Performance

Dibandingkan dengan target yang ditetapkan, meskipun menghadapi kondisi pasar yang kurang mendukung akibat pandemi, pada tahun 2020 Perseroan mencatatkan kinerja keuangan yang cukup baik.

- Total pendapatan usaha tahun 2020 mencapai Rp424,7 miliar, turun 4,3% dari Rp443,0 miliar di tahun 2019, sekitar 17,6% di bawah target Perseroan.
- Total beban usaha pada tahun 2020 tercatat Rp309,5 miliar, naik 3,4% dari total beban usaha di tahun 2019. Peningkatan beban usaha Perseroan juga turut disebabkan oleh pembentukan Cadangan Kerugian Penurunan Nilai (CKPN) sebagai dampak penerapan PSAK 71. Meskipun demikian, Perseroan berhasil melakukan beberapa efisiensi sehingga total beban usaha hanya mencapai 87,2% dari target tahun 2020.
- Dengan demikian, Perseroan membukukan laba usaha sebesar Rp114,5 miliar, 71,9% dari target Perseroan.
- Beban lain-lain - neto tahun 2020 tercatat Rp51,8 miliar, atau 10,2% di atas target Perseroan.
- Secara keseluruhan, Perseroan membukukan laba bersih tahun berjalan sebesar Rp28,3 miliar, atau 37,2% dari target tahun 2020.

Compared to the target, despite facing unfavorable market conditions due to the pandemic, in 2020 the Company recorded a fairly good financial performance.

- Total revenues in 2020 reached Rp424.7 billion, decreased 4.3% from Rp443.0 billion in year 2019, around 17.6% below the Company's target.
- Total operating expenses in year 2020 was recorded Rp309.5 billion, increased 3.4% from total operating expenses in 2019. The increase in Company's operating expenses was also due to the provision for impairment losses as a result of implementation of SFAS 71. However, the Company managed to make several efficiencies so that the total operating expenses only reached 87.2% of the 2020 target.
- As a result, the Company recorded income from operation of Rp114.5 billion, 71.9% of the Company's target.
- Other expenses- net in 2020 was recorded Rp51.8 billion, or 10.2% above the Company's target.
- Overall, the Company recorded net income for the year amounting to Rp28.3 billion, or 37.2% from its 2020 target.

PROYEKSI TAHUN 2021

2021 Projection

PENDAPATAN DAN LABA

Tahun 2020 merupakan tahun yang cukup berat bagi semua sektor ekonomi, termasuk pasar modal. Pembatasan aktivitas masyarakat selama masa pandemi COVID-19 telah menghambat kegiatan ekonomi yang pada gilirannya menekan kinerja pasar modal Indonesia seperti ditunjukkan IHSG yang menyentuh level terendahnya pada bulan Maret 2020.

Di sepanjang tahun 2020, Pemerintah telah berupaya menopang perekonomian domestik dengan memberikan berbagai stimulus untuk memulihkan konsumsi masyarakat yang secara bertahap mulai berhasil menggerakkan perekonomian. Upaya-upaya tersebut tentunya masih akan diteruskan oleh Pemerintah di tahun 2021. Program pendistribusian vaksin, baik di Indonesia maupun secara global, diharapkan akan membantu mempercepat pemulihan ekonomi. Hal ini tercermin dari optimisme berbagai kalangan terhadap pertumbuhan ekonomi global dan domestik di tahun 2021.

Sejalan dengan itu, walau masih akan tetap dibayang-bayangi oleh pandemi COVID-19, Perseroan optimis kinerja perekonomian dan pasar modal Indonesia di tahun 2021 akan lebih baik daripada tahun 2020. Hal ini diterjemahkan Perseroan dalam proyeksi pertumbuhan pendapatan usaha dan laba bersih tahun 2021 yang positif. Perseroan akan mengoptimalkan transaksi nasabah ritel, terutama pada segmen *online*, baik dalam berinvestasi di saham, reksa dana maupun SBN Ritel, sambil tetap menjaga beban usaha yang optimal dan memanfaatkan momentum *business opportunity* yang mungkin muncul sepanjang tahun 2021.

STRUKTUR MODAL

Pada tahun 2021 ini Perseroan menerbitkan *Medium Term Notes* (MTN) II dengan nominal sebesar-besarnya Rp250 miliar yang akan digunakan untuk modal kerja Perseroan.

KEBIJAKAN DIVIDEN

Dividen akan diputuskan dalam Rapat Umum Pemegang Saham yang akan diselenggarakan pada tahun 2021, dengan mempertimbangkan kinerja keuangan dan kebutuhan permodalan Perseroan.

REVENUES AND PROFIT

All economic sectors, including the capital market, saw 2020 as a tough year. The public activity restriction during the COVID-19 pandemic affected the economic activity, which in turn, also pressured performance of the Indonesian capital market, as indicated by JCI that hit the lowest level in March 2020.

Throughout 2020, the Government strived to support the domestic economy through couple of stimulus program to recover public consumption, which has started to drive the economy gradually. These attempts will surely be continued by the Government in 2021. The vaccine distribution program, both in Indonesia and worldwide, is expected to help accelerate the economic recovery. This is reflected in the optimism showed by various groups towards the global and domestic economic growth in 2021.

Consequently, although it will still be overshadowed by the COVID-19 pandemic, the Company is optimistic that the performance of the Indonesian economy and capital market in 2021 will be better than in 2020. The optimism is further translated by the Company in positive revenues and net profit growth projection in 2021. The Company will optimize retail client transactions, especially in online segment, for stocks, mutual funds and retail government bonds, while also maintaining optimum operating expenses and take advantage of business opportunity momentum that may arise throughout 2021.

CAPITAL STRUCTURE

In 2021, the Company issue Medium Term Notes (MTN) II with maximum amount of Rp250 billion that will be used for the Company's working capital.

DIVIDEND POLICY

Dividend will be decided in the General Meetings of Shareholders that will be held in 2021 by considering the Company's financial performance and capital needs.

PERUBAHAN KEBIJAKAN AKUNTANSI

Changes in Accounting Policy

Pada tahun 2020, terdapat 3 Pernyataan Standar Akuntansi Keuangan (PSAK) baru, yaitu PSAK 71, 72, dan 73.

PSAK 71 "INSTRUMEN KEUANGAN"

Perusahaan dan entitas anaknya menerapkan model kerugian kredit ekspektasian saat menghitung kerugian penurunan nilai piutang dan aset keuangan. Hal ini mengakibatkan peningkatan penyisihan penurunan nilai dan pertimbangan yang lebih luas karena kebutuhan untuk memperhitungkan informasi yang bersifat perkiraan masa depan ketika memperkirakan jumlah penyisihan yang sesuai. Dalam penerapan PSAK 71, Perusahan dan entitas anaknya mempertimbangkan probabilitas terjadinya gagal bayar selama umur kontrak pada saldo piutang usaha dan aset kontrak pada pengakuan awal aset tersebut.

PSAK 72 "KONTRAK DENGAN PELANGGAN"

Perusahaan dan entitas anaknya telah mengadopsi PSAK 72 yang memperkenalkan kerangka baru berupa lima-tahapan model untuk menentukan bagaimana, berapa dan kapan pendapatan diakui. PSAK 72 telah diterapkan secara restrospektif dan tidak berdampak signifikan pada laporan keuangan konsolidasian.

PSAK 73 "SEWA"

Penerapan PSAK 73 mengakibatkan Perusahan dan entitas anaknya mengakui aset-hak-guna dan liabilitas sewa untuk semua kontrak yang merupakan, atau mengandung sewa. Berdasarkan PSAK 73, Perusahaan dan entitas anaknya, sebagai penyewa wajib membukukan hampir semua transaksi sewanya sebagai sewa finansial. Pembukuan sewa operasi hanya boleh dilakukan atas transaksi sewa yang memenuhi dua syarat: berjangka pendek (di bawah 12 bulan) dan bernilai rendah.

In 2020, there were 3 new PSAKs (Statements of Financial Accounting Standard - SFAS), namely PSAK 71, 72, and 73.

PSAK 71 "FINANCIAL INSTRUMENTS"

The Company and its subsidiary apply an expected credit loss model when calculating impairment losses on its receivables and other financial assets. This results in increased impairment provisions and greater judgement due to the need to factor in forward-looking information when estimating the appropriate amount of provisions. In applying PSAK 71, the Company and its subsidiary must consider the probability of a default occurring over the contractual life of its financing receivables and contracts asset balances on initial recognition of those assets.

PSAK 72 "REVENUE FROM CONTRACTS WITH CUSTOMERS"

The Company and its subsidiary have adopted PSAK 72, which introduces a new five-step model framework for determining whether, how much and when the revenue is recognized. PSAK 72 has been applied retrospectively and has no significant impact on the consolidated financial statements.

PSAK 73 "LEASES"

Adoption of PSAK 73 resulted in the Company and its subsidiary recognizing right-of-use assets and lease liabilities for all contracts that are, or contain, a lease. Based on PSAK 73, the Company and its subsidiary, as lessees, are required to record almost all of the lease transactions as financial leases. Operating leases may only be recorded for lease transactions that meet two conditions: short term (under 12 months) and low value.

KEBIJAKAN PEMBAYARAN DIVIDEN

Dividend Payment Policy

Kebijakan pembagian dividen tunai Perusahaan telah disebutkan dan dijelaskan pada prospektus Penawaran Umum Saham Perusahaan pada tanggal 5 Januari 2000 yakni:

- Seluruh Saham Biasa atas nama Perseroan yang telah ditempatkan dan disetor penuh mempunyai hak yang sama dan sederajat termasuk hak atas pembagian dividen;
- Perseroan berencana membagikan dividen dalam bentuk uang tunai sekurang-kurangnya sekali dalam setahun. Besarnya dividen dikaitkan dengan keuntungan Perseroan pada tahun buku yang bersangkutan, tanpa mengabaikan tingkat kesehatan dan rencana Perseroan untuk menentukan penggunaan lain atas laba bersih setelah dikurangi cadangan, sesuai dengan ketentuan Anggaran Dasar Perseroan.

Sesuai dengan Anggaran Dasar Perseroan, dalam hal terdapat keputusan Rapat Umum Pemegang Saham (RUPS) terkait dengan pembagian dividen tunai, Perseroan wajib melaksanakan pembayaran dividen tunai kepada pemegang saham yang berhak paling lambat 30 (tiga puluh) hari setelah diumumkannya ringkasan risalah RUPS yang menyetujui pembagian dividen tunai.

Dividen yang tidak diambil setelah 5 tahun sejak tanggal ditetapkan untuk pembayaran dividen lampau, dimasukkan ke dalam cadangan khusus. RUPS mengatur tata cara pengambilan dividen yang telah dimasukkan ke dalam cadangan khusus tersebut. Dividen yang telah dimasukkan dalam cadangan khusus sebagaimana tersebut di atas, dan tidak diambil dalam jangka waktu 10 tahun akan menjadi hak Perseroan.

Berdasarkan RUPS Tahunan tanggal 26 Agustus 2020, dan RUPS Tahunan tanggal 25 Juni 2019, Perseroan tidak membagikan dividen kepada Pemegang Saham karena Perseroan bermaksud untuk memperkuat struktur permodalan Perseroan, sebagaimana tercantum dalam Akta Berita Acara Rapat Umum Pemegang Saham Tahunan No. 06 tanggal 26 Agustus 2020 yang dibuat di hadapan Fessy Farizqoh Alwi, SH, M.Kn. Notaris di Jakarta, dan Akta Berita Acara Rapat Umum Pemegang Saham Tahunan No. 57 tanggal 25 Juni 2019 yang dibuat di hadapan Fatiah Helmi, SH, Notaris di Jakarta.

The dividend pay-out policy has been disclosed and outlined in the Company's Public Offering prospectus on January 5, 2000 as follows:

- All the Company's Common Shares that have been issued and fully paid have the same and equivalent rights including the right for dividend;
- The Company plans to distribute dividend in the form of cash at least once a year. The amount of the dividend depends on the Company's profit in the related financial year, without disregarding the Company's health level and plan to determine other purpose on the net profit after deduction for reserve in accordance with provisions in the Company's Article of Association.

According to the Company's Articles of Association, in the event that there is a resolution of a General Meeting of Shareholders (GMS) related to distribution of cash dividends, the Company shall perform cash dividend payment to the shareholders who are entitled no later than 30 (thirty) days after the announcement of summary of minutes of the GMS that approves the distribution of cash dividends.

Dividends that are not collected/claimed after 5 years since the stipulated date for payment of the dividends, will be placed in a special reserve. The GMS shall determine the procedures for collection of the dividends that have been placed in the special reserve. Dividends that have been placed into the special reserve as mentioned. Above, and are not collected/claimed within a period of 10 years will become the right of Company.

Based on the Annual General Meeting of Shareholders on August 26, 2020, and the Annual General Meeting of Shareholders on June 25, 2019, the Company did not distribute any dividend to the Shareholders because the Company intends to strengthen the Company's capital structure, as stated in the Deed of Minutes of Annual General Meeting of Shareholders No. 06 dated August 26, 2020 made before Fessy Fazriqoh Alwi, SH, M.Kn. Notary in Jakarta, and the Deed of Minutes of Annual General Meeting of Shareholders No. 57 dated June 25, 2019 made before Fatiah Helmi, SH, Notary in Jakarta.

ASPEK PEMASARAN

Marketing Aspect

Perseroan menyadari bahwa produk dan layanan berkualitas tetap perlu didukung oleh pemasaran yang efektif untuk memastikan penerimaan konsumen atas produk dan layanan tersebut, dan meningkatkan kepercayaan konsumen.

Dengan prinsip tersebut, Perseroan selalu berupaya untuk terus secara konsisten memperkuat *brand image*nya dan meningkatkan efektivitas komunikasi pemasarannya melalui berbagai kegiatan pemasaran seperti edukasi produk dan layanan, baik melalui *virtual event* atau melalui *digital channel* Perseroan lainnya.

Perkembangan teknologi *digital* yang pesat, perubahan tren *online learning*, dan penerapan *work from home* dalam masa pandemi COVID-19 mengharuskan Perseroan untuk lebih berfokus pada aktivitas *digital marketing*. Kondisi pandemi tidak menghalangi Perseroan untuk terus terhubung dengan nasabah, melalui solution *center* sekaligus *call center* yang dapat dihubungi melalui telepon maupun *e-mail*. Nasabah dapat menghubungi Perseroan untuk pertanyaan seputar informasi produk dan layanan, maupun keluhan pelanggan.

The Company realizes that quality products and services still need to be supported by effective marketing to ensure consumer acceptance of these products and services, and increase consumer confidence.

With this principle, the Company always strives to consistently strengthen its brand image and improve the effectiveness of its marketing communications through various marketing activities such as product and service education, either through virtual events or through other Company's digital channels.

The rapid development of digital technology, changes in online learning trends, and the implementation of work from home during the COVID-19 pandemic forced the Company to focus more on digital marketing activities. Pandemic conditions do not prevent the Company from continuing its relationship with clients, through a solution center as well as a call center that can be reached by telephone or e-mail. Client can contact the Company for questions regarding product and service information, as well as client complaints.

ASPEK PEMASARAN

Marketing Aspect

Berikut ini adalah beberapa kegiatan yang dilakukan selama tahun 2020:

- Menyelenggarakan berbagai *virtual event*
  Di tengah keterbatasan dalam penyelenggaraan marketing event secara fisik, untuk memastikan nasabah terus merasakan kehadiran Trimegah, Perseroan beralih untuk menyelenggarakan berbagai *event* secara *virtual*. *Virtual event* tersebut dikemas dengan menghadirkan *market update*, edukasi, maupun penawaran produk investasi dengan menghadirkan narasumber, baik internal maupun eksternal yang mumpuni, dan juga *Self-Regulatory Organization* (SRO).

- Memperkuat inisiatif *digital marketing*
  Untuk menangkap peluang, Perseroan terus mengembangkan inisiatif *digital marketing* salah satunya melalui pemasaran produk dan jasa melalui kegiatan *marketing* di media sosial terutama Instagram dan Youtube. Pandemi, yang telah mengalihkan interaksi menjadi secara *digital*, mendorong Perseroan untuk dapat menyelenggarakan Instagram Live secara rutin, dan tayangan ulang semua konten webinar Perseroan yang telah terselenggara dapat disaksikan pada *Official* Youtube *Channel* Trimegah Sekuritas.

- Memperkuat infrastruktur *digital*
  Selain penyempurnaan *Corporate website* www.trimegah.com dengan tampilan yang lebih *user friendly* (termasuk versi *mobile*), *corporate website* Perseroan juga menyediakan informasi yang *up-to-date* serta memperkuat fitur pembukaan rekening secara *online*.

- Memperkuat layanan *call center*
  Perseroan terus memperkuat pelayanan *call center* untuk meningkatkan kepuasan nasabah dalam menyediakan informasi produk dan layanan, dan menangani keluhan nasabah.

Saat ini, Perseroan didukung oleh 13 kantor cabang di 12 kota di Indonesia yang menyediakan produk dan layanan pasar modal, mulai dari layanan transaksi saham, penjualan reksa dana, hingga Surat Berharga Negara Ritel. Perseroan akan terus memanfaatkan perkembangan teknologi *digital* dan media sosial dalam melaksanakan aktivitas pemasaran untuk menjangkau masyarakat yang lebih luas terutama generasi muda.

The following are some of the activities carried out during 2020:

- Organizing various virtual events
  In the midst of limitations in organizing physical marketing events, to ensure clients continue to feel Trimegah's presence, the Company had switched to organizing various events virtually. The virtual event was packaged by presenting market updates, education, and investment product offerings by presenting qualified internal and external sources, as well as Self-Regulatory Organization (SRO).

- Strengthening digital marketing initiatives
  To seize opportunities, the Company continued to develop digital marketing initiatives, one of which was through the marketing of products and services through marketing activities on social media, especially Instagram and Youtube. The pandemic, which had shifted interactions to digital, encouraged the Company to be able to hold Instagram Live regularly, and all content of the Company's webinars that had been held can be watched reruns on Trimegah Sekuritas Official Youtube Channel.

- Strengthening digital infrastructure
  In addition to the improvement of the Company's website www.trimegah.com with a more user-friendly interface (including the mobile version), the Company's corporate website also provides up-to-date information as well as an online account opening feature.

- Strengthening call center services
  The Company continues to strengthen call center services to increase client satisfaction in providing product and service information, and handling client complaints.

Currently, the Company is supported by 13 branch offices in 12 cities in Indonesia that provide capital market products and services, ranging from equity transaction services, mutual fund sales, to Retail Government Securities. The company will continue to make a good use of the development of digital technology and social media in carrying out marketing activities to reach a wider community, especially the younger generation.

PANDANGAN ATAS PEREKONOMIAN GLOBAL DAN DOMESTIK

Memasuki tahun kedua masa pandemi COVID-19, sejumlah lembaga internasional telah menerbitkan prediksi pertumbuhan perekonomian global yang cukup baik. *International Monetary Fund* (IMF) memprediksi pertumbuhan perekonomian global tahun 2021 akan mencapai 5,5%, jauh lebih baik dari estimasi tahun 2020 yang mengalami kontraksi 3,5%. Tambahan stimulus fiskal dari Pemerintah Amerika Serikat, dan semakin luasnya program vaksinasi diharapkan dapat ikut menopang pemulihan perekonomian dunia. Namun, munculnya varian baru COVID-19 yang dikabarkan memiliki tingkat penularan yang 70% lebih tinggi akan menjadi salah satu faktor yang dapat menghambat pemulihan perekonomian.

Walaupun the *Fed Fund Rate* diperkirakan akan tetap dipertahankan pada *level* mendekati nol, stimulus fiskal di Amerika Serikat akan menaikkan imbal hasil US *Treasury* dan nilai tukar dolar Amerika Serikat terhadap Rupiah, yang pada gilirannya berpotensi menahan aliran modal asing masuk ke Indonesia.

Berbagai insentif dan pendistribusian vaksin COVID-19 diharapkan dapat membantu pemulihan perekonomian ke zona positif. IMF memprediksi ekonomi Indonesia akan tumbuh 4,8%, sejalan dengan prediksi pemerintah yang berada di kisaran 4,5%-5,3%.

Dalam Anggaran Pendapatan dan Belanja Negara Indonesia (APBN) 2021 dan Rencana Kerja dan Anggaran Tahunan 2021 PT Bursa Efek Indonesia (RKAT BEI 2021), inflasi tahun 2021 ditargetkan sebesar 3% ± 1% dengan asumsi pulihnya konsumsi masyarakat dan didukung oleh pertumbuhan ekonomi nasional.

Tingkat inflasi yang tetap terjaga, kinerja ekspor yang mulai meningkat, dan program vaksinasi COVID-19 yang sudah mulai berjalan diharapkan dapat mendorong pemulihan perekonomian *domestic*. Selain itu, pada bulan Maret 2021, Bank Indonesia mempertahankan BI 7-*Day Reverse Repo Rate* sebesar 3,50% turun 25 bps dari 3,75% pada Februari 2021.

GLOBAL AND DOMESTIC ECONOMIC OUTLOOK

Entering the second year of the COVID-19 pandemic, several international institutions have published fairly positive global economic growth projections. The International Monetary Fund (IMF) estimates that the global economic growth in 2021 will reach 5.5%, way higher than the 2020 projection that forecasted a contraction of 3.5%. The additional fiscal stimulus from the United States Government and a broader vaccination program are expected to support global economy recovery. However, the emergence of new COVID-19 variant, which reportedly has 70% higher transmission rate will become another factor that may constrain the economic recovery.

Although the Fed Funds Rate is expected to remain nearly zero, fiscal stimulus in the United States will raise US Treasury yields and exchange rate of US dollar to Rupiah, which in turn may potentially restrain the foreign capital inflow to Indonesia.

Various incentives and distribution of COVID-19 vaccines are expected to help the economic recovery towards a positive zone. The IMF projects that Indonesia's economy will grow by 4.8%, in line with the government's prediction of 4.5%-5.3% level.

In the 2021 State Budget, and the 2021 Indonesia Stock Exchange Annual Budget and Business Plan, the inflation in 2021 is targeted at around 3% ± 1% assuming a recovery of public consumption and supported by the national economic growth.

Stable inflation rate, export performance that starts to increase, and the COVID-19 vaccination program that is already underway are expected to boost domestic economic recovery. In addition, in March 2021, Bank Indonesia maintained BI 7-Day Reverse Repo Rate at 3.50%, down 25 bps from 3.75% in February 2021.

PANDANGAN ATAS PASAR MODAL DAN STRATEGI BISNIS PERSEROAN 2021

Walaupun pasar modal mengalami tekanan yang cukup tinggi selama pandemi COVID-19, Bursa Efek Indonesia (BEI) berhasil mencatatkan 10 rekor di tahun 2020. Pencapaian ini sebagian besar dipengaruhi oleh aktivitas investor ritel. Berdasarkan data BEI dan Kustodian Sentral Efek Indonesia (KSEI), investor ritel memiliki peran 48,4% dari total nilai perdagangan saham harian rata-rata sebesar Rp9,2 triliun.

Dengan ekspektasi pertumbuhan ekonomi domestik sebesar 4,5%-5,3%, berbagai insentif dan upaya pemulihan yang dilakukan oleh pemerintah, serta tingkat suku bunga yang masih dalam tren menurun, pasar modal Indonesia dipercaya akan memiliki prospek yang baik di tahun 2021.

Dalam RKAT 2021, BEI menargetkan 22 IPO saham di tahun 2021. Untuk dapat mempertahankan posisi Perseroan dalam 10 besar Bloomberg League Table di tahun 2021, Perseroan akan terus berperan aktif dalam kegiatan Penjaminan Emisi Efek, baik saham maupun obligasi.

Pada obligasi korporasi, KSEI dan PT Pemeringkat Efek Indonesia (PEFINDO) memperkirakan obligasi korporasi yang akan jatuh tempo pada tahun 2021 mencapai Rp121 triliun. Lebih lanjut, PEFINDO juga memperkirakan potensi penerbitan obligasi korporasi di tahun 2021 dapat mencapai Rp140 triliun, lebih besar dibandingkan dengan realisasi penerbitan obligasi di tahun 2020. Hal ini sejalan dengan pandangan Divisi Investment Banking Perseroan.

Pada penerbitan Surat Berharga Negara (SBN), di tahun 2021, Kementerian Keuangan Republik Indonesia berencana untuk menerbitkan 6 SBN Ritel senilai Rp80 triliun. Untuk mendukung program tersebut, Perseroan akan berpartisipasi secara aktif dalam memfasilitasi transaksi obligasi negara ritel.

OUTLOOK ON THE CAPITAL MARKET AND THE COMPANY'S BUSINESS STRATEGY 2021

Although the capital market experienced a huge pressure during the COVID-19 pandemic, the IDX managed to achieve 10 records in 2020. The achievement was mostly contributed by retail investor activity. Based on data released by the IDX and KSEI (Indonesia Central Securities Depository), retail investors contributed 48.4% of total average daily trading value of Rp9.2 trillion.

With expectation of domestic economic growth of 4.5%-5.3%, various incentives and recovery efforts by the government, as well as interest rate that is on a downward trend, the Indonesia's capital market is believed to have a promising prospects in 2021.

In the 2021 Indonesia Stock Exchange Annual Budget and Business Plan, IDX is targeting 22 equity IPOs in 2021. To maintain the Company's top 10 position in Bloomberg League Table for 2021, the Company will keep actively take part in both equity and bonds Underwriting activities.

In corporate bonds, KSEI and PT Pemeringkat Efek Indonesia – PEFINDO (Credit Rating Agency) estimate that corporate bonds with due in 2021 will reach Rp121 trillion. Furthermore, PEFINDO also estimates that potential corporate bonds issuance in 2021 may reach Rp140 trillion, higher than realization of bonds issuance in 2020. The growth is in line with the projection explained by the Company's Investment Banking Division.

In SBN (Government Securities) issuance, in 2021, Ministry of Finance of the Republic of Indonesia plans to issue 6 Retail SBNs worth of Rp80 trillion. To support this program, the Company will actively participate in facilitating retail government bond transactions.

Di pasar sekunder, BEI menargetkan nilai perdagangan saham harian rata-rata di tahun 2021 mencapai Rp8,5 triliun atau lebih rendah sekitar 8% dari nilai perdagangan saham harian rata-rata tahun 2020 sebesar Rp9,2 triliun. Target nilai perdagangan saham harian rata-rata ini mempertimbangkan pandemi COVID-19 yang masih berlangsung dengan upaya-upaya penanganan yang sedang dijalankan.

In the secondary market, the IDX is targeting average daily equity trading value in 2021 to reach Rp8.5 trillion or around 8% lower than the average daily equity trading value 2020 of Rp9.2 trillion. The average daily equity trading value targets have taken the prolong COVID-19 pandemic together with the efforts taken into consideration.

Tingginya kesadaran masyarakat untuk berinvestasi di pasar modal, bahkan dalam kondisi pandemi COVID-19, juga ditunjukkan oleh jumlah investor pasar modal yang tumbuh sekitar 56% dari posisi akhir 2019. Pertumbuhan ini salah satunya didukung oleh pertumbuhan nasabah pada segmen *online*. Dengan semangat '*go retail*', di tahun 2021 ini Perseroan masih akan berupaya untuk meningkatkan kontribusi nasabah ritel terutama dari segmen *online*.

High public awareness level to invest in the capital market, even in the COVID-19 pandemic condition, is also indicated by number of capital market investors, which grew by around 56% from the position as end of 2019. The growth was among other supported by growth of clients in the online segment. With the spirit of 'go retail' in 2021, the Company will still strive to increase the contribution of retail clients, especially from the online segment.

Dalam industri reksa dana, total dana kelolaan (*Asset under Management* - AUM) industri reksa dana per akhir tahun 2020 telah mencapai Rp573,5 triliun atau meningkat sekitar 6% dari dana kelolaan per akhir tahun 2019 sebesar Rp542,2 triliun. Pertumbuhan ini salah satunya didukung oleh jumlah investor reksa dana yang tumbuh cukup pesat sebesar 78% menjadi 3,2 juta investor di akhir tahun 2020. Dengan berbagai upaya pemulihan ekonomi domestik, Asosiasi Pelaku Reksa Dana dan Investasi Indonesia (APRDI) memproyeksikan dana kelolaan industri di tahun 2021 masih dapat tumbuh 15-20%.

In the mutual fund industry, total Asset under Management (AUM) of the mutual fund industry as of end 2020 reached Rp573.5 trillion or increased around 6% from the asset under management of Rp542.2 trillion as end of 2019. The growth was supported by, among other, the number of mutual fund investors, which grew rapidly by 78% to 3.2 million investors by end of 2020. Considering various domestic economy recovery plans, the APRDI (Association of Indonesia Mutual Funds and Investment) estimates the asset under management of the industry can still grow by 15-20% in 2021.

Untuk memanfaatkan berbagai peluang yang ada, anak perusahaan Perseroan akan menambah kerja sama dengan kanal distribusi baru untuk memperluas distribusi produk reksa dana Perseroan. Selain itu, dalam bisnis Agen Penjual Efek Reksa Dana (APERD) Perseroan akan terus melakukan dan meningkatkan edukasi literasi keuangan, menambah kerja sama dengan Manajer Investasi, serta terus mengembangkan dan menyempurnakan *platform digital* Perseroan agar dapat selalu mengakomodasi kebutuhan nasabah.

To take the opportunities, the Company's subsidiary will broaden the cooperation with new distribution channels to expand distribution of the Company's mutual fund products. In addition, in APERD (Mutual Funds Selling Agent) business, the Company will continue to conduct and improve financial literacy education, intensify cooperation with Investment Managers, and continuously develop and improve the Company's digital platform thereby will always accommodate the clients' needs.

RAPAT UMUM PEMEGANG SAHAM

General Meeting of Shareholders

Rapat Umum Pemegang Saham (RUPS) adalah organ yang memiliki otoritas tertinggi dalam sistem tata kelola Perseroan yang memiliki wewenang yang tidak dimiliki oleh Dewan Komisaris dan Direksi, antara lain untuk menyetujui perubahan Anggaran Dasar, mengangkat dan memberhentikan anggota Dewan Komisaris dan Direksi, menyetujui laporan tahunan Perseroan, penunjukan auditor eksternal, menentukan penggunaan laba bersih Perseroan, serta merupakan forum Dewan Komisaris dan Direksi untuk melaporkan tanggung jawabnya terhadap pelaksanaan tugas dan kinerja kepada pemegang saham.

Dasar hukum dan mekanisme penyelenggaraan RUPS Perseroan mengacu pada (i) Undang-undang No. 40 Tahun 2007 tentang Perseroan Terbatas (UUPT); (ii) POJK No. 15/POJK.04/2020 tanggal 21 April 2020 tentang Rencana dan Penyelenggaraan Rapat Umum Pemegang Saham Perusahaan Terbuka, dan POJK No. 16/POJK.04/2020 tanggal 21 April 2020 tentang Pelaksanaan Rapat Umum Pemegang Saham Perusahaan Terbuka Secara Elektronik; dan (iii) Anggaran Dasar Perseroan.

Mempertimbangkan Status Keadaan Tertentu Darurat Bencana Wabah Penyakit Akibat Virus Corona yang ditetapkan Pemerintah, Perseroan telah mengambil langkah-langkah berikut ini untuk memungkinkan partisipasi pemegang saham publik yang lebih banyak dalam RUPS:

1. Mengumumkan kepada publik mengenai RUPS tersebut di surat kabar Berbahasa Indonesia yang memiliki peredaran nasional, situs web PT Bursa Efek Indonesia (BEI), dan situs web Perseroan;
2. Menyediakan alternatif pemberian kuasa secara elektronik bagi pemegang saham untuk hadir dan memberikan suara dalam RUPS melalui *system* eASY.KSEI;
3. Menyediakan format surat kuasa jika pemegang saham yang bersangkutan tidak dapat hadir secara langsung;
4. Anggota Direksi, Dewan Komisaris, kepala-kepala divisi terkait serta auditor eksternal Perseroan hadir di RUPS untuk menjawab pertanyaan yang mungkin diajukan oleh pemegang saham.

General Meeting of Shareholders (GMS) is an organ with the highest authority in the Company's corporate governance that has authority which is not owned by the Board of Commissioners and Board of Directors, such as approving the amendment of the Articles of Association, appointing and dismissing members of the Board of Commissioners and Board of Directors, approving the Company's annual report, appointing external auditor, as well as a forum for the Board of Commissioners and the Board of Directors to report on their responsibilities with regards to the implementation of their duties and performance to the shareholders.

The legal basis and mechanism for the implementation of the Company's GMS refers to (i) Law No. 40 of 2007 on Limited Liability Company (Company Law); (ii) OJK Regulation No. 15/POJK.04/2020 dated April 21, 2020 on Plan and Implementation of General Meeting of Shareholders of Public Company, and OJK Regulation No. 16/POJK.04/2020 dated April 21, 2020 on Implementation of GMS of Publicly Listed Companies by Electronic Means; and (iii) the Company's Articles of Association.

Considering the Emergency Status of Disease Outbreaks Due to Corona Virus stated by the Government, the Company has taken the following measures to allow more public shareholders participation in the GMS:

1. Announced to the public about the GMS in Indonesian language newspaper with national circulation, the Indonesia Stock Exchagen (IDX) website, and the Company's website;
2. Provided electronic power of attorney alternatives for shareholders to attend and vote in GMS through the eASY.KSEI system;
3. Provided power of attorney forms for the shareholder who cannot in person attend the meeting;
4. Members of the BoC, BoD, related division heads as well as the external auditors of the Company were present at the GMS to address questions that may be raised by the shareholders.

Pada tahun 2020, Perseroan mengadakan Rapat Umum Pemegang Saham sebagai berikut:

6. The Board of Commissioners shall make an evaluation of performance of the committees assisting its duties and responsibilities as referred to in point 5 at the end of each financial year.

7. Setiap anggota Dewan Komisaris bertanggung jawab penuh secara tanggung renteng atas kerugian Perseroan yang disebabkan oleh kesalahan atau kelalaian anggota Dewan Komisaris dalam menjalankan tugasnya.
8. Anggota Dewan Komisaris tidak dapat dimintakan pertanggungjawaban atas kerugian Perseroan sebagaimana dimaksud pada butir 7 apabila dapat membuktikan:
   a. kerugian tersebut bukan karena kesalahan atau kelalaiannya;
   b. telah melakukan pengurusan dengan itikad baik, penuh tanggung jawab, dan kehati-hatian untuk kepentingan dan sesuai dengan maksud dan tujuan Perseroan;
   c. tidak mempunyai benturan kepentingan baik langsung maupun tidak langsung atas tindakan pengurusan yang mengakibatkan kerugian; dan
   d. telah mengambil tindakan untuk mencegah timbul atau berlanjutnya kerugian tersebut.
9. Dewan Komisaris setiap waktu dalam jam kerja kantor Perseroan berhak memasuki bangunan dan halaman atau tempat lain yang dipergunakan atau yang dikuasai oleh Perseroan, dan berhak untuk memeriksa semua pembukuan, surat dan alat bukti lainnya, memeriksa dan mencocokkan keadaan uang kas dan lain-lain, serta berhak untuk mengetahui segala tindakan yang telah dijalankan oleh Direksi.
10. Dewan Komisaris berhak untuk meminta penjelasan kepada Direksi tentang segala hal yang ditanyakan, dan setiap anggota Direksi wajib untuk memberikan penjelasan tentang segala hal yang ditanyakan oleh Dewan Komisaris.
11. Apabila seluruh anggota Direksi diberhentikan sementara atau apabila karena sebab apa pun Perseroan tidak mempunyai seorangpun anggota Direksi, maka untuk sementara Dewan Komisaris diwajibkan untuk mengurus Perseroan. Dalam hal demikian, Dewan Komisaris berhak untuk memberikan kekuasaan sementara kepada seorang atau lebih di antara anggota Dewan Komisaris atas tanggungan Dewan Komisaris.

7. Each member of the Board of Commissioners shall fully be jointly liable for the Company's losses caused by the fault or negligence of the member of the Board of Commissioners in performing his/her duties.
8. The member of the Board of Commissioners may not be held responsible for the Company's losses as referred to in point 7 if he/she can prove that:
   a. the losses are not due to his/her fault or negligence;
   b. he/she has conducted management in good faith, full responsibility, prudence for the benefit of and in accordance with the aims and objectives of the Company;
   c. he/she has no conflict of interest directly or indirectly over the managerial actions causing the losses; and
   d. he/she has taken action to prevent the losses arising or continuing.
9. The Board of Commissioners shall at any time during the office hours of the Company be entitled to enter buildings and premises or other places used or controlled by the Company, and shall be entitled to examine all records, letters and other evidences, to audit and verify cash flow and others, and shall be entitled to have all information on every action that has been carried out by the Board of Directors.
10. The Board of Commissioners shall be entitled to ask the Board of Directors for an explanation on any matters asked, and each member of the Board of Directors shall be obligated to give explanations regarding any matters asked by the Board of Commissioners.
11. In the event that all the members of the Board of Directors are suspended or for any reasons the Company has no member of the Board of Directors, then the Board of Commissioners shall be temporarily obligated to manage the Company. In such an event, the Board of Commissioners shall be entitled to confer temporary powers upon one or more persons among the members of the Board of Commissioners on the responsibility of the Board of Commissioners.

12. Dalam hal hanya ada seorang anggota Dewan Komisaris, segala tugas dan wewenang yang diberikan kepada Komisaris Utama atau anggota Dewan Komisaris dalam Anggaran Dasar berlaku pula baginya.

13. Pada setiap waktu, Dewan Komisaris, berdasarkan suatu keputusan Rapat Dewan Komisaris, dapat memberhentikan untuk sementara waktu seorang atau lebih anggota Direksi dari jabatannya (jabatan mereka) dengan menyebutkan alasannya, dengan memperhatikan ketentuan dalam Anggaran Dasar dan/atau peraturan perundang-undangan yang berlaku.

PENILAIAN KINERJA DEWAN KOMISARIS

Penilaian kinerja Dewan Komisaris secara individu dilakukan setiap tahun oleh Komisaris Utama berdasarkan tolak ukur yang telah disepakati oleh masing-masing anggota Dewan Komisaris. Hasil penilaian kinerja anggota Dewan Komisaris merupakan salah satu dasar pertimbangan bagi Komite Nominasi dan Remunerasi dalam memberikan rekomendasi kepada Dewan Komisaris untuk mengangkat kembali anggota Dewan Komisaris serta sebagai bahan pertimbangan untuk menyusun struktur remunerasi Dewan Komisaris.

Penilaian Kinerja Dewan Komisaris secara kolegial dilakukan secara *self-assessment* oleh masing-masing anggota Dewan Komisaris setiap tahun. Dewan Komisaris melakukan *review* atas hasil penilaian sendiri yang telah dikonsolidasi untuk menetapkan efektivitas dan area yang perlu dilakukan perbaikan.

KEBIJAKAN DAN PROSEDUR REMUNERASI DEWAN KOMISARIS

Penetapan remunerasi anggota Dewan Komisaris didasarkan pada kinerja masing-masing anggota dengan mempertimbangkan tugas dan tanggung jawab Dewan Komisaris. Formulasi remunerasi mengacu kepada kebijakan internal perusahaan, *industry comparison* serta kinerja Perseroan. Komite Nominasi dan Remunerasi memberikan rekomendasi kepada Dewan Komisaris, dan kemudian Rapat Umum Pemegang Saham memberikan persetujuan untuk memberikan wewenang kepada Rapat Dewan Komisaris untuk menetapkan jumlah honorarium Dewan Komisaris.

THE BOARD OF COMMISSIONERS PERFORMANCE ASSESSMENT

Performance evaluation of the Board of Commissioners is individually performed annually by the President Commissioner based on benchmarks agreed by each member of the Board of Commissioners. Result of the performance assessment of members of the Board of Commissioners is one of considerations for the Nomination and Remuneration Committee in giving recommendation to the Board of Commissioners to reappoint a member of the Board of Commissioners and consideration to draw up remuneration structure for the Board of Commissioners.

Performance evaluation of Board of Commissioners collegially is performed in self-assessment by each member of the Board of Commissioners every year. The Board of Commissioners conducts review on the result of self-assessment that has been consolidated to determine the effectiveness and area of improvement.

POLICY AND PROCEDURE OF REMUNERATION OF THE BOARD OF COMMISSIONERS

The determination of the remuneration of the Board of Commissioners is based on each member's performance by considering duties and responsibilities of the Board of Commissioners. Remuneration formulation refers to the internal policies of the Company, industry comparison as well as the Company's performance. Nomination and Remuneration Committee provides recommendations to the Board of Commissioners, and then General Meeting of Shareholders approved to authorize the Board of Commissioners Meeting to determine the amount of salaries of the Board of Commissioners.

STRUKTUR REMUNERASI DEWAN KOMISARIS

Setiap anggota Dewan Komisaris menerima paket remunerasi yang dibayarkan secara berkala, terdiri dari gaji, dan tunjangan hari raya.

Jenis remunerasi dan fasilitas lain yang diterima anggota Dewan Komisaris dalam 1 (satu) tahun, sebagai berikut:

1. Gaji dan fasilitas
2. Tantiem
3. Tunjangan lain

Dalam RUPS Tahunan pada tanggal 26 Agustus 2020, pemegang saham menyetujui penetapan jumlah gaji dan tunjangan lain bagi anggota Dewan Komisaris Perseroan untuk tahun 2020 dengan jumlah total sebanyak-banyaknya Rp5.000.000.000,00 (lima miliar Rupiah) dan memberikan wewenang kepada Dewan Komisaris untuk pengalokasian besar gaji dan tunjangan lainnya bagi masing-masing anggota Dewan Komisaris.

KEPEMILIKAN SAHAM DEWAN KOMISARIS

Sesuai dengan Peraturan OJK No. 11/POJK.04/2017 tentang Laporan Kepemilikan atau Setiap Perubahan Kepemilikan Saham Perusahaan Terbuka, kepemilikan saham Dewan Komisaris Perseroan dilaporkan setiap bulan melalui Laporan Bulanan Registrasi Pemegang Efek Perseroan.

Dalam tahun 2020 tidak terdapat kepemilikan saham Perseroan oleh Dewan Komisaris di Perseroan.

STRUCTURE OF REMUNERATION OF THE BOARD OF COMMISSIONERS

Each member of the Board of Commissioners receives remuneration package regularly, consisting of salary, and religious holiday allowance.

Type of remuneration and other facilities received by Board of Commissioners member in 1 (one) year, as following:

1. Salary and facilities
2. Bonus
3. Other Allowances

In Annual GMS on August 26, 2020, shareholders approved to determine the amount of salaries and other allowances for the members of the Board of Commissioners of the Company for year 2020 with the total amount maximum of Rp5,000,000,000 (five billion Rupiah) and to give authority to the Board of Commissioners for the allocation of salaries and other allowances for each member of the Board of Commissioners.

BOARD OF COMMISSIONERS SHAREHOLDING

According to OJK Regulation No. 11/POJK.04/2017 concerning Report on Shareholding or Every Shareholding Changes of Public Companies, share ownership of the Board of Commissioners has been reported monthly through the Monthly Report of the Company's Shareholder Registration.

In 2020, there is no ownership of shares of the Company by the Board of Commissioners in the Company.

LAPORAN PELAKSANAAN KEGIATAN DIVISI AUDIT INTERNAL

Penerapan Pembatasan Sosial Berskala Besar (PSBB) dan kebijakan *Work from Home* yang ditempuh sebagai langkah-langkah untuk mengurangi penyebaran COVID-19 berdampak signifikan pada aktivitas Internal Audit Perseroan selama tahun 2020. Kondisi tersebut membawa tantangan tersendiri di mana Divisi Internal Audit harus melakukan penyesuaian cara kerja, misalnya dengan mengubah kegiatan *onsite audit* menjadi *remote audit*, terutama untuk Kantor Cabang Perseroan yang lokasinya tersebar di 12 kota di Indonesia.

Sebagai salah satu pilar praktik Tata Kelola Perusahaan, Fungsi Internal Audit tetap berupaya menjalankan fungsinya terkait pengawasan proses bisnis dan pengendalian internal di seluruh unit kerja. Didukung oleh sistem teknologi informasi, dan kerja sama yang baik antara audit dengan Fungsi Internal Audit dalam merespon kegiatan pemeriksaan yang dilakukan oleh Internal Audit, Divisi Internal Audit telah merealisasikan 9 kegiatan audit atau mencapai 70% pada tahun 2020. Tingkat penyelesaian hasil temuan internal audit pada tahun 2020 mencapai 85% dimana 15% sisanya masih dalam proses penyelesaian (*ongoing process*).

REPORT ON THE IMPLEMENTATION OF INTERNAL AUDIT DIVISION'S ACTIVITIES

The implementation of Large-Scale Social Restrictions (PSBB) and Work from Home Policy, which were taken as steps to reduce the spread of the COVID-19had a significant impact on the Company's Internal Audit activities during 2020. This condition brings its own challenges in which the Internal Audit Division must make adjustments in its ways of working, for example by changing an onsite audit activities to remote audits, especially for the Company's Branch Offices which are located in 12 cities in Indonesia.

As one of Corporate Governance practice pillars, the Internal Audit Function continues to carry out its functions related to business process supervision and internal control in all work units. Supported by an information technology system, and good cooperation between auditees and Internal Audit Function in responding to audit activities carried out by Internal Audit, the Internal Audit Division has completed 9 audit activities or up to 70% realization in 2020. The level of completion of internal audit findings in 2020 reached 85%, where the remaining 15% is still in an ongoing process.

FUNGSI INTERNAL AUDIT

Internal Audit Function

Seiring dengan perkembangan bisnis online Perseroan, Internal Audit juga turut melaksanakan kegiatan pemeriksaan transaksi *online*. Internal Audit juga terus melakukan pendampingan berupa kegiatan *assurance* dan *advisory* kepada unit kerja untuk meningkatkan efektivitas proses bisnis dan pengendalian internal. Selain itu, pada Semester II tahun 2020, Fungsi Internal Audit juga melakukan pemeriksaan terhadap *virtual branch* dimana Fungsi Internal Audit memberikan banyak masukan terkait aktivitas pengendalian internal.

Menghadapi kondisi yang masih tidak menentu di tahun 2021, Fungsi Internal Audit berkomitmen untuk terus mendukung penguatan Tata Kelola Perusahaan yang Baik di Perseroan melalui kegiatan audit dan pengendalian internal sesuai landasan peraturan perundang-undangan yang berlaku. Fungsi Internal Audit juga telah menyusun rencana kerja tahun mendatang antara lain pemeriksanaan pada pelaksanaan Program APU/PPT khususnya KYC dan monitoring transaksi sebagai respon atas peningkatan nasabah ritel, dan akan terus melakukan pengawasan terhadap aktivitas *online* nasabah.

Along with the development of the Company's online business, Internal Audit also carried out online transaction inspection activities. Internal Audit also continued to provide assistance in the form of assurance and advisory activities to working units to improve the effectiveness of business processes and internal control. In addition, in Semester II 2020, the Internal Audit Function also conducted an examination of virtual branches where the Internal Audit Function provided many inputs related to internal control activities.

Facing conditions that are still uncertain in 2021, the Internal Audit Function is committed to continuing to support the strengthening of Good Corporate Governance in the Company through audit and internal control activities in accordance with the applicable laws and regulations. The Internal Audit function has also compiled a working plan for the coming year, including examining the implementation of the AML/CFT Program, especially KYC and monitoring transactions in response to the increase in retail clients, and will continue to supervise clients' online activities of.

MANAJEMEN RISIKO

Risk Management

SISTEM MANAJEMEN RISIKO DI PERSEROAN

Sejak tahun 2015, sebagai bagian dari implementasi *Enterprise Risk Management* (ERM), Perseroan telah membuat *Framework* Manajemen Risiko Terintegrasi sebagai dasar pelaksanaan manajemen risiko terintegrasi dalam mengawasi dan mengendalikan eksposur Perseroan terhadap risiko. Hal ini sesuai dengan Peraturan Otoritas Jasa Keuangan (OJK) No. 17/POJK.33/2014 (POJK 17) tentang Penerapan Manajemen Risiko Terintegrasi bagi Konglomerasi Keuangan, dan Surat Edaran Otoritas Jasa Keuangan No. 14/SEOJK.03/2015 (SEOJK 14) tentang Manajemen Risiko Terintegrasi.

Framework Manajemen Risiko Terintegrasi disusun untuk menciptakan kegiatan usaha yang berkelanjutan dan stabil, meningkatkan daya saing Perusahaan dalam industri, melindungi nasabah dari eksposur risiko yang muncul akibat kegiatan usaha ataupun kebijakan yang diambil oleh Perusahaan, serta menyediakan layanan keuangan yang berkualitas tinggi secara cepat dan mudah tanpa mengorbankan pengawasan risiko yang menyeluruh, baik secara internal ataupun eksternal.

Dalam Manajemen Risiko Terintegrasi di Perseroan, terdapat prinsip dasar yang mengacu kepada prinsip Tata Kelola Terintegrasi, yaitu:

- Keterbukaan
  Informasi relevan yang perlu diketahui dan digunakan harus dapat diakses oleh pihak yang berkepentingan untuk menentukan keputusan.
- Akuntabilitas
  Kejelasan fungsi dan pelaksanaan pertanggungjawaban organ dalam perusahaan sehingga pelaksanaannya berjalan secara efektif.
- Pertanggungjawaban
  Setiap kebijakan yang diambil, dikelola, dan direncanakan dilakukan dengan tanggung jawab terhadap peraturan perundang-undangan yang berlaku, dan prinsip-prinsip pengelolaan yang sehat.
- Independensi
  Pengelolaan perusahaan harus berdasarkan pada penilaian independen dan profesional tanpa pengaruh atau kendali pihak lain.

RISK MANAGEMENT SYSTEM OF THE COMPANY

Since 2015, as part of the implementation of Enterprise Risk Management (ERM), the Company has made Integrated Risk Management Framework as the basis of implementation of integrated risk management in supervising and controlling the Company's exposure to risk. It is in accordance with the Financial Services Authority (OJK) Regulation No. 17/POJK.33/2014 (POJK 17) on the Implementation of Integrated Risk Management for Financial Conglomerates, and the Circular Letter of the Financial Services Authority No. 14/SEOJK.03/2015 (SEOJK 14) on Integrated Risk Management.

Integrated Risk Management Framework is composed to create sustainable and stable business activities, increase the Company's competitiveness in the industry, protect clients from risk exposure resulting from business activities or policies taken by the Company, and provide high quality financial services in a fast and easy way without forfeiting supervision of the comprehensive risk, both internally or externally.

In the Integrated Risk Management in the Company, there are basic principles referring to the principles of Integrated Governance, which are:

- Transparency
  Relevant information that is needed to know and used must be accessible by the interested parties to determine any decision.
- Accountability
  Clarity on the function and implementation of the accountability of unit in the Company so that the implementation runs effectively.
- Responsibility
  Each policy that is taken, managed, and planned should be done with responsibility to the prevailing regulations, and healthy management principles
- Independence
  Company's management should be based on an independent and professional assessment without influence or control from other parties.

- Kewajaran
  Keadilan dan kesetaraan dalam memenuhi hak-hak pemangku kepentingan yang timbul berdasarkan perjanjian dan perundang-undangan.

Ruang lingkup Manajemen Risiko Terintegrasi Perseroan dalam Konglomerasi Keuangan mencakup PT Trimegah Sekuritas Indonesia Tbk sebagai Entitas Utama, PT Trimegah Asset Manajemen sebagai Anak Perusahaan, dan seluruh divisi di dalamnya terkecuali disebutkan dengan jelas dalam kebijakan atau surat keputusan, meliputi:

- Pengawasan Direksi dan Dewan Komisaris Perseroan.
  Dewan Komisaris bertanggung jawab untuk mengarahkan, menyetujui, dan mengevaluasi kebijakan Manajemen Risiko Terintegrasi. Dewan Komisaris berwenang mengevaluasi pelaksanaan kebijakan Manajemen Risiko Terintegrasi paling sedikit 1 (satu) kali dalam 1 (satu) tahun atau sewaktu-waktu dalam hal terdapat perubahan faktor-faktor yang mempengaruhi kegiatan usaha secara signifikan. Dalam melaksanakan sistem Manajemen Risiko Terintegrasi di Perseroan, Dewan Komisaris telah membentuk Komite Manajemen Risiko Terintegrasi (KMRT).

  Direksi bersama dengan KMRT bertanggung jawab untuk menyusun dan melaksanakan kebijakan Manajemen Risiko Terintegrasi, serta memastikan bahwa penerapan Manajemen Risiko Terintegrasi telah dilakukan secara independen.

- Kebijakan, prosedur, dan penetapan limit Manajemen Risiko Terintegrasi.
  Perseroan telah mengacu kepada visi, misi, dan strategi bisnis dalam menetapkan kebijakan fungsi Manajemen Risiko Terintegrasi. Kebijakan Fungsi Manajemen Risiko ini telah disesuaikan dengan kegiatan usaha Perseroan beserta risiko yang melekat. Dalam prosedurnya, fungsi Manajemen Risiko Terintergrasi akan dilaksanakan oleh Satuan Kerja Manajemen Risiko Terintegrasi (SKMRT) dan dipertanggungjawabkan kepada KMRT.

- Proses identifikasi, pengukuran, pemantauan, pengendalian risiko secara terintegrasi, dan sistem informasi Manajemen Risiko Terintegrasi.

- Fairness
  Justice and equality in fulfilling the rights of stakeholders is based on an agreement and regulations.

The scope of Integrated Risk Management in the Company on Financial Conglomerates includes PT Trimegah Sekuritas Indonesia Tbk as the Holding Company, PT Trimegah Asset Management as the Subsidiary, and the entire division within except clearly stated in policy or decree, includes:

- Supervision of the Board of Directors and the Board of Commissioners.
  The Board of Commissioners is responsible to direct, approve, and evaluate the Integrated Risk Management policy. The Board of Commissioners has the right to evaluate the implementation of the Integrated Risk Management policy at least once a year or at any time if there are changes in factors that affect business activities significantly. In implementing Integrated Risk Management system in the Company, the Board of Commissioners has formed Integrated Risk Management Committee (IRMC).

  The Board of Directors with IRMC are responsible to develop and implement Integrated Risk Management policies, and to ensure that the implementation of Integrated Risk Management has performed independently.

- Policy, procedure and limit determination of Integrated Risk Management.
  The Company has referred to vision, mission, and business strategies in determining Integrated Risk Management function policy. Integrated Risk Management Policy has been adjusted to business activities along with risks inherent. In the procedure, the Integrated Risk Management function will be implemented by the Integrated Risk Management Work Unit (IRMWU) and accounted to IRMC.

- Process of identification, measurement, monitoring, integrated risk control and Integrated Risk Management information system.

Dalam melakukan evaluasi dan identifikasi risiko, SKMRT menggunakan formulir *Inherent Risk Level,* Kualitas Penerapan Manajemen Risiko Terintegrasi, dan Tingkat Risiko berdasarkan SEOJK 14 yang dilakukan baik secara kuantitatif dan kualitatif dengan penilaian dan evaluasi risiko oleh SKMRT.

- Sistem pengendalian internal yang menyeluruh terhadap penerapan Manajemen Risiko Terintegrasi.

  Dalam pelaksanaan Manajemen Risiko Terintegrasi, Perseroan telah melakukan kontrol melalui pembagian tanggung jawab dan wewenang yang melibatkan Dewan Komisaris, Direksi, KMRT, SKMRT, dan setiap unit kerja.

JENIS RISIKO

Dalam *Framework* Manajemen Risiko Terintegrasi, terdapat 9 jenis risiko yang diawasi, sebagai berikut:

- Risiko Kredit
  Risiko dimana debitur atau peminjam dana tidak dapat membayar utang dan memenuhi kewajiban seperti yang tertuang dalam kesepakatan.

EVALUASI EFEKTIVITAS MANAJEMEN RISIKO

Tahun 2020 merupakan tahun yang penuh tantangan bagi pengelolaan risiko Perseroan, khususnya risiko kredit dan risiko reputasi. Terkait risiko kredit, kondisi pasar modal yang terpukul akibat pandemi COVID-19 menyebabkan peningkatan rasio *margin call* nasabah. Hal ini memaksa Perseroan melakukan *forced sell* untuk menutup *outstanding liability* nasabah dan menjaga tingkat risiko pada *level* yang *acceptable*.

Selain itu, kondisi perekonomian yang terpukul akibat pandemi COVID-19 menyebabkan perbankan semakin selektif dan berhati-hati dalam menyalurkan kredit karena risiko yang semakin tinggi. Sehubungan dengan itu, Divisi Risk Management bekerja sama dengan Divisi Finance melakukan serangkaian *stress test* untuk memantau risiko likuiditas Perseroan. Pada tahun 2020, Divisi Risk Management juga terus mengembangkan otomasi proses monitoring risiko terutama risiko kredit.

Sebagai kelanjutan dari inisiatif pengembangan *Risk Management Dashboard* yang dimulai sejak tahun sebelumnya, Divisi Risk Management juga mengembangkan *dashboard* dengan *platform* Google Sites untuk memperkaya informasi yang ditampilkan dan memungkinkan *dashboard* ini diakses oleh pengguna, kapan pun dan dimana pun.

Di tahun 2021 Divisi Risk Management akan terus fokus pada risiko kredit melalui pengembangan sistem monitoring dan mengevaluasi parameter yang ada saat ini. Selain itu, Divisi Risk Management juga berencana mengembangkan *risk-based pricing* bagi nasabah-nasabah marjin dengan mengoptimalkan kerja sama dengan berbagai pihak, khususnya PT PEFINDO Biro Kredit dalam menganalisis profil nasabah. Dengan menggabungkan profil kredit nasabah dari PT PEFINDO Biro Kredit dengan *historical data* transaksi nasabah, Perseroan dapat menentukan tingkat suku bunga nasabah sesuai dengan profil risikonya masing-masing.

EVALUATION ON THE EFFECTIVENESS OF RISK MANAGEMENT

Year 2020 was a challenging year for the Company's risk management, especially in credit risk and reputation risk. Related to the credit risk, the capital market condition which was hit by the COVID-19 pandemic resulted to an increase in client's margin call ratio. This condition forced the Company to do forced sell to cover client's outstanding liabilities and maintain risk levels at an acceptable level.

In addition, economic conditions that were hit by the COVID-19 pandemic also forced banks to be more selective and prudent in disbursing loans due to higher risks. In this case, in collaboration with Finance Division, the Risk Management Division conducted a series of stress tests to monitor the Company's liquidity risk. In 2020, the Risk Management Division also continued the development of risk monitoring process automation, mainly the credit risk.

As a continuation of the Risk Management Dashboard development initiative that was initiated in previous year, the Risk Management Division has also developed a dashboard using Google Sites platform to enrich the displayed information and enable the dashboard to be accessed by the users, anytime and anywhere.

In 2021, the Risk Management Division will continue to focus on credit risk by developing a monitoring system and evaluating existing parameters. In addition, the Risk Management Division also plans to develop risk-based pricing for margin clients by optimizing cooperation with various companies, particularly PT PEFINDO Biro Credit (PEFINDO Credit Bureau) in analyzing client's profiles. By combining the client's credit profile issued by PEFINDO Credit Bureau with historical client transaction data, the Company will be able to set interest rates for the customers based on their risk profiles, respectively.

DIVISI COMPLIANCE

Compliance Division

Pembenahan pasar modal yang dilakukan oleh regulator sepanjang tahun 2019 juga berlanjut di tahun 2020 melalui penambahan dan pembaharuan peraturan atau kebijakan. Dampak pandemi COVID-19 yang memukul pasar modal juga memaksa regulator untuk menerapkan beberapa kebijakan antara lain perubahan batasan *trading halt*, perubahan waktu trading Bursa Efek Indonesia, dan penerapan *Asymmetric Auto Rejection* untuk melindungi pelaku pasar modal, baik sisi investor maupun emiten.

Menyikapi hal tersebut, Divisi Compliance terus meningkatkan pengawasan untuk memastikan kepatuhan Perseroan. Salah satu peraturan di tahun 2020 yang cukup signifikan adalah Surat Edaran Otoritas Jasa Keuangan No. S-139/D.04/2020 Perihal Perilaku Manajer Investasi dalam Melakukan Transaksi Efek, dan Surat Edaran Otoritas Jasa Keuangan No. S-157/D.04/2020 Perihal Penjelasan Teknis S-139/D.04/2020 Perilaku Manajer Investasi dalam Melakukan Transaksi Efek. Sehubungan dengan potensi dampak Surat Edaran tersebut, Perseroan melakukan diskusi yang intensif dengan regulator dan memberikan sosialisasi kepada Divisi Equity Trading Institutional.

Capital market reforms conducted by the regulators during 2019 were continued in 2020 through regulations or policies addition and update. Impact of COVID-19 pandemic that hit the capital market also forced the regulators to implement some policies, including changing the trading halt limit, changing trading time in Indonesia Stock Exchange as well as implementation of Asymmetric Auto Rejection to protect the capital market players, both investors and issuers.

Responding to this condition, the Compliance Division strived to intensify the supervision to ensure the Company's compliance. One of significant regulations in 2020 includes OJK (Financial Services Authority) Circular Letter No. S-139/D.04/2020 concerning Behavior of Investment Managers in Conducting Securities Transactions, and OJK Circular Letter No. S-157/D.04/2020 concerning Technical Explanation S-139/D.04/2020 Behavior of Investment Managers in Conducting Securities Transactions. Concerning the potential impact of this Circular Letter, the Company held intensive discussions with regulators and provided socialization to Institutional Equity Trading Division.

Selama tahun 2020, Divisi Compliance juga berhasil memastikan bahwa Perseroan telah memenuhi seluruh kewajiban pelaporan secara baik tanpa keterlambatan meskipun melalui pola kerja *Work from Home* (WFH) dengan memanfaatkan fasilitas *remote access* dan Google Drive.

Pada akhir 2020, dengan telah terbitnya Undang-undang No. 10 Tahun 2020 tentang Bea Materai yang diperkirakan akan cukup berpengaruh pada transaksi, Divisi Compliance akan terus mempelajari peraturan tersebut dan peraturan turunannya secara cermat agar penerapannya nanti dapat berjalan dengan baik.

Memasuki tahun 2021, Divisi Compliance memperkirakan regulator akan terus melakukan pembenahan melalui penerbitan peraturan-peraturan yang semakin konservatif untuk memastikan pasar modal yang semakin sehat dan teratur.

In 2020, Compliance Division also successfully ensured that the Company had complied with all reporting obligations properly without any delay despite implementation of Work from Home (WFH) work scheme via remote access and Google Drive facilities.

At the end of 2020, following issuance of Law No. 10 of 2020 on Stamp Duty which is expected to make some impact on transactions, Compliance Division will strive to continuously review these regulations and its derivative regulations carefully to ensure smooth implementation.

Entering 2021, Compliance Division predicts that the regulator will continue to make improvements through issuance of more conservative regulations to assure a healthier and well-organized capital market.

SISTEM PENGENDALIAN INTERNAL

Internal Control System

Perseroan telah memiliki Kebijakan Sistem Pengendalian Internal yang merupakan suatu mekanisme pengawasan yang ditetapkan oleh Manajemen secara berkesinambungan. Sistem Pengendalian Internal meliputi 5 komponen utama, yaitu:

1. Pengawasan manajemen dan lingkungan yang mendukung pengendalian *(Control Environment);*
2. Proses identifikasi, pengukuran dan pengelolaan risiko *(Risk Assessment);*
3. Aktivitas kontrol dan pemisahan tugas serta tanggung jawab *(Control Activities);*
4. Keandalan sistem informasi dan komunikasi yang efektif *(Information and Communication);*
5. Pemantauan dan perbaikan terhadap kelemahan *(Monitoring).*

Pelaksanaan Pengendalian Internal melibatkan Dewan Komisaris, Direksi, Komite Audit, Divisi Audit Internal, Divisi Risk Management, Divisi Compliance, Divisi Operations, kepala divisi unit bisnis, serta seluruh pegawai Perseroan, baik Kantor Pusat maupun di kantor-kantor cabang.

Pengendalian Internal dilakukan antara lain terhadap:
Pengendalian Operasional, seperti:

a. Proses operasional sehari-hari telah didukung dengan kebijakan, prosedur, ketentuan limit transaksi, wewenang persetujuan, otorisasi, verifikasi, rekonsiliasi, *four-eye principle*, serta pemisahan tugas dan tanggung jawab;
b. *Risk and Control Self-Assessment* (RCSA) juga telah diterapkan oleh Perseroan sebagai perangkat risiko operasional untuk mengidentifikasi lebih dini kelemahan dalam pelaksanaan proses operasional pada suatu unit kerja. Rencana perbaikan juga dibuat agar potensi kerugian dapat dihindarkan. RCSA ini telah diimplementasikan di kantor cabang dan unit–unit kerja, dan hasilnya dilaporkan kepada Divisi Manajemen Risiko secara regular;

The Company has an Internal Control System Policy which is a monitoring mechanism established by Management on a sustainable manner. The Internal Control System includes 5 main components, namely:

1. Management and environmental monitoring that supports control (Control Environment);
2. Process of identifying, measuring and managing risk (Risk Assessment);
3. Control activities and segregation of duties and responsibilities (Control Activities);
4. Reliability of effective information and communication systems (Information and Communication);
5. Monitoring and repairing weaknesses (Monitoring).

The implementation of Internal Control involves the Board of Commissioners, Board of Directors, Audit Committee, Internal Audit Division, Risk Management Division, Compliance Division, Operations Division, heads of business unit divisions, as well as all employees of the Company, both the Head Office and branch offices.

Internal control is conducted among others towards:
Operational Control, such as:

a. Daily operational processes have been supported by policies, procedures, transaction limit provisions, approval authority, authorization, verification, reconciliation, four-eye principle, and separation of duties and responsibilities;
b. The Risk and Control Self-Assessment (RCSA) has also been implemented by the Company as an operational risk tool to early identify weaknesses in the implementation of operational processes in a work unit. Improvement plans are also made so that potential losses can be avoided. This RCSA has been implemented in branch offices and work units, and the results are reported to the Risk Management Division regularly;

c. Perseroan juga menerapkan *Key Risk Indicator* (KRI) sebagai pendekatan identifikasi kelemahan berdasarkan analisis kuantitatif atas indikator/parameter yang mempengaruhi eksposur risiko Perseroan. Hasil pencatatan KRI dilaporkan kepada Divisi Manajemen Risiko secara regular;

d. Pengkajian dan pengkinian terhadap kebijakan dan prosedur secara rutin untuk memastikan kecukupan aktivitas pengendalian telah sesuai dengan kondisi lingkungan internal dan eksternal yang dihadapi Perseroan;

e. Untuk memastikan bahwa kegiatan operasional dan bisnis Perseroan dapat tetap berjalan dalam kondisi krisis akibat faktor internal maupun eksternal, Perseroan telah menyiapkan Prosedur Aktivasi *Business Continuity Plan* (BCP) yang secara rutin diperbaharui dan diujicoba secara konsisten;

f. Laporan rutin per semester diberikan kepada Direksi dan Dewan Komisaris terhadap kinerja Perseroan, permasalahan, dan risiko yang dihadapi Perseroan, beserta penanganannya.

Pengendalian Kepatuhan terhadap Ketentuan Peraturan dan Perundangan-Undangan, seperti:

a. Komitmen Manajemen dan karyawan Perseroan untuk mentaati ketentuan yang diterbitkan oleh Regulator dalam menjalankan kegiatan bisnis dan operasional Perseroan, sebagaimana tertuang dalam Pedoman dan Tata Tertib Kerja Direksi maupun Kode Etik Perusahaan;

b. Perseroan memiliki Divisi Compliance yang tidak terlibat dengan kegiatan bisnis ataupun operasional Perseroan. Divisi ini mendukung kepatuhan Perseroan terhadap ketentuan yang berlaku;

c. The Company also applies the Key Risk Indicator (KRI) as an approach to identify weaknesses based on quantitative analysis of indicators/parameters that affect the Company's risk exposure. KRI recording results are reported to the Risk Management Division regularly;

d. Regular review and updating of policies and procedures to ensure that the adequacy of control activities is in accordance with the internal and external environmental conditions faced by the Company;

e. To ensure that the Company's operational and business activities can continue to run in a crisis condition due to internal and external factors, the Company has prepared a Business Continuity Plan (BCP) Activation Procedure that is regularly updated and consistently tested;

f. Routine reports per semester are presented to the Board of Directors and Board of Commissioners on the Company's performance, problems, and risks faced by the Company, and the handling.

Control of Compliance with Provisions of Regulations and Laws, such as

a. The commitment of the Management and employees of the Company to comply with the provisions issued by the Regulator in carrying out the business and operational activities of the Company, as stated in the Guidelines and Code of Conduct of the Board of Directors and the Company Code of Ethics;

b. The Company has a Compliance Division that is not involved with the Company's business or operational activities. This division supports the Company's compliance with prevailing regulations;

SISTEM PENGENDALIAN INTERNAL

Internal Control System

c. Pembuatan *gap analysis* pada unit-unit kerja yang dilakukan oleh Divisi Compliance untuk memberikan gambaran kepada Manajemen terkait rencana tindak lanjut (*action plan*) untuk memenuhi ketentuan yang berlaku;
d. Pengawasan yang dilakukan antara lain oleh unit Audit Internal.

Pengendalian Keuangan, seperti:
a. Telah dimilikinya strategi Perseroan yang dituangkan dalam Rencana Bisnis Perseroan;
b. Rencana bisnis dibuat dengan memperhitungkan modal yang dimiliki Perseroan, tidak hanya untuk mendukung pertumbuhan bisnis Perseroan, namun juga memperkuat kontrol yang efektif, seperti:
   1. Dibuatnya pemisahan tugas dan tanggung jawab yang didukung dengan sistem dan sumber daya manusia yang andal;
   2. Satuan Kerja Manajemen Risiko, Divisi Compliance maupun Audit Internal yang independen terhadap aktivitas bisnis maupun operasional;
   3. Sistem informasi dan saluran komunikasi Perseroan yang memperhatikan prinsip keamanan informasi, dilindungi dengan pengamanan sistem enkripsi yang andal.

KESESUAIAN DENGAN KETENTUAN REGULATOR DAN SISTEM INTERNASIONAL COSO

Dalam merancang Sistem Pengendalian Internal, Perseroan menggunakan beberapa referensi seperti ketentuan yang dikeluarkan oleh Regulator dan *Committee of Sponsoring Organizations of the Treadway Commission (COSO),* dengan tujuan untuk:
1. Kepatuhan terhadap peraturan dan perundang-undangan yang berlaku;
2. Tersedianya informasi keuangan dan manajemen yang benar, lengkap dan tepat waktu;
3. Efisiensi dan efektivitas dari kegiatan usaha Perseroan;
4. Meningkatkan budaya risiko (*risk culture*) pada organisasi secara menyeluruh.

c. Making a gap analysis on work units conducted by the Compliance Division to provide an overview to Management related to the action plan to meet the prevailing provisions;
d. Supervision is carried out among others by the Internal Audit unit.

Financial Control, such as:
a. Having owned the Company's strategy as outlined in the Company's Business Plan;
b. Business plan is made by taking into account the capital owned by the Company, not only to support the growth of the Company's business, but also to strengthen effective controls, such as:
   1. The separation of duties and responsibilities is supported by a reliable system and human resources;
   2. The Risk Management Work Unit, Compliance Division and Internal Audit are independent to business and operational activities;
   3. The Company's information systems and communication channels that take the principle of information security into consideration, are protected by secure encryption systems.

COMPLIANCE WITH COSO REGULATOR AND INTERNATIONAL SYSTEM PROVISIONS

In designing the Internal Control System, the Company uses several references such as the provisions issued by the Regulator and Committee of Sponsoring Organizations of the Treadway Commission (COSO), with the aim of:
1. Compliance with prevailing laws and regulations;
2. The availability of correct, complete and timely financial and management information;
3. Efficiency and effectiveness of the Company's business activities;
4. To increase the risk culture in the organization as a whole.

EVALUASI TINGKAT EFEKTIVITAS SISTEM PENGENDALIAN INTERNAL

Berdasarkan hasil penilaian Audit Internal selama tahun 2020 sebagaimana telah dilaporkan kepada Komite Audit dan Dewan Komisaris, sistem pengendalian internal dan manajemen risiko Perseroan dinilai secara umum memadai.

EVALUATION OF THE EFFECTIVENESS OF THE INTERNAL CONTROL SYSTEM

Based on the results of the Internal Audit assessment in 2020 as reported to the Audit Committee and the Board of Commissioners, the Company's internal control system and risk management are generally considered to be adequate.

KEBIJAKAN PELAPORAN PELANGGARAN DAN ANTI KORUPSI

Whiste Blower & Anti-Corruption Policy

Kebijakan *Whistle Blower* bertujuan untuk mendorong dan memungkinkan Direksi dan karyawan Perseroan untuk meningkatkan kepedulian terhadap penanganan yang tepat atas dugaan penyimpangan atau pelanggaran yang terjadi, baik oleh perorangan ataupun kelompok di lingkungan Perseroan.

Perseroan mewajibkan Direksi dan karyawan untuk selalu menerapkan standar bisnis dan etika perseorangan dalam setiap pelaksanaan tugas sesuai dengan ketentuan yang berlaku. Karyawan wajib menerapkan kejujuran dan integritas dalam melaksanakan pekerjaan dan tunduk pada peraturan dan hukum yang berlaku. Apabila karyawan mengetahui adanya perilaku yang menyimpang, ilegal atau tidak etis, karyawan harus segera melaporkan hal tersebut sesuai dengan kebijakan yang telah ditetapkan oleh Perseroan dengan prinsip penanganan pelaporan yaitu:

1. Objektivitas: penanganan berdasarkan fakta/bukti yang valid;
2. Relevansi: data yang disampaikan sesuai dengan tugas dan tanggung jawab;
3. Koordinasi: meliputi kerja sama dengan divisi dan/atau unit bisnis terkait;
4. Efektivitas dan efisiensi: penanganan dilakukan secara tepat dan hemat tenaga, waktu dan biaya;

Whistle Blower Policy is aimed to encourage and allow the Board of Directors and employees of the Company to raise awareness of the appropriate handling on suspicion of irregularities or violations, either by individuals or groups in the Company.

The Company requires the Board of Directors and employees to always implement business and individual ethics standard in every execution of tasks in accordance with prevailing regulations. Employees are required to implement honesty and integrity in performing their work and comply with the prevailing laws and regulations. If employees are aware of any deviations, illegal or unethical behavior, they should report it immediately in accordance to the policy set by the Company with the principle of reporting handling, which are:

1. Objectivity: handling shall be based on valid facts/evidence;
2. Relevance: data submitted shall be consistent with duties and responsibilities;
3. Coordination: including cooperation with the relevant division and/or business unit;
4. Effectiveness and efficiency: handling shall be conducted in a proper, timely and cost-saving manner;

5. Akuntabilitas: penanganan dan tindak lanjutnya dapat dipertanggungjawabkan.
6. Transparansi: penanganan dilakukan berdasarkan mekanisme, prosedur yang jelas dan terbuka;
7. Azas praduga tak bersalah;
8. Perlindungan terhadap saksi dan pelapor.

PENYAMPAIAN LAPORAN PELANGGARAN

Setiap pelaporan atas pelangaran ini dapat disampaikan kepada unit Internal Audit melalui e-mail internal.audit@trimegah.com sebagaimana diatur dalam kebijakan *Whistle Blower* Perseroan.

PERLINDUNGAN BAGI WHISTLE BLOWER

Perseroan menjamin tidak akan ada sanksi pemutusan hubungan kerja atau pemecatan (sesuai Peraturan Perusahaan) atas laporan dari *Whistle Blower* atas pelanggaran yang terjadi di Perseroan, selama laporan tersebut didasari oleh itikad baik dan semata-mata demi kebaikan Perusahaan.

Perseroan menjamin tidak akan ada tindakan balasan terhadap karyawan yang membuat pelaporan yang didasari oleh itikad baik dan/atau untuk berpartisipasi dalam *review* atas dugaan pelanggaran. Perlindungan ini juga berlaku bagi karyawan yang menyampaikan laporan pelanggaran dengan itikad baik tapi terbukti keliru. Namun demikian, Perseroan berhak mendisiplinkan karyawan yang membuat laporan dengan niat buruk atau menyalahgunakan kebijakan *Whistle Blower.*

5. Accountability: handling and the follow-up shall be accountable;
6. Transparency: handling shall be conducted based on a clear and transparent mechanism and procedure;
7. Presumption of innocence principle;
8. Protection of witnesses and reporting persons.

SUBMISSION OF VIOLATION REPORT

Each report may be submitted to the Internal Audit unit via e-mail internal.audit@trimegah.com as set forth in the Company's Whistle Blower Policy.

PROTECTION FOR WHISTLE BLOWER

The Company ensures that there will be no termination of employment or dismissal sanction (as per Company Regulations) for report from the Whistle Blower on violations occurring in the Company, as long as the report is made in good faith and solely for the good of the Company.

The Company ensures that there will be no retaliation against employees who make reports that are based on good faith and/or to participate in a review of the alleged violations. This protection shall also apply to employees who report violations in good faith but proved wrong. However, the Company may discipline the employee who makes a report in bad faith or misuses the Whistle Blower policy.

PIHAK YANG MENGELOLA PENGADUAN DAN PENANGANAN PENGADUAN

Divisi Internal Audit bertanggung jawab untuk menginvestigasi dan membuat rekomendasi secara wajar kepada Direksi, sebagai tindak lanjut atas setiap laporan yang telah diterima.

Laporan akan ditindaklanjuti melalui proses penyelidikan untuk memverifikasi bahwa tindakan tersebut merupakan tindakan yang menyimpang, dan kemudian ditentukan tindakan penanganan dan pencegahannya di kemudian hari.

Hasil pemeriksaan laporan juga disampaikan kepada Direksi untuk dibuat keputusan yang tepat, bijaksana, dan objektif atas hasil pemeriksaan.

COMPLAINTS HANDLER AND COMPLAINTS MANAGER

Internal Audit Division shall be responsible to investigate and make reasonable recommendations to the Board of Directors, as a follow-up to report received.

The report will be followed up through an investigation process to verify that the action is a deviating act, and later be determined the act of handling and prevention in the future.

Result of the examination on the report shall also be submitted to the Board of Directors, to determine the accurate, wise and objective decision on the result of examination.

PENGEMBANGAN SOSIAL DAN KEMASYARAKATAN

Social and Community Development

Menyadari bahwa Perseroan adalah bagian dari masyarakat, Perseroan selalu berupaya untuk memberikan kontribusi kepada masyarakat melalui kegiatan *Corporate Social Responsibility* (CSR), salah satunya dalam bidang pengembangan sosial dan kemasyarakatan.

Berikut kegiatan sosial perusahaan yang dilaksanakan di tahun 2020:

1. Bantuan Kemanusiaan bagi Karyawan yang Terdampak Bencana Banjir

   Hujan lebat yang terjadi pada tanggal 31 Desember 2019 hingga 1 Januari 2020 menyebabkan banjir di sejumlah wilayah di Jakarta, Bogor, Depok, Tangerang dan Bekasi. Akibatnya, banyak warga yang terpaksa mengungsi ke lokasi yang aman. Bencana banjir juga menimpa beberapa karyawan Perseroan. Perseroan meyakini bahwa loyalitas dan produktivitas karyawan tidak dapat dibangun hanya melalui insentif dan tunjangan, namun juga melalui empati dan dukungan dalam setiap kondisi. Untuk meringankan beban mereka, Perseroan menyumbang sejumlah dana, dan alat-alat kebersihan, serta cairan pembersih, disesuaikan dengan tingkat kerusakan yang dialami.

2. Bantuan Kemanusiaan bagi Pihak Terdampak COVID-19

   Pandemi COVID-19 telah menewaskan ribuan jiwa dan meruntuhkan kegiatan perekonomian global. Banyak negara jatuh dalam resesi dan menyebabkan banyak orang kehilangan pekerjaan.

   Sebagai bentuk kepeduliannya, Perseroan bersama dengan anak perusahaan Perseroan bersama-sama melakukan beberapa aksi kemanusian yaitu:
   - Di bulan Maret 2020, Perseroan bersama anak perusahaan memberikan dana kemanusian untuk penanganan pandemi COVID-19 di Indonesia melalui Yayasan Northstar Bhakti Persada. Dalam aksi kolaborasi ini, berhasil dikumpulkan dana sebesar Rp2 miliar sebagai bentuk kepedulian terhadap tenaga medis.

Realizing that the Company is a part of society, the Company always strives to contribute to society through Corporate Social Responsibility (CSR) activities, one of which is in the social and community development field.

The following are corporate social activities that were carried out during 2020:

1. Humanitarian Assistance for Employees Affected by Flood Disaster

   Heavy rains that occurred on December 31, 2019 to January 1, 2020 caused flooding in a number of areas in Jakarta, Bogor, Depok, Tangerang and Bekasi. As a result, many people were forced to evacuate to a safe location. Floods also experienced by some employees of the Company. The Company believes that employee loyalty and productivity cannot be built only through incentives and benefits, but also through empathy and support in every condition. To ease their burden, the Company contributed a number of funds, and cleaning tools, as well as cleaning fluids, according to the level of damage suffered.

2. Humanitarian Assistance for COVID-19 Victim

   The COVID-19 pandemic has killed thousands of people and collapsed the global economic activity. Many countries are falling into recession and causing many people to lose their jobs.

   To show its compassion, the Company together with its subsidiary jointly carried out several humanitarian assistance as follows:
   - In March 2020, the Company and its subsidiary contributed humanitarian funds for the handling of the COVID-19 pandemic in Indonesia through the Northstar Bhakti Persada Foundation. In this collaborative action, Rp2 billion was raised to care for medical personnel.

- Selain itu, pada awal masa pandemi, dimana tenaga medis sempat kesulitan dalam mendapatkan Alat Pelindung Diri (APD), Perseroan berinisiatif untuk menyumbang 200 *hazmat suit* ke 4 rumah sakit rujukan COVID-19, yaitu Rumah Sakit Umum Tangerang, Rumah Sakit Pusat Angkatan Darat Gatot Subroto Jakarta, Rumah Sakit Umum Daerah dr. Soeselo Tegal Jawa Tengah, dan Rumah Sakit Umum Daerah Ciamis.

- Bersama dengan Bursa Efek Indonesia (BEI), Kustodian Sentral Efek Indonesia (KSEI), dan Kliring Penjaminan Efek Indonesia (KPEI) yang juga menggalang donasi bersama pelaku pasar modal, Perseroan turut serta menyumbang sejumlah dana untuk ikut berpartisipasi dalam inisiatif tersebut.

- Saat pengumuman COVID-19 sebagai pandemi, Pemerintah sempat menerapkan kebijakan Pembatasan Sosial Berskala Besar (PSBB). Kondisi yang semakin sulit menyebabkan banyak pihak terutama kelompok rentan, ikut terdampak secara ekonomi. Untuk itu, Perseroan bersama dengan anak perusahaan memberikan 600 paket sembako yang disalurkan ke beberapa pihak antara lain Sahabat Peduli, beberapa karyawan Perseroan yang membutuhkan bantuan, Sekolah Tinggi Theologi Inalta Jakarta, dan masyarakat lain yang terdampak COVID-19.

- In addition, at the beginning of the pandemic period, when medical personnel had difficulty in obtaining Personal Protective Equipment (PPE), the Company took initiative to donate 200 hazmat suits which were distributed to 4 COVID-19 referral hospitals, namely Tangerang Public Hospital, Central Army Hospital Gatot Subroto Jakarta, Regional Public Hospital dr. Soeselo Tegal Central Java, and Regional Public Hospital Ciamis.

- Together with the Indonesia Stock Exchange (IDX), the Indonesian Central Securities Depository (KSEI), and the Indonesian Clearing and Guarantee Corporation (KPEI) that also raised donations with capital market players, the Company also contributed some funds to participate in the initiative.

- When the COVID-19 was announced as a pandemic, the Government implemented PSBB (Large-Scale Social Restriction) policy. The increasingly difficult conditions caused many parties, especially vulnerable groups, to be economically affected. For this reason, the Company together with its subsidiaries jointly provided 600 basic food packages which were distributed to several parties such as Sahabat Peduli, some employees of the Company who needed assistance, Inalta School of Theology Jakarta, and other community who were affected by the COVID-19.

EDUKASI LITERASI & INKLUSI KEUANGAN

Financial Literacy Education & Inclusion

Perseroan aktif melakukan berbagai kegiatan edukasi literasi dan inklusi keuangan kepada masyarakat. Selain untuk memenuhi ketentuan dalam Peraturan Otoritas Jasa Keuangan (OJK) No. 1/POJK.07/2013 tentang Perlindungan Konsumen Sektor Jasa Keuangan, Surat Edaran OJK No. 1/SEOJK.07/2014 tentang Edukasi dalam Rangka Meningkatkan Literasi Keuangan kepada Konsumen dan/atau Masyarakat, Peraturan OJK No. 76/POJK.07/2016 tentang Peningkatan Literasi dan Inklusi Keuangan di Sektor Jasa Keuangan bagi Konsumen dan/atau Masyarakat, kegiatan ini juga didasarkan pada keyakinan Perseroan bahwa pertumbuhan pasar modal Indonesia yang bersinambungan dalam jangka panjang harus dimulai dengan pemahaman yang baik dan memadai mengenai pasar modal itu sendiri oleh masyarakat sedini mungkin. Hal tersebut juga sejalan dengan misi Perseroan yakni "*Educate and create wealth for the community through unique and professional investment experience*".

The Company actively carries out various financial literacy education & inclusion activities. In addition to complying with provisions in OJK (Financial Service Authority) Regulation No. 1/POJK.07/2013 concerning Consumer Protection in Financial Service Sector, OJK Circular Letter No. 1/SEOJK.07/2014 concerning Education to Develop Financial Literacy for Consumer and/or Public, OJK Regulation No. 76/POJK.07/2016 concerning Improvement of Financial Literacy and Inclusion in Financial Service Sector for Consumers and/or Public, the activities also start from the Company's belief that sustainable growth of the Indonesia's capital market in long-term shall be started from good and sufficient understanding in the capital market by the society as early as possible. This is also in line with the Company's mission to "Educate and create wealth for the community through unique and professional investment experience."

Komitmen Perseroan dan Anak Perusahaannya, PT Trimegah Asset Management, diwujudkan dalam kegiatan edukasi melalui webinar, Instagram Live, dan Sekolah Pasar Modal, disertai dengan kegiatan inklusi keuangan, baik kepada masyarakat umum, nasabah, mahasiswa, dan karyawan perusahaan swasta maupun BUMN di berbagai lokasi di Indonesia.

The commitment of the Company and its subsidiary, PT Trimegah Asset Management, is realized in educational activities through webinars, Instagram Live, and Capital Market Schools, accompanied by financial inclusion activities, both to the general public, clients, students and employees of private and state-owned companies in various locations in Indonesia.

Pada tahun 2020 Perseroan telah melaksanakan 52 kegiatan edukasi melalui webinar *online* yang menjangkau lebih dari 5.000 orang peserta dari berbagai lokasi, dan 22 kegiatan edukasi melalui Sekolah Pasar Modal menjangkau lebih dari 485 orang peserta di 5 lokasi pelaksanaan.

In 2020, the Company held 52 educational activities through online webinars that reached more than 5,000 participants from various locations, and 22 educational activities through the Capital Market School reaching more than 485 participants at 5 implementation locations.

SEKOLAH PASAR MODAL

Sekolah Pasar Modal (SPM) adalah program edukasi dan sosialisasi pasar modal yang diselenggarakan secara berkala oleh PT Bursa Efek Indonesia (BEI). SPM memberikan edukasi sebagai langkah awal untuk investasi di Pasar Modal. Saat ini SPM masih menjadi program unggulan BEI dalam meningkatkan jumlah investor di pasar modal. Dengan meningkatnya jumlah investor domestik, pasar modal Indonesia diharapkan akan semakin stabil. Seluruh masyarakat umum dapat menjadi peserta sepanjang telah melakukan pendaftaran sesuai dengan syarat dan ketentuan yang berlaku.

Perseroan telah berpartisipasi dalam program SPM sejak tahun 2016. Atas kontribusi dan peran aktif Perseroan, BEI memberikan apresiasi berupa "Penghargaan atas Keikutsertaan Perseroan dalam Pengembangan Literasi dan Inklusi Keuangan di Pasar Modal Indonesia melalui Program Sekolah Pasar Modal Tahun 2016-2019" yang disampaikan pada pembukaan perdagangan BEI.

CAPITAL MARKET SCHOOL

SPM (Capital Market School) is a capital market education and socialization program that is held regularly by the Indonesia Stock Exchange (IDX). SPM provides education as a first step for investing in the Capital Market. Currently SPM is still the IDX's flagship program in increasing the number of new investors in the capital market. With the increasing number of domestic investors, the Indonesian capital market is expected to be more stable. All the general public can become the participants as long as they register in accordance with the applicable terms and conditions.

The Company has participated in the SPM program since 2016. For the Company's contribution and active role, the IDX presented an appreciation in the form of "Award for the Company's Participation in Financial Literacy and Inclusion Development in the Indonesia's Capital Market through the 2016-2019 Capital Market School Program" presented at the IDX's trading opening.

EDUKASI LITERASI & INKLUSI KEUANGAN

Financial Literacy Education & Inclusion

EDUKASI DI PERGURUAN TINGGI

Sejak penandatanganan Nota Kesepahaman Kerja Sama Pendidikan Pasar Modal antara Perseroan dengan Universitas Prasetiya Mulya (dahulu Sekolah Tinggi Ilmu Ekonomi Prasetiya Mulya) pada tahun 2012, Perseroan secara konsisten berbagi pengetahuan dan pengalaman tentang pasar modal Indonesia dengan menjadi pengajar pada kuliah "Introduction to Capital Markets" bagi mahasiswa semester 2 dan "Legal Issues in Capital Market" bagi mahasiswa semester 7 Program Studi S1 Keuangan & Perbankan, Universitas Prasetiya Mulya.

Pada tahun 2020, Perseroan telah mengajar dalam 28 sesi dengan 174 mahasiswa. Selain itu, Perseroan juga memberikan kesempatan kepada mahasiswa dari berbagai perguruan tinggi untuk bekerja sebagai karyawan magang di Perseroan sehingga mahasiswa dapat memperoleh pengetahuan praktis dan pengalaman di pasar modal.

EDUCATION AT UNIVERSITIES

Since the signing of Memorandum of Understanding (MoU) on Capital Market Education with Universitas Prasetiya Mulya (formerly known as Sekolah Tinggi Ilmu Ekonomi Prasetiya Mulya) in 2012, the Company consistently shares knowledge and experience about the Indonesia's Capital Market by becoming lecturer in subject "Introduction to Capital markets" for 2nd semester and "Legal Issues in Capital Market" for 7th semester Bachelor's Degree students Majoring in Finance & Banking, University of Prasetiya Mulya.

In 2020 the Company has taught in 28 sessions with 174 students. In addition, the Company also gives opportunity to students from various universities to work as internship in the Company to gain practical knowledge and experience at the capital market.

KALENDER EDUKASI

Selain inisiatif-inisiatif di atas, Perseroan juga melakukan edukasi literasi melalui materi komunikasi Perseroan seperti kalender. Sejak tahun 2015, Perseroan secara konsisten menerbitkan kalender yang dirancang secara khusus untuk memperkenalkan konsep-konsep pasar modal dan investasi.

Dalam kalender 2020, Perseroan mengangkat tema "*Small Do's for a Greater Good*". Melalui kalender ini, Perseroan menyampaikan pesan bahwa berinvestasi pada lingkungan juga merupakan hal penting. Berinvestasi pada lingkungan dapat dimulai dari langkah kecil pada kehidupan sehari-hari, karena Perseroan percaya bahwa dengan hal kecil dapat diwujudkan lingkungan yang bekelanjutan.

EDUCATION CALENDAR

Besides the initiatives mentioned above, the Company also conducts financial literacy education through corporate communication materials such as calendar. Since 2015, the Company has consistently published calendars specially designed to introduce capital market and investment concepts.

In the 2020 calendar, the Company adopts theme "Small Do's for a Greater Good." Through this calendar, the Company delivers a message that investing in the environment is also important. Investing in the environment can be started from small steps in everyday life, because the Company believes that small things can create a sustainable environment.

E-LEARNING PLATFORM PASAR MODAL

Pada tahun 2019 Perseroan meluncurkan *platform e-learning* pasar modal yang diberi nama Trimegah *e-Learning* ("TELL") untuk memudahkan investor dan calon investor mempelajari pasar modal. Platform ini menghadirkan pembelajaran terstruktur melalui 6 kategori yang dimiliki yaitu *Basic Learning, Technical Analysis, Company Profile, Company Visit, Investment*

CAPITAL MARKET E-LEARNING PLATFORM

In 2019, the Company launched a capital market e-learning platform called Trimegah e-Learning ("TELL") to facilitate investors and potential investors to learn about the capital market. This platform offers structured learning through 6 categories, namely Basic Learning, Technical Analysis, Company Profile, Company Visit, Investment Ideas, and Aspiration,

Ideas, dan *Inspiration*, melalui *streaming video* secara gratis. Pengguna dapat mengakses berbagai materi terkait pasar modal, serta ragam informasi terkait perusahaan terbuka dan manager investasi di Indonesia melalui situs web www.tell.co.id dan juga aplikasi TELL pada *handphone* yang menggunakan sistem Android.

Melalui *platform* ini, Perseroan berharap dapat mendorong minat para calon investor, terutama milenial melek teknologi, untuk lebih memahami dan mengetahui seluk beluk pasar modal dan produk-produk investasi di pasar modal. Upaya ini juga turut mendukung perusahaan publik menyampaikan informasi mengenai bisnis dan strateginya kepada masyarakat dengan jangkauan yang lebih luas.

Per 31 Desember 2020, Perseroan mencatat TELL *unique visitor* mencapai 9.301 *visitors* dengan 27.440 sesi yang dikunjungi. Pada tahun 2020 ini, Perseroan menerima "IDX Channel Anugerah Inovasi" untuk kategori Hubungan Eksternal atas Inovasi TELL. Ke depannya Perseroan terus akan mengembangkan platform TELL khususnya *platform* TELL pada sistem iOS. Di samping itu, fitur-fitur dalam *platform* TELL juga akan terus dikembangkan agar lebih lebih *user friendly* dan dapat mengakomodasi kebutuhan penggunanya.

EDUKASI PASAR MODAL SECARA *ONLINE* MELALUI WEBINAR DAN INSTAGRAM LIVE

Tahun 2020 merupakan tahun yang penuh tantangan. Karena pandemi COVID-19, banyak perusahaan dituntut untuk lebih inovatif dalam berbagai hal, dalam hal melakukan tanggung jawab kepada nasabah. Salah satu inovasi yang dilakukan Perseroan adalah melaksanakan kegiatan edukasi literasi dan inklusi keuangan kepada masyarakat dengan mengadakan edukasi pasar modal berbasis *online* melalui webinar dan memanfatkan fitur *Live* dalam media sosial Instagram.

Setiap minggu Perseroan menyelenggarakan webinar dan Instagram Live dengan tema beragam dengan menghadirkan karyawan yang ahli di bidangnya sebagai narasumber kegiatan ini. Perseroan juga berkolaborasi dengan *manager* investasi, emiten/perusahaan publik, dan lembaga keuangan lain untuk melakukan kegiatan edukasi literasi dan inklusi keuangan melalui webinar dan Instagram Live.

through streaming video. Users can access various materials related to the capital market, as well as various information related to public companies and investment managers in Indonesia through website www.tell.co.id and also TELL application on cellphones that use the Android system.

Through this platform, the Company expects to encourage the interest of potential investors, especially technology literate millennials, to better understand and know the ins and outs of the capital market and investment products in the capital market. This effort also supports public companies in conveying information about their business and strategies to a wider public.

As of December 31, 2020, the Company recorded TELL unique visitors reaching 9,301 visitors with 27,440 sessions visited. In 2020, the Company was granted "IDX Channel Innovation Award" for External Relations category for TELL Innovation. In the future, the Company will continue to develop the TELL platform, especially TELL platform on the iOS system. In addition, the development of features in the TELL platform is also continuously being developed to make it more user friendly and accommodate the needs of its users.

CAPITAL MARKET WEBINAR AND INSTAGRAM LIVE

Year 2020 is a year full of challenges. Because of the COVID-19 pandemic, many companies are required to be more innovative in various ways, including in carrying out responsibilities to clients. One of the innovations made by the Company is to carry out financial literacy education and inclusion activities for the public by providing online-based capital market education through webinars channel and utilizing the Live feature on Instagram social media.

Every week, the Company held webinars and Instagram Live with various themes by presenting employees who are experts in their fields as speakers for the activities. The company also collaborated with investment managers, issuers/public companies, and other financial institutions to carry out financial literacy and inclusion education activities through webinars and Instagram Live.

Tanggung jawab auditor (lanjutan)

Suatu audit melibatkan pelaksanaan prosedur untuk memperoleh bukti audit tentang angka-angka dan pengungkapan dalam laporan keuangan. Prosedur yang dipilih bergantung pada pertimbangan auditor, termasuk penilaian atas risiko kesalahan penyajian material dalam laporan keuangan, baik yang disebabkan oleh kecurangan maupun kesalahan. Dalam melakukan penilaian risiko tersebut, auditor mempertimbangkan pengendalian internal yang relevan dengan penyusunan dan penyajian wajar laporan keuangan entitas untuk merancang prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektivitasan pengendalian internal entitas. Suatu audit juga mencakup pengevaluasian atas ketepatan kebijakan akuntansi yang digunakan dan kewajaran estimasi akuntansi yang dibuat oleh manajemen, serta pengevaluasian atas penyajian laporan keuangan secara keseluruhan.

Kami yakin bahwa bukti audit yang telah kami peroleh adalah cukup dan tepat untuk menyediakan suatu basis bagi opini audit kami.

Opini

Menurut opini kami, laporan keuangan konsolidasian terlampir menyajikan secara wajar, dalam semua hal yang material, posisi keuangan konsolidasian PT Trimegah Sekuritas Indonesia Tbk dan entitas anaknya tanggal 31 Desember 2020 serta kinerja keuangan dan arus kas konsolidasiannya untuk tahun yang berakhir pada tanggal tersebut, sesuai dengan Standar Akuntansi Keuangan di Indonesia.

Auditors' responsibility (continued)

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of PT Trimegah Sekuritas Indonesia Tbk and its subsidiaries as of December 31, 2020, and their consolidated financial performance and cash flows for the year then ended, in accordance with Indonesian Financial Accounting Standards.

The consolidated financial statements have been prepared and presented in accordance with Indonesian Financial Accounting Standards which comprise the Statements and Interpretations issued by the Board of Financial Accounting Standards of the Indonesian Institute of Accountants.

The consolidated financial statements have been also prepared and presented in accordance with the Statements of Financial Accounting Standards (SFAS), Bapepam and LK regulation No.VIII.G.17 Attachment of the Chairman of Bapepam and LK's decree No. KEP- 689/BL/2011 "Accounting Guidelines for Securities Company".

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG SIGNIFIKAN (lanjutan)

a. Dasar penyusunan laporan keuangan konsolidasian (lanjutan)

Pernyataan kepatuhan (lanjutan)

Laporan keuangan konsolidasian telah disajikan berdasarkan konsep harga perolehan yang dimodifikasi oleh aset keuangan yang diklasifikasikan dalam kelompok yang diukur pada nilai wajar melalui laporan laba rugi, serta disusun dengan dasar akrual, kecuali laporan arus kas konsolidasian.

Laporan arus kas konsolidasian disusun menggunakan metode langsung dan arus kas dikelompokkan atas dasar kegiatan operasi, investasi dan pendanaan. Pada laporan arus kas konsolidasian, kas dan setara kas terdiri dari saldo kas dan bank, dan deposito berjangka yang akan jatuh tempo dalam waktu tiga bulan atau kurang, serta *deposit on call*.

Seluruh angka dalam laporan keuangan konsolidasian ini, kecuali dinyatakan secara khusus, adalah dibulatkan menjadi dan disajikan dalam ribuan Rupiah (“Rp”).

b. Prinsip-prinsip konsolidasian

Perusahaan dan entitas anaknya menerapkan Pernyataan Standar Akuntansi Keuangan (“PSAK”) No. 65, “Laporan Keuangan Konsolidasi”, yang diadopsi dari IFRS 10, menggantikan porsi PSAK No. 4 (Revisi 2009) mengenai pengaturan akuntansi untuk laporan keuangan konsolidasian, menetapkan prinsip penyusunan dan penyajian laporan keuangan konsolidasian ketika entitas mengendalikan satu atau lebih entitas lain.

Laporan keuangan konsolidasian meliputi laporan keuangan Perusahaan dan PT Trimegah Asset Management yang dimiliki 99,90% oleh Perusahaan.

Pengendalian diperoleh ketika Perusahaan terekspos, atau memiliki hak atas imbal hasil variabel dari keterlibatannya dengan *investee* dan memiliki kemampuan untuk mempengaruhi imbal hasil tersebut melalui kekuasaannya atas *investee*. Secara khusus, Perusahaan mengendalikan *investee* jika, dan hanya jika, Perusahaan memiliki seluruh hal berikut ini:

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

a. Basis of preparation of consolidated financial statements (continued)

Statement of compliance (continued)

The consolidated financial statements have been prepared on a historical cost basis, as modified by financial assets classified at fair value through profit or loss, and using the accrual basis except for the consolidated statement of cash flows.

The consolidated statement of cash flows are prepared based on the direct method by classifying cash flows on the basis of operating, investing and financing activities. In the consolidated statement of cash flows, cash and cash equivalent include cash on hand and in banks, time deposit with maturities of three months or less and deposit on call.

All figures in the consolidated financial statements are rounded to the nearest thousands Rupiah (“Rp”), unless otherwise stated.

b. Principles of consolidation

The consolidated financial statements are prepared in accordance with the Statement of Financial Accounting Standards (“SFAS”) No. 65, “Consolidated Financial Statements”, adopted from IFRS 10, which replaces part of SFAS No. 4 (Revised 2009) related to accounting for consolidated financial statements, determines principles for preparation and presentation of consolidated financial statements when an entity controls one or more of other entities.

The consolidated financial statements include the financial statements of the Company and PT Trimegah Asset Management, a 99.90% owned subsidiary.

Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Company controls an investee if, and only if, the Company has all of the following:

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG SIGNIFIKAN (lanjutan)

b. Prinsip-prinsip konsolidasian (lanjutan)

a) Kekuasaan atas *investee* (misalnya adanya hak yang memberikan Perusahaan kemampuan saat ini untuk mengarahkan aktivitas *investee* yang relevan);
b) eksposur atau hak atas imbal hasil variabel dari keterlibatan Perusahaan dengan *investee*; dan
c) kemampuan untuk menggunakan kekuasaannya atas *investee* untuk mempengaruhi imbal hasil Perusahaan.

Umumnya, kepemilikan hak suara mayoritas *(a majority of voting rights)* menghasilkan pengendalian. Untuk mendukung hal ini, dan jika Perusahaan memiliki hak suara kurang dari hak suara mayoritas, atau hak sejenis atas suatu *investee*, Perusahaan mempertimbangkan seluruh fakta dan keadaan ketika menilai apakah Perusahaan memiliki kekuasaan atas *investee*, termasuk:
a) Pengaturan kontraktual dengan pemegang hak suara lainnya pada *investee.*
b) Hak-hak yang timbul dari pengaturan kontraktual lain.
c) Hak suara yang dimiliki Perusahaan dan hak suara potensial.

Perusahaan menilai kembali apakah masih mengendalikan *investee* jika fakta dan keadaan mengindikasikan bahwa terdapat perubahan dalam satu atau lebih dari tiga elemen pengendalian. Konsolidasi atas entitas anak dimulai sejak tanggal Perusahaan memperoleh pengendalian atas entitas anak dan berakhir ketika Perusahaan kehilangan pengendalian atas entitas anak.

Laporan keuangan konsolidasian disusun dengan menggunakan kebijakan akuntansi yang sama untuk transaksi dan peristiwa lain dalam keadaan yang serupa. Jika anggota Perusahaan dan entitas anaknya menggunakan kebijakan akuntansi yang berbeda untuk transaksi dan peristiwa dalam keadaan yang serupa, maka penyesuaian dilakukan atas laporan keuangannya dalam penyusunan laporan keuangan konsolidasian.

Seluruh transaksi dan saldo akun antar perusahaan yang signifikan (termasuk laba atau rugi yang belum direalisasi) telah dieliminasi.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b. Principles of consolidation (continued)

a) Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);

b) exposure, or rights, to variable returns from its involvement with the investee; and

c) the ability to use its power over the investee to affect the Company's returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Company has less than a majority of the voting, or similar, rights of an investee, it considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

a) The contranctual arrangement(s) with the other vote holders of the investee.

b) Rights arising from other contractual arrangements.
c) The Company's voting rights and potential voting rights.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiaries begins when the Company obtains control over the subsidiaries and ceases when the Company loses control of the subsidiaries.

The consolidated financial statements have been prepared using uniform accounting policies for transactions and other events in similar circumstances. If a member of the Company and its subsidiaries use accounting policies other than those adopted for transactions and events in similar circumstances, appropriate adjustments are made to its financial statements in preparing the consolidated financial statements.

All significant intercompany transactions and account balances (including the related significant unrealized gains or losses) have been eliminated.

e. Changes to Statements of Financial Accounting Standards and Interpretations of Statements of Financial Accounting Standards

On January 1, 2020, the Company and its subsidiaries adopted new and revised Statements of Financial Accounting Standards ("SFAS") and Interpretations of Statements of Financial Accounting Standards ("ISFAS") that are mandatory for application from that date. Changes to the Company and its subsidiaries's accounting policies have been made as required, in accordance with the transitional provisions in the respective standards and interpretations.

The Company and its subsidiaries have adopted the requirements of SFAS 71: Financial Instruments starting January 1, 2020. Classification and measurement, and impairment requirements for financial assets, are applied retrospectively by adjusting retained earnings at the initial implementation date. As permitted by SFAS No. 71, the Company and its subsidiaries do not restate the comparative period.

The Company and its subsidiaries have also adopted SFAS No. 73: Leases from January 1, 2020. Identification and measurement of the asset's rights and lease liabilities are applied on a modified retrospective basis without a restatement for comparative period.

Pengujian SPPI - Penilaian mengenai arus kas kontraktual yang diperoleh semata dari pembayaran pokok dan bunga

Sebagai langkah pertama dari proses klasifikasi, Perusahaan dan entitas anaknya menilai persyaratan kontraktual dari aset keuangan untuk mengidentifikasi apakah mereka memenuhi pengujian SPPI.

Pokok pinjaman untuk tujuan pengujian ini didefinisikan sebagai nilai wajar dari aset keuangan pada pengakuan awal dan dapat berubah selama umur aset keuangan (misalnya, jika ada pembayaran pokok atau amortisasi premi/diskon).

Elemen bunga yang paling signifikan dalam perjanjian kredit biasanya adalah pertimbangan atas nilai waktu dari uang dan risiko kredit. Untuk membuat penilaian SPPI, Perusahaan dan entitas anaknya menerapkan pertimbangan dan memperhatikan faktor-faktor yang relevan seperti mata uang dimana aset keuangan didenominasikan dan periode pada saat suku bunga ditetapkan.

Sebaliknya, persyaratan kontraktual yang memberikan eksposur lebih dari *de minimis* atas risiko atau volatilitas dalam arus kas kontraktual yang tidak terkait dengan dasar pengaturan pinjaman, tidak menimbulkan arus kas kontraktual SPPI atas jumlah saldo. Dalam kasus seperti itu, aset keuangan diharuskan untuk diukur pada nilai wajar melalui laba rugi.

SPPI Test - Evaluation of contractual cash flows obtained solely from payment of principal and interest

As a first step of its classification process, the Company and its subsidiaries assess the contractual terms of financial assets to identify whether they meet the SPPI test.

Principal for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (for example, if there are repayments of principal or amortisation of the premium/discount).

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Company and its subsidiaries apply judgement and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set.

In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement, do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at Fair Value through Profit and Loss (FVTPL).

Penilaian model bisnis

Perusahaan dan entitas anaknya menentukan model bisnisnya berdasarkan tingkat yang paling mencerminkan bagaimana Perusahaan dan entitas anaknya mengelola kelompok aset keuangannya untuk mencapai tujuan bisnisnya.

Model bisnis Perusahaan dan entitas anaknya tidak dinilai berdasarkan masing-masing instrumennya, tetapi pada tingkat portofolio secara agregat yang lebih tinggi dan didasarkan pada faktor-faktor yang dapat diamati seperti:

- Bagaimana kinerja model bisnis dan aset keuangan yang dimiliki dalam model bisnis tersebut dievaluasi dan dilaporkan kepada personel manajemen kunci
- Risiko yang mempengaruhi kinerja model bisnis (dan aset keuangan yang dimiliki dalam model bisnis tersebut) dan, khususnya, bagaimana cara risiko tersebut dikelola
- Bagaimana manajer bisnis dikompensasi (misalnya, apakah kompensasi didasarkan pada nilai wajar dari aset yang dikelola atau pada arus kas kontraktual yang tertagih)

Business model assessment

The Company and its subsidiaries determine its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Company and its subsidiaries's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- *How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel*
- *The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular the way those risks are managed*
- *How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)*

Penilaian model bisnis (lanjutan)

Penilaian model bisnis didasarkan pada skenario yang diharapkan secara wajar tanpa mempertimbangkan skenario "*worst case*" atau "*stress case*". Jika arus kas setelah pengakuan awal direalisasikan dengan cara yang berbeda dari yang awal diharapkan, Perusahaan dan entitas anaknya tidak mengubah klasifikasi aset keuangan dimiliki yang tersisa dalam model bisnis tersebut, tetapi memasukkan informasi tersebut dalam melakukan penilaian atas aset keuangan yang baru atau yang baru dibeli selanjutnya.

Setelah pengakuan awal, aset keuangan pada biaya perolehan diamortisasi selanjutnya diukur pada biaya perolehan diamortisasi dengan menggunakan metode EIR, dikurangi dengan penurunan nilai. Biaya perolehan diamortisasi dengan memperhitungkan diskonto atau premi pada awal akuisisi dan fee/biaya sebagai bagian yang tidak terpisahkan dari EIR. Amortisasi dan kerugian yang timbul dari penurunan nilai diakui dalam laporan laba rugi dan penghasilan komprehensif lain.

Liabilitas keuangan

Liabilitas keuangan diklasifikasikan berdasarkan substansi pengaturan kontrak yang dibuat dan definisi liabilitas keuangan.

Liabilitas keuangan diklasifikasikan dalam kategori (i) liabilitas keuangan yang diukur pada nilai wajar melalui laporan laba rugi dan (ii) liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

Business model assessment (continued)

The business model assessment is based on reasonably expected scenarios without taking "worst case" or "stress case" scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Company and its subsidiaries's original expectations, the Company and its subsidiaries do not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

After initial measurement, financial assets at amortized cost are subsequently measured at amortised cost using the EIR method, less any impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees/costs that are an integral part of the EIR. The amortization and the losses arising from impairment of such investments are recognized in the statement of profit or loss and other comprehensive income.

Financial liabilities

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability.

Financial liabilities classfied in the category of (i) financial liabilities at fair value through profit or loss and (ii) financial liabilities measured at amortized cost.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

f. Financial assets and financial liabilities (continued)

(i) Classification (continued)

Applicable accounting policies since January 1, 2020 (continued)

Financial liabilities (continued)

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognized in profit or loss. Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in PSAK 71 are satisfied.

After initial recognition, the Company and its subsidiaries measure all financial liabilities at amortized cost using EIR method.

Applicable accounting policies before January 1, 2020

The Company and its subsidiaries' financial assets consist of cash and cash equivalent, deposit, marketable securities, reverse repo receivable, receivable from clearing and guarantee institution, receivables from securities companies, receivables from customers, receivables from investment manager activities, receivables from underwriting and advisory service, short-term promissory notes, other receivables, investment in shares and other assets (guarantee deposits).

(i) Klasifikasi (lanjutan)

Kebijakan akuntansi yang berlaku sebelum 1 Januari 2020 (lanjutan)

Liabilitas keuangan Perusahaan dan entitas anaknya tersebut meliputi utang bank, utang lembaga kliring dan penjaminan, utang perusahaan efek, utang nasabah, surat utang jangka pendek, surat utang jangka menengah, utang lain-lain dan beban akrual (bonus).

Liabilitas keuangan diklasifikasikan ke dalam kategori sebagai berikut pada saat pengakuan awal:

- Aset keuangan yang diukur pada nilai wajar melalui laba rugi, yang memiliki 2 (dua) sub-klasifikasi, yaitu aset keuangan yang ditetapkan demikian pada saat pengakuan awal dan aset keuangan yang diklasifikasikan dalam kelompok yang diperdagangkan;

- Diukur pada nilai wajar melalui laba rugi, yang memiliki 2 (dua) sub-klasifikasi, yaitu liabilitas keuangan yang ditetapkan demikian pada saat pengakuan awal dan liabilitas keuangan yang telah diklasifikasikan dalam kelompok diperdagangkan;

- Liabilitas keuangan lain yang tidak diklasifikasikan sebagai liabilitas keuangan yang diukur pada nilai wajar melalui laporan laba rugi dikategorikan dan diukur dengan biaya perolehan diamortisasi.

Kelompok aset dan liabilitas diukur pada nilai wajar melalui laporan laba rugi adalah aset dan liabilitas keuangan dimiliki untuk diperdagangkan yang diperoleh atau dimiliki Perusahaan dan entitas anaknya terutama untuk tujuan dijual atau dibeli kembali dalam waktu dekat, atau dimiliki sebagai bagian dari portofolio yang dikelola bersama untuk memperoleh laba jangka pendek atau *position taking*.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

f. Financial assets and financial liabilities (continued)

(i) Classification (continued)

Applicable accounting policies before January 1, 2020 (continued)

The Company and its subsidiaries' financial liabilities comprise of bank loans, payables to clearing and guarantee institution, payables to securities companies, payables to customers, short-term notes payable, medium-term notes, other payables and accrued expenses (bonuses).

Financial liabilities are classified into the following categories at initial recognition:

- *Financial assets at fair value through profit or loss, which has 2 (two) sub-classifications, i.e. financial assets designated as such upon initial recognition and financial assets held-for-trading;*

- *Fair value through profit or loss, which has 2 (two) sub-classifications, i.e. those designated as such upon initial recognition and those classified as held-for-trading;*

- yang pada saat pengakuan awal ditetapkan dalam kelompok investasi tersedia untuk dijual; atau
- dalam hal Perusahaan dan entitas anaknya mungkin tidak akan memperoleh kembali investasi awal secara substansial kecuali yang disebabkan oleh penurunan kualitas kredit yang diberikan dan piutang, yang diklasifikasikan dalam kelompok tersedia untuk dijual.

Investasi dimiliki hingga jatuh tempo terdiri dari aset keuangan non-derivatif dengan pembayaran tetap atau telah ditentukan dan jatuh temponya telah ditetapkan dimana Perusahaan dan entitas anaknya mempunyai intensi positif dan kemampuan untuk memiliki aset keuangan tersebut hingga jatuh tempo. Investasi yang dimiliki untuk periode yang tidak dapat ditentukan tidak dikategorikan dalam klasifikasi ini.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

f. Financial assets and financial liabilities (continued)

(i) Classification (continued)

Applicable accounting policies before January 1, 2020 (continued)

Derivatives are also categorized under this sub-classification unless they are designated as effective hedging instruments. Financial assets and liabilities classified under this category are carried at fair value in the consolidated statement of financial position, with any gains or losses being recognized in the consolidated statement of profit or loss and other comprehensive income.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market, other than:

- *those that the Company and its subsidiaries intend to sell immediately or in the short term, which are classified as held for trading, and those that the Company and its subsidiaries upon initial recognition designate as at fair value through profit or loss;*
- *those that the Company and its subsidiaries upon initial recognition designate as available for sale investments; or*
- *those for which the Company and its subsidiaries may not recover substantially all of their initial investment, other than because of loans and receivables deterioration, which shall be classified as available for sale.*

Held-to-maturity investments consist of non-derivative financial assets with fixed or determinable payments and fixed maturity that the Company and its subsidiaries have the positive intention and ability to hold to maturity. Investments intended to be held for an undetermined period are not included in this classification.

(i) Klasifikasi (lanjutan)

Kebijakan akuntansi yang berlaku sebelum 1 Januari 2020 (lanjutan)

Kategori tersedia untuk dijual terdiri dari aset keuangan non derivatif yang ditentukan sebagai tersedia untuk dijual atau tidak diklasifikasikan sebagai salah satu dari kategori aset keuangan lain. Setelah pengakuan awal, investasi tersedia untuk dijual diukur menggunakan nilai wajar dengan laba atau rugi yang diakui sebagai ekuitas sampai dengan investasi dihentikan pengakuannya atau sampai investasi dinyatakan mengalami penurunan nilai dimana akumulasi laba atau rugi sebelumnya dilaporkan dalam ekuitas dilaporkan dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

Hasil efektif dan (bila dapat diaplikasikan) hasil dari nilai tukar dinyatakan kembali untuk investasi tersedia dijual dan dilaporkan pada laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

Liabilitas keuangan lainnya merupakan liabilitas keuangan yang tidak dimiliki untuk dijual atau ditentukan sebagai nilai wajar melalui laporan laba rugi saat pengakuan liabilitas.

(ii) Pengakuan awal

a. Pembelian atau penjualan aset keuangan yang memerlukan penyerahan aset dalam kurun waktu yang telah ditetapkan oleh peraturan dan kebiasaan yang berlaku di pasar (pembelian secara reguler) diakui pada tanggal penyelesaian yaitu tanggal Perusahaan dan entitas anaknya berkomitmen untuk membeli atau menjual aset.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

f. Financial assets and financial liabilities (continued)

(i) Classification (continued)

Applicable accounting policies before January 1, 2020 (continued)

The available for sale category consists of non-derivative financial assets that are designated as available for sale or are not classified in one of the other categories of financial assets. After initial recognition, available for sale investments are measured at fair value with gains or losses being recognized in other comprehensive income and reported to equity until the investment is derecognized or until the investment is determined to be impaired at which time the cumulative gain or loss previously reported in equity is included in the consolidated statement of profit or loss and other comprehensive income.

The effective yield and (where applicable) results of foreign exchange translation for available for sale investments are reported in the consolidated statement of profit or loss and other comprehensive income.

Other financial liabilities pertain to financial liabilities that are neither held-for-trading nor designated as at fair value through profit or loss upon the recognition of the liability.

(ii) Initial recognition

a. Purchase or sale of financial assets that requires delivery of assets within a time frame established by regulation or convention in the market (regular purchases) is recognized on the settlement date, i.e., the date that the Company and its subsidiaries commit to purchase or sell the assets.

f. Aset keuangan dan liabilitas keuangan (lanjutan)

(ii) Pengakuan awal (lanjutan)

b. Aset keuangan dan liabilitas keuangan pada awalnya diukur pada nilai wajarnya. Dalam hal aset keuangan atau liabilitas keuangan tidak diklasifikasikan sebagai pada nilai wajar melalui laporan laba rugi, nilai wajar tersebut ditambah biaya transaksi yang dapat diatribusikan secara langsung. Pengukuran aset keuangan dan liabilitas keuangan setelah pengakuan awal tergantung pada klasifikasinya.

Biaya transaksi hanya meliputi biaya-biaya yang dapat diatribusikan secara langsung untuk perolehan suatu aset keuangan atau penerbitan suatu liabilitas keuangan dan merupakan biaya tambahan yang tidak akan terjadi apabila instrumen keuangan tersebut tidak diperoleh atau diterbitkan. Untuk aset keuangan, biaya transaksi ditambahkan pada jumlah yang diakui pada awal pengakuan aset, sedangkan untuk liabilitas keuangan, biaya transaksi dikurangkan dari jumlah utang yang diakui pada pengakuan awal liabilitas. Biaya transaksi tersebut diamortisasi selama umur instrumen berdasarkan metode suku bunga efektif dan dicatat sebagai bagian dari pendapatan bunga untuk biaya transaksi sehubungan dengan aset keuangan atau sebagai bagian dari beban bunga untuk biaya transaksi sehubungan dengan liabilitas keuangan.

Perusahaan dan entitas anaknya, pada pengakuan awal, dapat menetapkan aset keuangan dan liabilitas keuangan tertentu sebagai nilai wajar melalui laba rugi (opsi nilai wajar). Selanjutnya, penetapan ini tidak dapat diubah. Opsi nilai wajar dapat digunakan hanya bila memenuhi ketetapan sebagai berikut:

- penetapan sebagai opsi nilai wajar mengurangi atau mengeliminasi ketidakkonsistenan pengukuran dan pengakuan (*accounting mismatch*) yang dapat timbul; atau

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

f. Financial assets and financial liabilities (continued)

(ii) Initial recognition (continued)

b. Financial assets and financial liabilities are initially recognized at fair value. For those financial assets or financial liabilities not classified as at fair value through profit or loss, the fair value is added with directly attributable transaction costs. The subsequent measurement of financial assets and financial liabilities depends on their classification.

Transaction costs only include costs that are directly attributable to the acquisition of a financial asset or issuance of a financial liability and an additional charge that would not occur if the instrument is not acquired or issued. For financial assets, transaction costs are added to the amount recognized in the initial recognition of the asset, while for financial liabilities, transaction costs are deducted from the amount of debt recognized on initial recognition of a liability. The transaction costs are amortized over the terms of the instrument based on the effective interest rate method and recorded as part of interest income for transaction costs related to the financial asset or as part of interest expense for transaction costs related to financial liabilities.

The Company and its subsidiaries, upon initial recognition, may designate certain financial assets and liabilities, at fair value through profit or loss (fair value option). Subsequently, this designation cannot be changed. The fair value option is only applied when the following conditions are met:

- *the application of the fair value option reduces or eliminates an accounting mismatch that would otherwise arise; or*

(ii) Pengakuan awal (lanjutan)

Opsi nilai wajar dapat digunakan hanya bila memenuhi ketetapan sebagai berikut (lanjutan):

- aset keuangan dan liabilitas keuangan merupakan bagian dari portofolio instrumen keuangan yang risikonya dikelola dan dilaporkan kepada manajemen kunci berdasarkan nilai wajar; atau
- aset keuangan dan liabilitas keuangan terdiri dari kontrak utama dan derivatif melekat yang harus dipisahkan.

(iii) Pengukuran setelah pengakuan awal

Kebijakan akuntansi yang berlaku sejak 1 Januari 2020

Aset keuangan dalam kelompok aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain dan aset keuangan dan liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi diukur pada nilai wajarnya.

Aset keuangan kelompok biaya perolehan diamortisasi dan liabilitas keuangan lainnya diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif.

Kebijakan akuntansi yang berlaku sebelum 1 Januari 2020

Aset keuangan dalam kelompok tersedia untuk dijual dan aset keuangan dan liabilitas keuangan yang diklasifikasikan pada nilai wajar melalui laba rugi diukur pada nilai wajarnya.

Kredit yang diberikan dan piutang serta investasi dimiliki hingga jatuh tempo dan liabilitas keuangan lainnya diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

f. Financial assets and financial liabilities (continued)

(ii) Initial recognition (continued)

The fair value option is only applied when the following conditions are met (continued):

- *the financial assets and liabilities are part of a portfolio of financial instruments, the risks of which are managed and reported to key management on a fair value basis; or*
- *the financial assets and liabilities consist of a host contract and an embedded derivative that must be bifurcated.*

(iii) Subsequent measurement

Applicable accounting policies since January 1, 2020

Financial assets at fair value through other comprehensive income and financial assets and financial liabilities at fair value through profit or loss are measured at fair value.

Financial assets classified as amortized cost and other financial liabilities measured at amortized cost using the effective interest rate method.

Applicable accounting policies before January 1, 2020

Available-for-sale financial assets and financial assets and liabilities held which are classified as at fair value through profit or loss are subsequently measured at fair value.

Loans and receivables and held-to-maturity investments and other financial liabilities are measured at amortized cost using the effective interest rate method.

f. Aset keuangan dan liabilitas keuangan (lanjutan)

(iv) Penghentian pengakuan

a. Aset keuangan dihentikan pengakuannya jika:

(i) Hak kontraktual atas arus kas yang berasal dari aset keuangan tersebut berakhir; atau
(ii) Perusahaan dan entitas anaknya telah mentransfer haknya untuk menerima arus kas yang berasal dari aset tersebut atau menanggung liabilitas untuk membayarkan arus kas yang diterima tersebut secara penuh
(iii) tanpa penundaan berarti kepada pihak ketiga dibawah kesepakatan pelepasan, dan antara (a) Perusahaan dan entitas anaknya telah mentransfer secara substansial seluruh risiko dan manfaat atas aset, atau (b) Perusahaan dan entitas anaknya tidak mentransfer maupun tidak memiliki secara substansial seluruh risiko dan manfaat atas aset, tetapi telah mentransfer kendali atas aset.

Piutang atau aset keuangan lain dihapusbukukan ketika tidak terdapat prospek yang realistis mengenai pengembalian kredit atau hubungan normal antara Perusahaan dan entitas anaknya dan debitur telah berakhir. Ketika piutang tidak dapat dilunasi maka akan dihapusbukukan dengan mendebit cadangan kerugian penurunan nilai.

Penerimaan kemudian atas piutang yang telah dihapusbukukan sebelumnya, jika pada tahun berjalan dikreditkan ke dalam akun cadangan kerugian penurunan nilai di laporan posisi keuangan konsolidasian, sedangkan jika setelah tanggal laporan posisi keuangan konsolidasian dikreditkan sebagai pendapatan operasional lainnya dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

f. Financial assets and financial liabilities (continued)

(iv) Derecognition

a. Financial assets are derecognized when:

(i) the contractual rights to receive cash flows from the financial assets have expired; or
(ii) the Company and its subsdiary have transferred their rights to receive cash flows from the asset or have assumed an obligation to pay the received cash flow in full

(iii) without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company and its subsidiaries have transferred substantially all the risks and rewards of the asset, or (b) the Company and its subsidiaries have neither transferred nor retained substantially all the risks and rewards of the asset, but have transferred control of the asset.

Receivable or other financial assets are written off when there is no realistic prospect of collection in the near future or the normal relationship between the Company and its subsidiaries and the borrowers have ceased to exist. When a receivable is deemed uncollectible, it is written off against the related allowance for impairment losses.

Subsequent recoveries from receivables previously written off, are added to the allowance for impairment losses account in the consolidated statement of financial position if recovered in the current year and are recognized in the consolidated statement of profit or loss and other comprehensive income as other operating income, if recovered after the consolidated statement of financial position date.

f. Aset keuangan dan liabilitas keuangan (lanjutan)

(iv) Penghentian pengakuan (lanjutan)

Ketika Perusahaan dan entitas anaknya telah mentransfer hak untuk menerima arus kas dari aset atau telah memasuki pass-through arrangement dan tidak mentransfer serta tidak mempertahankan secara substansial seluruh risiko dan manfaat atas aset atau tidak mentransfer kendali atas aset, aset diakui sebesar keterlibatan Perusahaan dan entitas anaknya yang berkelanjutan atas aset tersebut.

Melanjutkan keterlibatan yang diambil dalam bentuk jaminan atas aset yang ditransfer adalah diukur dari nilai tercatat awal dari aset dan nilai maksimum pertimbangan bahwa Perusahaan dan entitas anaknya diminta untuk membayar.

b. Liabilitas keuangan dihentikan pengakuannya jika liabilitas yang ditetapkan dalam kontrak dilepaskan atau dibatalkan atau kadaluarsa. Jika suatu liabilitas keuangan yang ada digantikan dengan yang lain oleh pemberi pinjaman yang sama pada keadaan yang secara substansial berbeda, atau berdasarkan suatu liabilitas yang ada yang secara substansial telah diubah, maka pertukaran atau modifikasi tersebut diperlakukan sebagai penghentian pengakuan liabilitas awal dan pengakuan liabilitas baru, dan perbedaan nilai tercatat masing-masing diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

f. Financial assets and financial liabilities (continued)

(iv) Derecognition (continued)

Where the Company and its subsidiaries have transferred their rights to receive cash flows from an asset or have entered into a pass-through arrangement and have neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company and its subsidiaries' continuing involvement in the asset.

Continuing involvement that has taken the form of a guarantee over the transferred asset is measured at the lower of original carrying amount of the asset and the maximum amount of consideration that the Company and its subsidiaries could be required to repay.

b. Financial liabilities are derecognized when the obligation under the liability is discharged, cancelled or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the consolidated statement of profit or loss and other comprehensive income.

f. Aset keuangan dan liabilitas keuangan (lanjutan)

(v) Pengakuan pendapatan dan beban

Kebijakan akuntansi yang berlaku sejak 1 Januari 2020

a. Pendapatan dan beban bunga atas aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain serta aset keuangan dan liabilitas keuangan yang dicatat berdasarkan biaya perolehan diamortisasi, diakui pada laporan laba rugi dengan menggunakan metode suku bunga efektif.

Jumlah tercatat bruto aset keuangan adalah biaya perolehan diamortisasi aset keuangan sebelum disesuaikan dengan cadangan penurunan nilai.

Dalam menghitung pendapatan dan beban bunga, tingkat bunga efektif diterapkan pada jumlah tercatat bruto aset (ketika aset tersebut bukan aset keuangan memburuk) atau terhadap biaya perolehan diamortisasi dari liabilitas.

Untuk aset keuangan yang memburuk setelah pengakuan awal, pendapatan bunga dihitung dengan menerapkan tingkat bunga efektif terhadap biaya perolehan diamortisasi dari aset keuangan tersebut. Jika aset tersebut tidak lagi memburuk, maka perhitungan pendapatan bunga akan dihitung dengan menerapkan tingkat bunga efektif terhadap nilai tercatat bruto dari aset keuangan tersebut.

Untuk aset keuangan yang telah memburuk pada saat pengakuan awal, pendapatan bunga dihitung dengan menerapkan tingkat bunga efektif terhadap biaya perolehan diamortisasi dari aset keuangan tersebut. Jika aset tersebut tidak lagi memburuk, maka perhitungan pendapatan bunga akan tetap dihitung dengan menerapkan tingkat bunga efektif terhadap biaya perolehan diamortisasi dari aset keuangan tersebut.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

f. Financial assets and financial liabilities (continued)

(v) Income and expense recognition

Applicable accounting policies since January 1, 2020

a. Interest income and expense on financial assets measured at fair value through other comprehensive income as well as financial assets and financial liabilities recorded at amortized cost are recognized in the statement of profit or loss using the effective interest method.

The gross carrying amount of a financial asset is the amortized cost of a financial asset before adjusting for allowance for impairment.

In calculating interest income and expenses, the effective interest rate is applied to the gross carrying amount of an asset (when the asset is not a deteriorated financial asset) or to the amortized cost of a liability.

For financial assets that deteriorated after initial recognition, interest income is calculated by applying an effective interest rate to the amortized cost of the financial assets. If the asset no longer deteriorates, the calculation of interest income will be calculated by applying an effective interest rate to the gross carrying amount of the financial asset.

For financial assets that have deteriorated at initial recognition, interest income is calculated by applying the effective interest rate to the amortized cost of the financial assets. If the asset no longer deteriorates, the calculation of interest income will still be calculated by applying the effective interest rate to the amortized cost of the financial asset.

(vi) Reclassification of financial assets (continued)

Applicable accounting policies before January 1, 2020 (continued)

A financial asset is reclassified out of the fair value through profit or loss category when the following conditions are met:

- *the financial asset is no longer held for the purpose of selling or repurchasing in the near term; and*
- *there is a rare circumstance.*

A financial asset that is reclassified out of the fair value through profit or loss category is reclassified at its fair value on the date of reclassification. Any gain or loss already recognized in the consolidated statement of profit or loss and other comprehensive income cannot be reversed. The fair value of the financial asset on the date of the reclassification becomes its new amortized cost, as applicable.

The Company and its subsidiaries have not reclassified their financial instrument out of fair value through profit or loss category.

The Company and its subsidiaries cannot classify any financial assets as held-to-maturity investments, if during the current financial year or during the 2 (two) preceding financial years, sold or reclassified more than an insignificant amount of held-to-maturity investments before maturity (more than insignificant in relation to the total amount of held-to-maturity investments) other than sales or reclassifications that:

a. are so close to maturity or the financial asset's repurchase date that changes in the market rate of interest would not have a significant effect on the financial asset's fair value;

c. terkait dengan kejadian tertentu yang berada di luar kendali Perusahaan dan entitas anaknya, tidak berulang, dan tidak dapat diantisipasi secara wajar oleh Perusahaan dan entitas anaknya.

Reklasifikasi aset keuangan dari kelompok dimiliki hingga jatuh tempo ke kelompok tersedia untuk dijual dicatat sebesar nilai wajarnya. Keuntungan atau kerugian yang belum direalisasi atas reklasifikasi tetap dilaporkan pada ekuitas dan diamortisasi menggunakan metode suku bunga efektif selama sisa umur aset keuangan tersebut.

Reklasifikasi aset keuangan dari kelompok tersedia untuk dijual ke kelompok dimiliki hingga jatuh tempo dicatat pada nilai tercatat. Keuntungan atau kerugian yang belum direalisasi diamortisasi menggunakan metode suku bunga efektif sampai dengan tanggal jatuh tempo instrumen tersebut.

(vii) Saling hapus

Aset keuangan dan liabilitas keuangan saling hapus disajikan dalam laporan posisi keuangan konsolidasian jika memiliki hak yang berkekuatan hukum untuk melakukan saling hapus buku atas jumlah yang telah diakui tersebut dan berniat untuk menyelesaikan secara neto atau untuk merealisasikan aset dan menyelesaikan liabilitasnya secara simultan. Hak yang berkekuatan hukum berarti:

(vi) Reclassification of financial assets (continued)

Applicable accounting policies before January 1, 2020 (continued)

b. occur after the Company and its subsidiaries have collected substantially all of the original principal of the financial assets through scheduled payments or prepayments; or

c. are attributable to an isolated event that is beyond the Company and its subsidiaries control, is non-recurring and could not have been reasonably anticipated by the Company and its subsidiaries.

Reclassifications of financial assets from held-to-maturity classification to available-for-sale are recorded at fair value. Unrealized gains or losses due to reclassification are reported in equity and are amortized using effective interest rate method over the remaining life of the financial assets.

Reclassification of financial assets from available-for-sale to held-to-maturity classification is recorded at carrying amount. The unrealized gains or losses are amortized by using effective interest rate method up to the maturity date of that instrument.

(vii) Offsetting

Financial assets and liabilities are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. This means that the right to set off:

b. hak yang berkekuatan hukum pada kondisi-kondisi berikut ini:
   - kegiatan bisnis normal;
   - kondisi kegagalan usaha; dan
   - kondisi gagal bayar atau bangkrut

Pendapatan dan beban disajikan dalam jumlah neto hanya jika diperkenankan oleh standar akuntansi.

(viii) Pengukuran biaya perolehan diamortisasi

Biaya perolehan diamortisasi dari aset keuangan atau liabilitas keuangan adalah total aset keuangan atau liabilitas keuangan yang diukur pada saat pengakuan awal dikurangi pembayaran pokok, ditambah atau dikurangi amortisasi kumulatif menggunakan metode suku bunga efektif yang dihitung dari selisih antara nilai pengakuan awal dan nilai jatuh temponya, dan dikurangi penurunan nilai.

(ix) Pengukuran nilai wajar

Nilai wajar adalah harga yang akan diterima untuk menjual suatu aset atau harga yang akan dibayar untuk mengalihkan suatu liabilitas dalam transaksi teratur antara pelaku pasar pada tanggal pengukuran.

Pengukuran nilai wajar mengasumsikan bahwa transaksi untuk menjual aset atau mengalihkan liabilitas terjadi:
- Di pasar utama untuk aset dan liabilitas tersebut; atau
- Jika tidak terdapat pasar utama, di pasar yang paling menguntungkan untuk aset atau liabilitas tersebut.

(vii) Offsetting (continued)

a. Must not be contingent on a future event, and
b. Must be legally enforceable in all of the following circumtances:
   - *The normal course of business;*
   - *The event of default; and*
   - *The event of insolvency or bankruptcy*

Income and expenses are presented on a net basis only when permitted by the accounting standards.

(viii) Amortized cost measurement

The amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest rate method of any difference between the initial amount recognized and the maturity amount, minus any reduction for impairment.

(ix) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Fair value measurement assumes the transaction to sell assets or transfer liabilities occurs:
- *In the primary market for such assets and liabilities; or*
- *If there is no primary market, in the most profitable market for these assets or liabilities.*

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG SIGNIFIKAN (lanjutan)

f. Aset keuangan dan liabilitas keuangan (lanjutan)

(ix) Pengukuran nilai wajar (lanjutan)

Pengukuran nilai wajar aset non keuangan memperhitungkan kemampuan pelaku pasar untuk menghasilkan manfaat ekonomis dengan menggunakan aset dalam penggunaan tertinggi dan terbaiknya atau dengan menjualnya kepada pelaku pasar lain yang akan menggunakan aset tersebut dalam penggunaan tertinggi dan terbaiknya.

Jika tersedia, Perusahaan dan entitas anaknya mengukur nilai wajar dari suatu instrumen dengan menggunakan harga kuotasi di pasar aktif untuk instrumen terkait. Suatu pasar dianggap aktif bila harga yang dikuotasikan tersedia sewaktu-waktu dari bursa, pedagang efek *(dealer)*, perantara efek *(broker)*, kelompok industri, badan pengawas *(pricing service or regulatory agency)*, dan harga tersebut merupakan transaksi pasar aktual dan teratur terjadi yang dilakukan secara wajar.

Perusahaan dan entitas anaknya menggunakan teknik penilaian yang sesuai dalam keadaan dan dimana data yang memadai tersedia untuk mengukur nilai wajar, mengoptimalkan penggunaan input yang dapat diobservasi yang relevan dan meminimalkan penggunaan input yang tidak dapat diobservasi.

Semua aset dan liabilitas dimana nilai wajar diukur atau diungkapkan dalam laporan keuangan dapat dikategorikan pada level hirarki nilai wajar, berdasarkan tingkatan input terendah yang signifikan atas pengukuran nilai wajar secara keseluruhan:

- Tingkat 1: harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liablitas yang identik yang dapat diakses pada tanggal pengukuran. harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liablitas yang identik yang dapat diakses pada tanggal pengukuran.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

f. Financial assets and financial liabilities (continued)

(ix) Fair value measurement (continued)

The measurement of the fair value of non-financial assets takes into account the ability of market participants to generate economic benefits by using the asset in the highest and best use or by selling them to other market participants that would use the asset in the highest and best use.

When available, the Company and its subsidiaries measure the fair value of an instrument using quoted prices in an active market for that instrument. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency and those prices represent actual and regularly occurring market transaction on an arm's length basis.

The Company and its subsidiaries use suitable valuation techniques in the circumstances and where sufficient data are available to measure fair value, optimizing the use of relevant observable inputs and minimize the use of inputs that are not observable.

All assets and liabilities which fair value is measured or disclosed in the financial statements can be classified in fair value hierarchy levels, based on the lowest level of input that is significant to the overall fair value measurement:

- *Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities which are accessible at the measurement date.*

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG SIGNIFIKAN (lanjutan)

f. Aset keuangan dan liabilitas keuangan (lanjutan)

(ix) Pengukuran nilai wajar (lanjutan)

- Tingkat 2: input selain harga kuotasian yang termasuk dalam level 1 yang dapat diobservasi untuk aset dan liabilitas, baik secara langsung atau tidak langsung.

- Tingkat 3: input yang tidak dapat diobservasi untuk aset dan liabilitas.

Untuk aset dan liabilitas yang diakui pada laporan keuangan konsolidasian secara berulang, Perusahaan dan entitas anaknya menentukan apakah terjadi transfer antara level di dalam hirarki dengan cara mengevaluasi kategori (berdasarkan input level terendah yang signifikan dalam pengukuran nilai wajar) setiap akhir periode pelaporan.

Perusahaan dan entitas anaknya, untuk tujuan pengungkapan nilai wajar, telah menentukan kelas aset dan liabilitas berdasarkan sifat, karakteristik, risiko aset dan liabilitas, dan level hirarki nilai wajar (Catatan 47).

Jika pasar untuk instrumen keuangan tidak aktif, Perusahaan dan entitas anaknya menetapkan nilai wajar dengan menggunakan teknik penilaian. Teknik penilaian meliputi penggunaan transaksi pasar terkini yang dilakukan secara wajar oleh pihak-pihak yang mengerti, berkeinginan (jika tersedia), referensi atas nilai wajar terkini dari instrumen lain yang secara substansial serupa dan analisis arus kas yang didiskonto. Perusahaan dan entitas anaknya menggunakan *credit risk spread* sendiri untuk menentukan nilai wajar dari liabilitas derivatif dan liabilitas lainnya yang telah ditetapkan menggunakan opsi nilai wajar.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

f. Financial assets and financial liabilities (continued)

(ix) Fair value measurement (continued)

- *Level 2: inputs other than quoted prices included in level 1 that are observable for the assets and liabilities, either directly or indirectly.*

- *Level 3: inputs that are not observable for the assets and liabilities.*

For assets and liabilities that are recognized in the consolidated financial statements on recurring basis, the Company and its subsidiaries determine whether there is a transfer between levels in the hierarchy by evaluating categories (based on the lowest level input that is significant to the fair value measurement) at the end of each reporting period.

The Company and its subsidiaries, for purposes of disclosing the fair value, has determined the classes of assets and liabilities based on the nature, characteristics, risk of assets and liabilities, and the fair value hierarchy levels (Note 47).

If a market for a financial instrument is not active, the Company and its subsidiaries establish fair value using a valuation technique. Valuation techniques include using the recent arm's length transactions between knowledgeable and willing parties (if available), reference to the current fair value of other instruments that are substantially the same and discounted cash flow analysis. The Company and its subsidiaries use their own credit risk spreads in determining the fair value for their derivative liabilities and all other liabilities for which they have elected the fair value option.

f. Aset keuangan dan liabilitas keuangan (lanjutan)

(ix) Pengukuran nilai wajar (lanjutan)

Ketika terjadi kenaikan di dalam *credit spread*, Perusahaan dan entitas anaknya mengakui keuntungan atas liabilitas tersebut sebagai akibat penurunan nilai tercatat liabilitas. Ketika terjadi penurunan di dalam *credit spread*, Perusahaan dan entitas anaknya mengakui kerugian atas liabilitas tersebut sebagai akibat kenaikan nilai tercatat liabilitas.

Perusahaan dan entitas anaknya menggunakan beberapa teknik penilaian yang digunakan secara umum untuk menentukan nilai wajar dari instrumen keuangan dengan tingkat kompleksitas yang rendah, seperti opsi nilai tukar dan swap mata uang. Input yang digunakan dalam teknik penilaian untuk instrumen keuangan di atas adalah data pasar yang diobservasi.

Untuk instrumen keuangan yang tidak mempunyai harga pasar, estimasi atas nilai wajar ditentukan dengan mengacu pada nilai wajar instrumen lain yang substansinya sama atau dihitung berdasarkan ekspektasi arus kas yang diharapkan terhadap aset neto efek-efek tersebut.

Pada saat nilai wajar dari *unlisted equity instruments* tidak dapat ditentukan dengan handal, instrumen tersebut dinilai sebesar biaya perolehan dikurangi dengan penurunan nilai. Nilai wajar atas kredit yang diberikan dan piutang, serta liabilitas kepada bank dan nasabah ditentukan menggunakan nilai berdasarkan arus kas kontraktual, dengan mempertimbangkan kualitas kredit, likuiditas dan biaya.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

f. Financial assets and financial liabilities (continued)

(ix) Fair value measurement (continued)

When the Company and its subsidiaries' credit spread widens, the Company and its subsidiaries recognize a gain on these liabilities, because the value of the liabilities has decreased. When the Company and its subsidiaries' credit spread become narrow, the Company and its subsidiaries recognize a loss on these liabilities because the value of the liabilities has increased.

The Company and its subsidiaries use widely recognized valuation models for determining fair values of financial instruments of lower complexity, such as exchange value options and currency swaps. For these financial instruments, inputs into models are generally market-observable.

For financial instruments with no quoted market price, a reasonable estimate of the fair value is determined by reference to the fair value of another instrument which substantially has the same characteristics or calculated based on the expected cash flows of the underlying net asset base of the marketable securities.

In cases when the fair value of unlisted equity instruments cannot be determined reliably, the instruments are carried at cost less impairment value. The fair value for loans and receivables as well as liabilities to banks and customers are determined using a present value model on the basis of contractually agreed cash flows, taking into account credit quality, liquidity and costs.

f. Aset keuangan dan liabilitas keuangan (lanjutan)

(ix) Pengukuran nilai wajar (lanjutan)

Aset keuangan yang dimiliki atau liabilitas yang akan diterbitkan diukur dengan menggunakan harga penawaran; aset keuangan dimiliki atau liabilitas yang akan diterbitkan diukur menggunakan harga permintaan. Jika Perusahaan dan entitas anaknya memiliki posisi aset dan liabilitas dimana risiko pasarnya saling hapus, maka nilai tengah dari pasar dapat dipergunakan untuk menentukan posisi risiko yang saling hapus tersebut dan menerapkan penyesuaian tersebut terhadap harga penawaran atau harga permintaan terhadap posisi terbuka neto (*net open position*), mana yang lebih sesuai.

(x) Perbedaan 1 (satu) hari

Pada saat nilai transaksi berbeda dengan nilai wajar dari transaksi pasar lainnya yang dapat diobservasi saat ini atas instrumen yang sama atau berdasarkan teknik penilaian yang hanya menggunakan variabel data dari pasar yang dapat diobservasi, Perusahaan dan entitas anaknya secara langsung mengakui perbedaan antara nilai transaksi dan nilai wajar ("1 hari" keuntungan atau kerugian) pada laporan laba rugi komprehensif konsolidasian.

Jika nilai wajar ditentukan berdasarkan data yang tidak dapat diobservasi, maka perbedaan antara nilai transaksi dan nilai model hanya dapat diakui pada laporan laba rugi komprehensif konsolidasian pada saat data menjadi dapat diobservasi atau pada saat instrumen tersebut tidak diakui lagi.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

f. Financial assets and financial liabilities (continued)

(ix) Fair value measurement (continued)

Financial assets held or liabilities to be issued are measured at bid price; financial assets acquired or liabilities to be held are measured at ask price. Where the Company and its subsidiaries have assets and liabilities positions with off-setting market risk, middle market prices can be used to measure the off-setting risk positions and bid or ask price adjustment is applied to the net open positions as appropriate.

(x) Day 1 (one) difference

When the transaction price differs from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable markets, the Company and its subsidiaries immediately recognize the difference between the transaction price and fair value (a 'Day 1' profit or loss) in the consolidated statement of comprehensive income.

In cases where fair value is determined using data which is not observable, the difference between the transaction price and model value is only recognized in the consolidated statement of comprehensive income when the inputs become observable, or when the instrument is derecognized.

g. Kas dan setara kas

Kas dan setara kas terdiri dari kas, kas di bank dan deposito berjangka jangka pendek yang jatuh tempo dalam waktu tiga bulan atau kurang sejak tanggal perolehan, yang tidak dijaminkan serta tidak dibatasi penggunaannya.

h. Portofolio efek

Portofolio efek diklasifikasikan, diakui, dan diukur dalam laporan keuangan konsolidasian berdasarkan kebijakan akuntansi yang diungkapkan dalam Catatan 2f atas laporan keuangan konsolidasian.

Nilai wajar portofolio efek utang ditetapkan berdasarkan harga penawaran di pasar aktif pada tanggal laporan keuangan konsolidasian.

Investasi reksa dana dan dana kelolaan berdasarkan kontrak bilateral yang diklasifikasikan sebagai diperdagangkan disajikan sebesar nilai aset bersih reksa dana dan dana kelolaan berdasarkan kontrak bilateral tersebut pada tanggal laporan posisi keuangan konsolidasian yang dihitung oleh bank kustodian.

Penurunan nilai atas portofolio efek (utang efek) diakui menggunakan metodologi yang diungkapkan dalam Catatan 2f atas laporan keuangan konsolidasian.

Premi dan diskonto diamortisasi dengan menggunakan metode suku bunga efektif.

i. Transaksi portofolio efek

Transaksi pembelian dan penjualan portofolio efek baik untuk nasabah maupun untuk sendiri diakui dalam laporan keuangan Perusahaan dan entitas anaknya pada saat timbulnya perikatan atas transaksi portofolio efek.

Pembelian portofolio efek untuk nasabah pemilik rekening dicatat sebagai piutang nasabah dan utang lembaga kliring dan penjaminan, sedangkan penjualan portofolio efek dicatat sebagai utang pada nasabah dan piutang dari lembaga kliring dan penjaminan.

g. Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, cash in banks, and all unpledged and unrestricted short-term deposits with maturities of three months or less from acquisition date.

h. Marketable securities

Marketable securities are classified, recognized, and measured in the consolidated financial statements in accordance with accounting policies disclosed in Note 2f to the consolidated financial statements.

Fair value of debt securities is based on bid price in an active market at consolidated statement of financial position date.

Investments in mutual funds and managed fund on bilateral contract basis classified as held for trading are stated at the net assets value of the mutual funds and managed fund on bilateral contract basis at the consolidated statement of financial position date as calculated by custodian bank.

Impairment losses of marketable securities (debt securities) are recognized using methodology disclosed in Note 2f to the consolidated financial statements.

Premium and discount are amortized using effective interest rate method.

i. Securities transactions

Purchased and sales of securities both for customers (securities brokerage transactions) and the Company and its subsidiaries' portofolio are recognized when the transactions are made.

Purchases of securities for the interest of customers are recorded as receivables from customers and payable to the clearing and guarantee institution, while sales of such securities are recorded as payable to customers and receivables from clearing and guarantee institutions.

i. Transaksi portofolio efek (lanjutan)

Penerimaan dana dari nasabah pemilik rekening dalam rangka pembelian portofolio efek dan pembayaran dan penerimaan atas transaksi pembelian dan penjualan untuk nasabah dicatat pada rekening nasabah.

Pada tanggal penyelesaian, pembelian portofolio efek yang tidak dapat diselesaikan dicatat sebagai "akun gagal terima" dan disajikan di laporan posisi keuangan konsolidasian sebagai liabilitas. Transaksi penjualan portofolio efek yang tidak dapat diselesaikan dicatat sebagai "akun gagal serah" dan disajikan di laporan posisi keuangan konsolidasian sebagai aset.

Penerimaan uang pemesanan portofolio efek dalam rangka penjaminan emisi portofolio efek diakui dan disajikan tersendiri sebagai aset dan liabilitas.

Efek-efek yang dibeli dengan janji untuk dijual kembali diklasifikasikan sebagai pinjaman yang diberikan dan piutang.

Efek-efek yang dibeli dengan janji untuk dijual kembali disajikan sebagai aset dalam laporan posisi keuangan konsolidasian sebesar jumlah penjualan kembali dikurangi dengan pendapatan bunga yang belum diamortisasi dan cadangan kerugian penurunan nilai. Selisih antara harga beli dan harga jual kembali diperlakukan sebagai pendapatan bunga yang ditangguhkan, dan diakui sebagai pendapatan selama periode sejak efek-efek tersebut dibeli hingga dijual menggunakan suku bunga efektif.

j. Penyertaan saham

Kebijakan akuntansi yang berlaku sejak 1 Januari 2020

Penyertaan pada bursa efek dan penyertaan lain-lain diklasifikasikan sebagai aset keuangan yang dimiliki diukur pada nilai wajar melalui penghasilan komprehensif lain.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

i. Securities transactions (continued)

Funds received from customers in connection with securities purchased for their account and payments and receipts related to purchases and sales of securities on behalf of the customers are recorded as customers' accounts.

On settlement date, failure in the settlement of securities purchased is recorded as "failure to receive account" and presented in the consolidated statement of financial position as a liability, while failure in settlement of securities sold is recorded as "failure to deliver account" and presented in the consolidated statement of financial position as an asset.

Funds received for securities subscription in relation to underwriting are recognized and separately presented as assets and liabilities.

Securities purchased under agreements to resell are classified as loans and receivables.

Securities purchased under agreements to resell are presented as assets in the consolidated statements of financial position, at the resale price net of unamortized interest income and allowance for impairment losses. The difference between the purchase price and the resale price is treated as unearned interest income, and recognized as income over the period starting from when those securities are purchased until they are sold using effective interest rate method.

j. Investment in shares

Applicable accounting policies since January 1, 2020

Investments in stock exchange and other investments are classified as financial asset which are measured at fair value through other comprehensive income.

j. Penyertaan saham (lanjutan)

Kebijakan akuntansi yang berlaku sebelum 1 Januari 2020

Investasi pada bursa efek dinilai sebesar biaya perolehannya.

Penyertaan saham dengan kepemilikan kurang dari 20% dicatat dengan menggunakan metode biaya perolehan (*cost method*), kecuali diketahui adanya indikasi penurunan nilai yang sifatnya permanen maka Perusahaan dan entitas anaknya akan menyediakan cadangan penurunan nilai penyertaan.

Investasi pada saham yang bernilai di bawah 20% diklasifikasikan sebagai aset keuangan yang tersedia untuk dijual.

Penyertaan saham dengan kepemilikan 20% sampai dengan 50%, baik dimiliki secara langsung maupun tidak langsung dinyatakan sebesar biaya perolehan, ditambah atau dikurangi dengan bagian laba atau rugi entitas asosiasi sejak perolehan sebesar persentase pemilikan, dikurangi dengan dividen yang diterima (metode ekuitas). Bila terjadi penurunan nilai yang bersifat permanen, maka nilai tercatatnya dikurangi untuk mengakui penurunan tersebut yang ditentukan untuk setiap investasi secara individu dan kerugiannya dibebankan pada laporan laba rugi komprehensif konsolidasian tahun berjalan.

k. Aset tetap

Aset tetap disajikan sebesar harga perolehan setelah dikurangi akumulasi penyusutan. Perusahaan dan entitas anaknya menerapkan model biaya setelah pengakuan awal aset tetap. Aset tetap disusutkan sejak bulan ketika aset tersebut digunakan dengan metode garis lurus *(straight-line method)* berdasarkan taksiran masa manfaat ekonominya sebagai berikut:

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

j. Investment in shares (continued)

Applicable accounting policies before January 1, 2020

Investment in stock exchange memberships are stated at cost.

Investment in shares with ownership interest of less than 20% are stated at cost (cost method), unless there is an indication of a permanent decline in value of the investment, whereby the Company and its subsidiaries will provide an allowance for such a decline.

Investment in shares less than 20% is classified as available-for-sale financial assets.

Investments in shares with ownership interest of 20% to 50%, directly or indirectly owned, are accounted for using the equity method whereby the Company and its subsidiaries proportionate share in the net income or loss of the associated company after the date of acquisition is added to or deducted from, and dividends subsequently received are deducted from, the acquisition cost of the investments. The carrying amount of the investments is written-down to recognize any permanent decline in value of the individual investments. Any such write-down is charged directly to the current year's consolidated statement of comprehensive income.

k. Fixed assets

Fixed assets are stated at cost less accumulated depreciation. The Company and its subsidiaries apply the cost model in subsequent recognition for their property and equipment. Fixed assets are depreciated from the month of the assets are placed in service on the straight-line method based on the estimated economic useful lives of the assets as follows:

	Tahun/*Years*	
Bangunan	20	*Buildings*
Renovasi gedung sewa	5	*Leasehold improvements*
Kendaraan bermotor	5	*Motor vehicles*
Perabotan dan peralatan kantor	5	*Office equipments*

k. Aset tetap (lanjutan)

Biaya perbaikan dan pemeliharaan dibebankan pada saat terjadinya; pemugaran dan peningkatan daya guna dalam nilai signifikan dikapitalisasi. Pada saat aset tetap sudah tidak digunakan lagi atau dijual, nilai buku dan akumulasi penyusutan dari aset tetap tersebut dikeluarkan dari akun aset tetap dan keuntungan atau kerugian yang terjadi diakui dalam laporan laba rugi komprehensif konsolidasian tahun berjalan.

Perubahan umur ekonomis yang diperkirakan dihitung dengan mengubah masa penyusutan yang dibutuhkan dan diperlakukan sebagai perubahan estimasi akuntansi.

Nilai yang dapat diperoleh kembali atas aset diestimasi apabila terdapat peristiwa atau perubahan keadaan yang memberikan indikasi bahwa nilai perolehan mungkin tidak sepenuhnya dapat diperoleh kembali. Apabila terjadi penurunan nilai aset, maka kerugian atas penurunan nilai aset diakui pada laporan laba rugi komprehensif konsolidasian tahun berjalan.

l. Aset takberwujud

Aset takberwujud merupakan biaya perolehan perangkat lunak komputer yang meliputi biaya langsung yang berkaitan dengan persiapan aset yang ditujukan untuk digunakan, ditangguhkan dan diamortisasi menggunakan metode garis lurus selama 5 dan 8 tahun. Perusahaan dan entitas anaknya menerapkan model biaya setelah pengakuan awal aset takberwujud.

Estimasi masa manfaat dan metode amortisasi direviu minimum setiap akhir tahun buku, dan pengaruh dari setiap perubahan estimasi akuntansi diterapkan secara prospektif.

Aset takberwujud tidak diakui pada saat pelepasan, atau apabila tidak terdapat manfaat ekonomis masa datang diharapkan dari penggunaan atau pelepasan. Keuntungan atau kerugian yang timbul dari tidak diakuinya aset takberwujud, diukur sebagai selisih antara hasil pelepasan dan nilai tercatat aset, diakui dalam laba rugi ketika aset dilepas.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

k. Fixed assets (continued)

The cost of repairs and maintenance is charged to income as incurred; significant renewals or betterments are capitalized. When assets are retired or otherwise disposed of, their carrying value and the related accumulated depreciation are removed from the accounts and any resulting gain or loss is reflected in the current year's consolidated statement of comprehensive income.

Changes in the expected useful lives are accounted for by changing the depreciation period, as appropriate, and treated as changes in accounting estimates.

The recoverable amount of an asset is estimated whenever events or changes in circumstances indicate that its carrying amount may not be fully recoverable. Impairment in asset value, if any, is recognized as loss in the current year's consolidated statement of comprehensive income.

l. Intangible assets

Intangible assets pertain to the acquisition cost of computer software which includes all direct costs related to the preparation of such asset for its intended use is deferred and amortized using straight-line method over 5 and 8 years. The Company and its subsidiaries apply the cost model in subsequent recognition for their intangible assets.

The estimated useful lives and amortization method are reviewed at least each year end, with the effect of any changes in estimate accounted for on a prospective basis.

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gain or losses arising from derecognition of intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in profit or loss when the asset is derecognized.

m. Penurunan nilai atas aset keuangan dan non - keuangan

Penurunan nilai atas aset keuangan

Perusahaan dan entitas anaknya telah mencatat cadangan untuk kerugian kredit ekspektasian yang ditaksir atas seluruh piutang yang diberikan dan aset keuangan yang tidak dimiliki pada nilai wajar melalui laba rugi, bersama dengan komitmen atas piutang yang diberikan dan kontrak garansi keuangan, dalam hal ini dirujuk sebagai instrumen keuangan. Instrumen ekuitas tidak dikenakan penurunan nilai berdasarkan PSAK 71.

Cadangan atas kerugian kredit ekspektasian adalah berdasarkan atas kerugian ekspektasian sepanjang umur aset (*the lifetime expected credit loss*), kecuali tidak terdapat kenaikan yang signifikan dalam risiko kredit sejak awal, di mana dalam hal ini, cadangan adalah berdasarkan kerugian kredit ekspektasian dalam jangka waktu 12 bulan.

Kerugian yang diharapkan sepanjang umur aset dan kerugian kredit ekspektasian dalam jangka waktu 12 bulan dihitung baik secara individual maupun kolektif, tergantung kepada sifat portofolio instrumen keuangan yang mendasarinya.

Perusahaan dan entitas anaknya menghitung kerugian kredit ekspektasian berdasarkan tiga skenario yang tertimbang menurut kemungkinan terjadinya untuk mengukur kekurangan kas yang diharapkan, didiskontokan pada suatu estimasi terhadap suku bunga efektif. Kekurangan kas adalah selisih antara arus kas yang harus dibayar kepada suatu entitas berdasarkan kontrak dan arus kas dari entitas bersangkutan yang diharapkan untuk diperoleh.

Perusahaan dan entitas anaknya telah menyusun suatu kebijakan untuk melakukan suatu penilaian, pada akhir setiap periode pelaporan, mengenai apakah risiko kredit suatu aset keuangan telah meningkat secara signifikan sejak pengakuan awal, dengan mempertimbangkan perubahan pada risiko gagal bayar yang terjadi sepanjang sisa umur instrumen keuangan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m. Impairment losses on financial assets and non - financial assets

Impairment on financial assets

The Company and its subsidiaries have been recording the allowance for expected credit losses for all receivables and other debt financial assets not held at fair value through profit or loss, together with receivable commitments and financial guarantee contracts, in this section all referred to as financial instruments. Equity instruments are not subject to impairment under SFAS 71.

The expected credit loss allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss.

Both the lifetime expected credit loss and 12 months' expected credit loss are calculated on either an individual basis or a collective basis, depending on the nature of the underlying portfolio of financial instruments.

The Company and its subsidiaries calculates expected credit loss based on three probability-weighted scenarios to measure the expected cash shortfalls, discounted at an approximation to the effective interest rate. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive.

The Company and its subsidiaries have established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument.

m. Penurunan nilai atas aset keuangan dan non - keuangan (lanjutan)

Penurunan nilai atas aset keuangan (lanjutan)

Berdasarkan proses di atas, Perusahaan dan entitas anaknya mengelompokkan kredit yang diberikan ke dalam *Stage* 1, *Stage* 2 dan *Stage 3,* sebagaimana dijelaskan dalam berikut ini:

- *Stage* 1: kerugian kredit ekspektasian dalam jangka waktu 12 bulan dihitung sebagai bagian dari kerugian yang diharapkan sepanjang umur aset yang merepresentasikan kerugian kredit ekspektasian yang berasal dari peristiwa gagal bayar pada instrumen keuangan yang mungkin terjadi dalam jangka waktu 12 bulan setelah tanggal pelaporan.

  Perusahaan dan entitas anaknya menghitung cadangan atas kerugian kredit ekspektasian dalam jangka waktu 12 bulan berdasarkan ekspektasi gagal bayar yang terjadi dalam jangka waktu 12 bulan sejak tanggal pelaporan. Probabilitas gagal bayar yang diekpektasikan dalam jangka waktu 12 bulan diterapkan kepada prakira *exposure at defaults* dan dikalikan dengan perkiraan *loss given defaults* dan diskontokan dengan estimasi terhadap suku bunga efektif awal. Perhitungan ini merepresentasikan setiap dari tiga skenario, sebagaimana akan dijelaskan kemudian.

- *Stage* 2: Ketika piutang yang diberikan telah menunjukkan suatu peningkatan risiko kredit yang signifikan sejak awal, Perusahaan dan entitas anaknya mencatat cadangan atas kerugian kredit ekspektasian sepanjang umur. Mekanisme pada tahap ini serupa dengan mekanisme yang telah dijelaskan di atas, termasuk penggunaan beberapa skenario, dengan kerugian kredit ekspektasian merefleksikan sisa umur instrumen. Kekurangan kas yang diharapkan didiskontokan dengan perkiraan atas suku bunga efektif awal. Perusahaan dan entitas anaknya mempertimbangkan suatu eksposur mengalami kenaikan secara signifikan dalam risiko kredit ketika terdapat pembayaran kontraktual menunggak melebihi 2 hari, penurunan rasio jaminan, atau memindahkan nasabah/fasilitas ke daftar *watch list.*

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m. Impairment losses on financial assets and non - financial assets (continued)

Impairment on financial assets (continued)

Based on the above process, the Company and its subsidiaries groups its loans into Stage 1, Stage 2 and Stage 3, as described below:

- *Stage 1: The 12 months' expected credit loss is calculated as the portion of the lifetime expected credit losses that represent the expected credit loss that result from default events on a financial instrument that are possible within the 12 months after the reporting date.*

  The Company and its subsidiaries calculate the 12 months' expected credit loss allowance based on the expectation of a default occurring in the 12 months following the reporting date. These expected 12-month default probabilities are applied to a forecast exposure at defaults and multiplied by the expected loss given defaults and discounted by an approximation to the original effective interest rate. This calculation represents each of the three scenarios, as will be explained later.

- *Stage 2: When a receivable has shown a significant increase in credit risk since origination, the Company and its subsidiaries records an allowance for the lifetime expected credit loss. The mechanics are similar to those explained above, including the use of multiple scenarios with expected credit losses reflecting remaining life of the instrument. The expected cash shortfalls are discounted by an approximation to the original effective interest rate. The Company and its subsidiaries considers an exposure to have significant increase in credit risk when there are contractual payments more than 2 days past due, decrease in collateral ratio, or moving a customer/facility to the watch list.*

m. Penurunan nilai atas aset keuangan dan non - keuangan (lanjutan)

Penurunan nilai atas aset keuangan (lanjutan)

- *Stage* 3: Piutang yang diberikan dipertimbangkan yang mengalami penurunan nilai, Perusahaan dan entitas anaknya mencatat suatu penyisihan atas kerugian ekspektasian sepanjang umur pinjaman secara kolektif atau individual.

  Untuk aset keuangan dimana Perusahaan dan entitas anaknya tidak memliki ekspektasi pemulihan yang wajar, baik dari seluruh atau sebagian nilai terutang, nilai tercatat bruto dari aset keuangan tersebut berkurang. Hal ini dianggap sebagai penghentian pengakuan (sebagian) aset keuangan.

Dalam model kerugian kredit ekspektasian, Perusahaan dan entitas anaknya berpedoman terhadap berbagai kisaran informasi *forward-looking* sebagai masukan ekonomis, yaitu Indeks Harga Saham Gabungan (IHSG) Bursa Efek Indonesia (BEI).

Definisi gagal bayar dan pulih

Perusahaan dan entitas anaknya mempertimbangkan instrumen keuangan gagal bayar (*default*) dan oleh karena itu *Stage* 3 (penurunan kredit) untuk perhitungan kerugian kredit ekspektasiannya adalah ketika:

- peminjam/nasabah reguler menunggak 2 hari lewat dari pembayaran kontraktualnya,
- peminjam/nasabah margin memiliki nilai rasio piutang dibandingkan dengan nilai saham jaminannya lebih besar dari 75% atau saham jaminannya disuspensi,
- peminjam/nasabah yang melakukan perjanjian jual dan beli kembali memiliki nilai rasio piutang dibandingkan dengan nilai saham jaminannya lebih besar dari 75% atau saham jaminannya disuspensi,
- peminjam/nasabah/*counterparty* yang melakukan piutang lainnya menunggak 90 hari lewat dari pembayaran kontraktualnya.

m. Impairment losses on financial assets and non - financial assets (continued)

Impairment on financial assets (continued)

- *Stage 3: For receivables considered credit-impaired, the Company and its subsidiaries recognises the lifetime expected credit losses for these loans collectively or individuallly.*

  For financial assets for which the Company and its subsidiaries have no reasonable expectations of recovering either the entire outstanding amount, or a proportion thereof, the gross carrying amount of the financial asset is reduced. This is considered a (partial) derecognition of the financial asset.

In its expected credit loss models, the Company and its subsidiaries relies on a broad range of forward-looking information as economic input(s), which is Indonesia Stock Exchange (IDX) Composite.

Definition of default and cure

The Company and its subsidiaries considers a financial instrument defaulted and therefore Stage 3 (credit impaired) for expected credit loss calculations in all cases when:

- *the borrower/ reguler customer becomes 2 days past due on its contractual payments,*
- *the borrower/margin customer has a receivable ratio value compared to the collateral shares value greater than 75% or the collateral shares suspended,*
- *the borrower/customer who enters into a repo agreement has a receivable ratio value compared to the collateral share value greater than 75% or the collateral shares suspended,*
- *borrowers/customers who make other receivables are 90 days in arrears from the contractual payments.*

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG SIGNIFIKAN (lanjutan)

m. Penurunan nilai atas aset keuangan dan non - keuangan (lanjutan)

Definisi gagal bayar dan pulih (lanjutan)

Merupakan kebijakan Perusahaan dan entitas anaknya untuk mempertimbangkan apakah instrumen keuangan dipulihkan dan oleh karena itu diklasifikasi keluar dari *Stage* 3 ketika tidak ada kriteria gagal bayar selama periode tertentu. Keputusan untuk mengklasifikasikan aset sebagai *Stage* 2 atau *Stage* 1 setelah pulih tergantung pada tingkat kredit terkini, pada waktu pulih, dan hal ini mengindikasikan adanya kenaikan signifikan pada risiko kredit yang dibandingkan pada saat pengakuan awal.

Proses estimasi *probability of defaults*

Divisi Manajemen Risiko Perusahaan dan entitas anaknya menggunakan data-data historis nasabah untuk menentukan *probability of defaults*. *Probability of defaults* kemudian dipakai untuk perhitungan kerugian kredit ekspektasian PSAK 71 dan klasifikasi *Stage* PSAK 71 atas eksposur.

Loss given default

Penilaian risiko kredit didasarkan atas kerangka penilaian *loss given defaults* yang menghasilkan tingkat *loss given defaults* tertentu. Tingkat *loss given defaults* ini mempertimbangkan ekspektasi *exposure at defaults* dengan perbandingan terhadap ekspektasi nilai terpulihkan atau terealisasikan dari berbagai agunan yang dimiliki.

Exposure at default

Exposure at default merepresentasikan nilai tercatat bruto instrumen keuangan dan *credit conversion factor* yang bergantung pada penurunan nilai, menangani kemampuan nasabah untuk meningkatkan eksposurnya pada saat mendekati gagal bayar (*default*).

Nilai tercatat aset keuangan diturunkan melalui akun cadangan dan jumlah kerugian yang terjadi diakui pada laporan laba rugi dan penghasilan komprehensif lain. Pendapatan bunga tetap diakui atas nilai tercatat yang telah diturunkan tersebut berdasarkan tingkat suku bunga efektif awal yang digunakan untuk mendiskonto arus kas masa datang dari aset tersebut.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m. Impairment losses on financial assets and non - financial assets (continued)

Definition of default and cure (continued)

It is the Company and its subsidiaries's policy to consider a financial instrument as 'cured' and therefore re-classified out of Stage 3 when none of the default criteria have been present for certain periods. The decision whether to classify an asset as Stage 2 or Stage 1 once cured depends on the updated credit grade, at the time of the cure, and whether this indicates that there has been a significant increase in credit risk compared to initial recognition.

Probability of defaults estimation process

The Company and its subsidiaries's Risk Management Division uses historical data from customers to determine the probability of defaults. PDs are then used for SFAS 71 expected credit loss calculations and the SFAS 71 Stage classification of the exposure.

Loss given default

The credit risk assessment is based on a loss given default assessment framework that results in a certain loss given default rate. These loss given default rates take into account the expected exposure at defaults in comparison to the amount expected to be recovered or realised from any collateral held.

Exposure at default

The exposure at default represents the gross carrying amount and credit conversion factor of the financial instruments subject to the impairment calculation, addressing both the client's ability to increase its exposure while approaching default.

The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognized in the statement of profit or loss and other comprehensive income. Interest income continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring impairment loss.

m. Penurunan nilai atas aset keuangan dan non - keuangan (lanjutan)

Exposure at default (lanjutan)

Jika pada periode berikutnya, jumlah estimasi kerugian penurunan nilai meningkat atau menurun karena peristiwa yang terjadi setelah pengakuan kerugian penurunan nilai, maka kerugian penurunan nilai yang sudah diakui sebelumnya dinaikkan atau diturunkan dengan menyesuaikan akun cadangan.

Aset keuangan dan cadangan yang terkait dihapuskan jika tidak ada peluang yang realistis untuk pengembalian di masa yang akan datang ketika Perusahaan dan entitas anaknya tidak memiliki ekspektasi yang wajar untuk memulihkan arus kas kontraktual atas aset keuangan secara keseluruhan atau sebagian, yang dicatat sebagai pengurang akun cadangan kerugian penurunan nilai di laporan laba rugi dan penghasilan komprehensif lain.

n. Aset hak-guna dan liabilitas sewa

Perusahaan dan entitas anaknya telah menerapkan Pernyataan Standar Akuntansi Keuangan (PSAK) 73 “Sewa” sejak tanggal 1 Januari 2020.

PSAK 73 menerapkan persyaratan baru atau amandemen sehubungan dengan akuntansi sewa. Standar ini memperkenalkan perubahan signifikan untuk akuntansi lessee dengan menghapus perbedaan antara sewa operasi dan pembiayaan, serta mensyaratkan pengakuan aset hak guna dan pengakuan liabilitas sewa pada saat dimulainya sewa untuk seluruh sewa, kecuali untuk sewa jangka pendek dan sewa aset bernilai rendah. Berbeda dengan akuntansi lessee, persyaratan untuk akuntansi lessor sebagian besar tidak berubah. Dampak dari adopsi PSAK 73 pada Laporan Keuangan Konsolidasian dijelaskan di bawah ini.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

m. Impairment losses on financial assets and non - financial assets (continued)

Exposure at default (continued)

If, in subsequent period, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account.

Financial assets together with the associated allowance are written-off when there is no realistic prospect of future recovery when the Company and its subsidiaries have no reasonable expectations of recovering the contractual cash flows on a financial asset in its entirety or portion thereof is recorded as a reduction of allowance for impairment loss account in the statement of profit or loss and other comprehensive income.

n. Right-of-use assets and lease liabilities

The Company and its subsidiaries have adopted Indonesian Statement of Financial Accounting Standards (SFAS) 73 "Leases" since the date January 1, 2020.

SFAS 73 applies new requirements or amendments in connection with lease accounting. This standard introduces significant changes to the lessee's accounting by eliminating the difference between operating and financing leases, and requires the recognition of use rights assets and the recognition of lease liabilities at inception for all leases, except for short-term leases and low-value asset leases. In contrast to lessee accounting, the requirements for lessor accounting are largely unchanged. The impact of the adoption of PSAK 73 on the consolidated financial statements is described below.

n. Aset hak-guna dan liabilitas sewa (lanjutan)

Tanggal penerapan awal PSAK 73 untuk Perusahaan dan entitas anaknya adalah 1 Januari 2020. Perusahaan dan entitas anaknya telah menerapkan PSAK 73 menggunakan pendekatan retrospektif yang dimodifikasi dengan mengakui dampak kumulatif dari awal penerapan PSAK 73. Dengan demikian, informasi komparatif yang disajikan untuk tahun 2019 tidak disajikan kembali sebagaimana dilaporkan sebelumnya, pada PSAK 30 dan interpretasi terkait.

(a) Dampak definisi baru dari sewa

Perubahan utama dari definisi sewa berkaitan dengan konsep pengendalian. PSAK 73 menentukan apakah kontrak merupakan, atau mengandung sewa atas dasar jika penyewa memiliki hak untuk mengendalikan penggunaan aset selama suatu jangka waktu tertentu untuk dipertukarkan dengan imbalan. Hal tersebut merupakan perbedaan penentuan kontrak merupakan, atau mengandung sewa berdasarkan PSAK 30 yaitu dengan konsep risiko dan manfaat.

Perusahaan dan entitas anaknya menerapkan definisi sewa dan panduan terkait yang diterapkan dalam PSAK 73 untuk semua kontrak yang dicatat atau diubah pada tanggal 1 Januari 2020.

Perusahaan dan entitas anaknya menggunakan tingkat diskonto tunggal untuk portofolio sewa dengan karakteristik yang hampir sama.

(b) Dampak pada akuntansi *lessee*

Perusahaan dan entitas anaknya menerapkan pendekatan pengakuan dan pengukuran tunggal untuk seluruh sewa, kecuali untuk sewa jangka pendek dan sewa aset bernilai rendah. Perusahaan dan entitas anaknya mengakui liabilitas sewa untuk melakukan pembayaran sewa dan aset hak guna yang mewakili hak untuk menggunakan aset pendasar.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

n. Right-of-use assets and lease liabilities (continued)

The date of initial application of SFAS 73 for the Company and its subsidiaries is January 1, 2020. The Company and its subsidiaries have adopted this SFAS 73 uses a modified retrospective approach that recognizes impacts cumulative from the beginning of the application of SFAS 73. Accordingly, comparative information is presented for 2019 not restated as previously reported, in SFAS 30 and related interpretations.

(a) Impact of the new definition of a lease

The main change in the definition of a lease relates to the concept of control. SFAS 73 determines whether a contract is, or contains a lease on the basis that the lessee has the right to control the use of the asset for a specified period of time in exchange for consideration. This is the difference in determining whether a contract is, or contains a lease based on SFAS 30, with the concept of risk and benefit.

The Company and its subsidiaries apply the definition of leases and the related guidelines that are applied in SFAS 73 for all contracts that are recorded or amended on January 1, 2020.

The Company and its subsidiaries use a single discount rate for lease portfolios with similar characteristics.

(b) Impact on the lessee's accounting

The Company and its subsidiaries apply a single recognition and measurement approach to all leases, except for short-term leases and low-value asset leases. The Company and its subsidiaries recognize a lease liability to make lease payments and right-of-use assets that represent the right to use the underlying asset.

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG PENTING (lanjutan)

n. Aset hak-guna dan liabilitas sewa (lanjutan)

Perusahaan dan entitas anaknya mengakui aset hak-guna pada tanggal dimulainya sewa. Aset hak-guna diukur pada biaya perolehan, dikurangi akumulasi penyusutan dan kerugian penurunan nilai, dan disesuaikan untuk setiap pengukuran kembali liabilitas sewa. Liabilitas sewa merupakan jumlah pembayaran sewa yang masih harus dibayar hingga akhir masa sewa yang didiskontokan dengan menggunakan suku bunga pinjaman inkremental. Biaya aset hak-guna mencakup jumlah liabilitas sewa yang diakui, biaya langsung awal yang dibayarkan, biaya pemulihan dan pembayaran sewa yang dilakukan pada atau sebelum tanggal mulai sewa dikurangi insentif sewa yang diterima. Aset hak-guna disusutkan dengan metode garis lurus selama jangka waktu yang lebih pendek antara masa sewa dengan estimasi masa manfaat aset.

Pada tanggal dimulainya sewa, Perusahaan dan entitas anaknya mengakui liabilitas sewa yang diukur pada nilai kini dari pembayaran sewa masa depan yang akan dilakukan selama masa sewa. Pembayaran sewa termasuk pembayaran tetap (termasuk pembayaran tetap secara-substansi) dikurangi piutang insentif sewa, pembayaran sewa variabel yang bergantung pada indeks atau suku bunga, dan jumlah yang diharapkan akan dibayar dalam jaminan nilai residu. Pembayaran sewa juga termasuk harga eksekusi opsi pembelian yang wajar jika dipastikan akan dilakukan oleh Perusahaan dan entitas anaknya dan pembayaran penalti untuk mengakhiri sewa, jika jangka waktu sewa mencerminkan Perusahaan dan entitas anaknya mengeksekusi opsi penghentian sewa. Pembayaran sewa variabel yang tidak bergantung pada indeks atau suku bunga diakui sebagai beban pada periode di mana peristiwa atau kondisi yang memicu pembayaran terjadi.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

n. Right-of-use assets and lease liabilities (continued)

The Company and its subsidiaries recognize right-of-use assets at the inception date of the lease. Right-of-use assets are measured at cost, less accumulated depreciation and impairment losses, and adjusted for any remeasurement of the lease liabilities. Lease liabilities are the amount of lease payments accrued until the end of the lease term, discounted using the incremental loan interest rate. The cost of lease assets includes the amount of lease liability recognized, initial direct costs paid, recovery costs and lease payments made on or before the start date of the lease less lease incentives received. Right-of-use assets are depreciated using the straight-line method over the shorter period between the lease term and the estimated useful life of the asset.

At the inception date of the lease, the Company and its subsidiaries recognize lease liabilities at the present value of future lease payments that will be made over the lease term. Lease payments include fixed payments (including substantially fixed payments) less lease incentive receivables, variable lease payments that are index or interest rate dependent, and the amount expected to be paid in a residual value guarantee. Lease payments also include the reasonable exercise price for the purchase option if it is determined to be made by the Company and its subsidiaries and the payment of a penalty to terminate the lease, if the lease term reflects the Company and its subsidiaries exercising the lease termination option. Variable lease payments that are not dependent on an index or interest rate are recognized as an expense in the period in which the event or condition that triggers the payment occurs.

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG PENTING (lanjutan)

n. Aset hak-guna dan liabilitas sewa (lanjutan)

Dalam menghitung nilai kini dari pembayaran sewa, Perusahaan dan entitas anaknya menggunakan suku bunga pinjaman inkremental penyewa pada tanggal dimulainya sewa karena suku bunga implisit dalam sewa tidak dapat ditentukan. Setelah tanggal dimulainya sewa, jumlah liabilitas sewa ditingkatkan untuk mencerminkan pertambahan bunga dan dikurangi pembayaran sewa yang dilakukan. Selain itu, jumlah tercatat liabilitas sewa diukur kembali jika terdapat modifikasi, perubahan jangka waktu sewa, perubahan pembayaran sewa, atau perubahan dalam penilaian opsi untuk membeli aset pendasar.

Sewa jangka pendek dengan durasi kurang dari 12 bulan dan sewa aset bernilai rendah, serta elemen-elemen sewa tersebut, sebagian atau seluruhnya tidak menerapkan prinsip-prinsip pengakuan yang ditentukan oleh PSAK 73 akan diperlakukan sama dengan sewa operasi pada PSAK 30. Perusahaan dan etntias anaknya akan mengakui pembayaran sewa tersebut dengan dasar garis lurus selama masa sewa dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian. Beban ini ditunjukkan pada beban umum dan administrasi dalam laporan laba rugi.

Penerapan pencatatan PSAK 73 berlaku untuk seluruh sewa (kecuali sebagaimana yang disebutkan sebelumnya), yaitu sebagai berikut:

a) Menyajikan aset hak-guna sebagai bagian dari aset tetap dan liabilitas sewa disajikan tersendiri dalam laporan posisi keuangan konsolidasian, yang diukur pada nilai kini dari pembayaran sewa masa depan;

b) Mencatat penyusutan aset hak-guna dan bunga atas liabilitas sewa dalam laporan laba rugi dan penghasilan komprehensif konsolidasian; dan

c) Memisahkan jumlah total pembayaran ke bagian pokok (disajikan dalam kegiatan pendanaan) dan bunga (disajikan dalam kegiatan operasional) dalam laporan arus kas konsolidasian.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

n. Right-of-use assets and lease liabilities (continued)

In calculating the present value of lease payments, the Company and its subsidiaries use the incremental loan interest rate of the lessee at the inception date of the lease because the interest rate implicit in the lease cannot be determined. After the commencement date of the lease, the amount of the lease liability is increased to reflect the increase in interest and less lease payments made. In addition, the carrying amount of the lease liability is remeasured if there are modifications, changes in the term of the lease, changes in lease payments, or changes in the valuation of the option to purchase the underlying asset.

Short-term leases with a duration of less than 12 months and leases of low value assets, as well as elements of such leases, partially or wholly do not apply the recognition principles prescribed by SFAS 73 will be treated the same as operating leases in SFAS 30. The Company and its subsidiaries will recognize the payment lease on a straight-line basis over the lease term in the consolidated statement of profit or loss and other comprehensive income. This expense is shown under general and administrative expenses in the income statement.

The application of SFAS 73 listing applies to all leases (except as stated earlier), which are as follows:

a) Present right-of-use assets as part of property, plant and equipment and lease liabilities are presented separately in the consolidated statements of financial position, measured at the present value of future lease payments;

b) Record the depreciation of the right-of-use assets and interest on the lease liability in the consolidated statement of profit or loss and comprehensive income; and

c) Separating the total payment into principal (presented in financing activities) and interest (presented in operating activities) in the consolidated statement of cash flows.

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG PENTING (lanjutan)

n. Aset hak-guna dan liabilitas sewa (lanjutan)

Kebijakan terkait Sewa sebelum tanggal 1 Januari 2020

Berdasarkan PSAK No. 30 (Revisi 2011) tentang "Sewa", penentuan apakah suatu perjanjian merupakan perjanjian sewa atau perjanjian yang mengandung sewa didasarkan atas substansi perjanjian pada tanggal awal sewa dan apakah pemenuhan perjanjian tergantung pada penggunaan suatu aset dan perjanjian tersebut memberikan suatu hak untuk menggunakan aset tersebut. Menurut PSAK ini, sewa yang mengalihkan secara substansial seluruh risiko dan manfaat yang terkait dengan kepemilikan aset, diklasifikasikan sebagai sewa pembiayaan. Selanjutnya, suatu sewa diklasifikasikan sebagai sewa operasi, jika sewa tidak mengalihkan secara substansi seluruh risiko dan manfaat yang terkait dengan kepemilikan aset.

Dalam sewa pembiayaan, Perusahaan dan entitas anaknya mengakui aset dan liabilitas dalam laporan posisi keuangan konsolidasian pada awal masa sewa, sebesar nilai wajar aset sewaan atau sebesar nilai kini dari pembayaran sewa minimum, jika nilai kini lebih rendah dari nilai wajar. Pembayaran sewa dipisahkan antara bagian yang merupakan beban keuangan dan bagian yang merupakan pelunasan liabilitas sewa. Beban keuangan dialokasikan pada setiap periode selama masa sewa, sehingga menghasilkan tingkat suku bunga periodik yang konstan atas saldo liabilitas. Beban keuangan dicatat dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian. Aset sewa (disajikan sebagai bagian aset tetap) disusutkan selama jangka waktu yang lebih pendek antara umur manfaat aset sewa dan periode masa sewa, jika tidak ada kepastian yang memadai bahwa Perusahaan dan entitas anaknya akan mendapatkan hak kepemilikan pada akhir masa sewa.

Dalam sewa operasi, Perusahaan dan entitas anaknya mengakui pembayaran sewa sebagai beban dengan dasar garis lurus (*straight-line basis*) selama masa sewa.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

n. Right-of-use assets and lease liabilities (continued)

Lease policies before January 1, 2020

Based on SFAS No. 30 (Revised 2011) regarding "Lease", determines whether an agreement is a lease agreement or an agreement containing a lease based on the substance of the agreement at the inception date of the lease and whether fulfillment of the agreement depends on the use of an asset and the agreement gives a right to use the asset. According to this SFAS, leases that transfer substantially all the risks and rewards incidental to ownership are classified as finance leases. Further, a lease is classified as an operating lease, if the lease does not transfer substantially all the risks and rewards incidental to ownership of the asset.

Under a financial lease, the Company and its subsidiaries recognize assets and liabilities in the consolidated statement of financial position at the beginning of the lease term, at the fair value of the leased asset or at the present value of the minimum lease payments, if the present value is lower than fair value. Lease payments are separated between the portion that represents the financial expense and the portion that represents the settlement of the lease liability. Financial expense are allocated to each period during the lease term, resulting in a constant periodic interest rate on the balance of the liability. Financial expense are recorded in the consolidated statement of profit or loss and other comprehensive income. Leased assets (presented as part of property, plant and equipment) are depreciated over the shorter period between the useful lives of the leased assets and the lease term, if there is no assurance that the Company and its subsidiaries will acquire ownership rights at the end of the lease term.

Under an operating lease, the Company and its subsidiaries recognize lease payments as an expense on a straight-line basis over the lease term.

n. Aset hak-guna dan liabilitas sewa (lanjutan)

Kebijakan terkait sebelum tanggal 1 Januari 2020 (lanjutan)

Jika suatu perjanjian sewa mengandung elemen tanah dan bangunan, maka Perusahaan dan entitas anaknya menilai klasifikasi dari setiap elemen tersebut sebagai sewa pembiayaan atau sewa operasi secara terpisah.

o. Liabilitas imbalan kerja karyawan

Perusahaan dan entitas anaknya menerapkan PSAK No. 24 (Revisi 2013), "Imbalan Kerja". Revisi PSAK ini antara lain mengharuskan Perusahaan dan entitas anaknya untuk menerapkan pengakuan langsung atas keuntungan/kerugian aktuaria yang terjadi pada tahun berjalan ke dalam penghasilan komprehensif lain.

Imbalan kerja jangka pendek

Imbalan kerja jangka pendek seperti upah, iuran jaminan sosial, cuti jangka pendek, bonus dan imbalan non-moneter lainnya diakui selama periode jasa diberikan. Imbalan kerja jangka pendek diukur sebesar jumlah yang tidak didiskontokan.

Program pensiun iuran pasti

Iuran terutang kepada dana pensiun sebesar persentase tertentu gaji pegawai yang menjadi peserta program pensiun iuran pasti Perusahaan dan entitas anaknya dicadangkan dan diakui sebagai biaya ketika jasa tersebut telah diberikan oleh pegawai-pegawai yang memenuhi kriteria tersebut kepada Perusahaan dan entitas anaknya. Pembayaran aktual dikurangkan dari iuran terutang. Iuran terutang diukur berdasarkan jumlah yang tidak didiskontokan.

n. Right-of-use assets and lease liabilities (continued)

Lease policies before January 1, 2020 (continued)

If a lease contains land and building elements, the Company and its subsidiaries assess the classification of each element as a finance or operating lease separately.

o. Liability for employee benefits

The Company and its subsidiaries adopted SFAS No. 24 (Revised 2013), "Employee Benefits". The revised SFAS requires the Company and its subsidiaries to adopt immediate recognition of actuarial gains/losses in the year in which they occur in other comprehensive income.

Short-term employee benefits

Short-term employee benefits such as wages, social security contributions, short-term compensated leaves, bonuses and other non-monetary benefits are recognized during the period when services have been rendered. Short-term employee benefits are measured using undiscounted amounts.

Defined contribution pension plan

Contribution payable to a pension fund equivalent to a certain percentage of salaries for qualified employees under the Company and its subsidiaries defined contribution plan is accrued and recognized as expense when services have been rendered by qualified employees to the Company and its subsidiaries. Actual payments are deducted from the contribution payable. Contribution payable is measured using undiscounted amounts.

o. Liabilitas imbalan kerja karyawan (lanjutan)

Program imbalan pasti dan imbalan kerja jangka panjang lainnya

Imbalan pasca-kerja dan imbalan kerja jangka panjang lainnya seperti cuti panjang dan penghargaan dicadangkan dan diakui sebagai biaya ketika jasa telah diberikan oleh pegawai yang memenuhi kriteria. Imbalan kerja ditentukan berdasarkan peraturan Perusahaan dan entitas anaknya dan persyaratan minimum Undang-undang Tenaga Kerja No. 13/2003, menggunakan nilai yang lebih tinggi.

Imbalan pasca-kerja dan imbalan kerja jangka panjang lainnya secara aktuaria ditentukan berdasarkan metode projected unit credit.

Pengukuran kembali atas liabilitas (aset) imbalan pasti neto, yang diakui sebagai penghasilan komprehensif lain, terdiri atas:
(i) Keuntungan dan kerugian aktuarial.
(ii) Imbal hasil atas aset program, tidak termasuk jumlah yang dimasukkan dalam bunga neto atas liabilitas (aset).
(iii) Setiap perubahan dampak batas aset, tidak termasuk jumlah yang dimasukkan dalam bunga neto atas liabilitas (aset).

Pengukuran kembali atas liabilitas (aset) imbalan pasti neto, yang diakui sebagai penghasilan komprehensif lain tidak direklasifikasi ke laba rugi pada periode berikutnya.

Untuk imbalan kerja jangka panjang lain atas biaya jasa kini, biaya bunga neto atas liabilitas (aset) imbalan pasti neto, dan pengukuran kembali liabilitas (aset) imbalan pasti neto langsung diakui pada laporan laba rugi dan penghasilan komprehensif lain tahun berjalan. Sehingga biaya jasa lalu yang belum *vested* tidak lagi dapat ditangguhkan dan diakui selama periode *vesting* masa depan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

o. Liability for employee benefits (continued)

Defined benefit plan and other long-term employee benefits

Post-employment benefits and other long-term employee benefits such as long service leave and awards are accrued and recognized as expense when services have been rendered by qualified employees. The benefits are determined based on the Company's regulations and the minimum requirements of Labor Law No. 13/2003, whichever is higher.

The post-employment benefits and other long-term employee benefits are actuarially determined using the projected unit credit method.

Remeasurement of defined benefit liabilities (assets) net, which is recognized as other comprehensive income consist of:
(i) Actuarial gain and losses.
(ii) Return on plan assets, excluding amounts that is included in net interest on liabilities (assets).
(iii) The effect of the asset ceiling, excluding amounts included in the net interest of liabilities (assets).

Remeasurement of defined benefit liabilities (assets) - net, which is recognized as other comprehensive income is not reclassified to profit or loss in the subsequent periods.

For other long-term employee benefits: current service cost, net interest expense of net defined benefit assets liabilities (assets), and re-measurement of liability (asset) is recognized immediately in the current year statement of profit or loss and other comprehensive income. Therefore, unvested past service cost can no longer be deferred and recognized over the future vesting period.

p. Provisi

Provisi diakui ketika Perusahaan dan entitas anaknya memiliki kewajiban kini (baik bersifat hukum maupun konstruktif) sebagai akibat peristiwa masa lalu dan besar kemungkinan Perusahaan dan entitas anaknya diharuskan menyelesaikan kewajiban dan estimasi andal mengenai total kewajiban tersebut dapat dilakukan.

Nilai yang diakui sebagai provisi merupakan estimasi terbaik dan pertimbangan yang diperlukan untuk menyelesaikan provisi pada akhir periode pelaporan, dengan memperhatikan unsur risiko dan ketidakpastian yang melekat pada kewajiban. Provisi diukur menggunakan estimasi arus kas untuk menyelesaikan kewajiban kini dengan nilai tercatatnya sebesar nilai kini dari arus kas tersebut.

Ketika beberapa atau seluruh manfaat ekonomis untuk penyelesaian provisi yang diharapkan dapat dipulihkan dari pihak ketiga, piutang diakui sebagai aset apabila terdapat kepastian bahwa penggantian akan dapat diterima dan nilai piutang dapat diukur secara andal.

q. Pengakuan pendapatan dan beban

Pendapatan

Pendapatan komisi sebagai perantara pedagang portofolio efek diakui pada saat transaksi terjadi. Pendapatan dividen dari portofolio efek saham diakui pada saat emiten mengumumkan pembayaran dividen.

Pendapatan dari jasa manajer investasi dan jasa penasihat investasi diakui pada saat jasa diberikan sesuai dengan ketentuan dalam kontrak.

Pendapatan bunga dari penempatan deposito berjangka, investasi kontrak pengelolaan dana dan lainnya, dan piutang marjin diakui ketika diperoleh berdasarkan basis akrual.

Keuntungan (kerugian) dari perdagangan portofolio efek meliputi keuntungan (kerugian) yang timbul dari penjualan portofolio efek dan keuntungan (kerugian) yang belum direalisasi akibat perubahan nilai wajar portofolio efek.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

p. Provisions

Provisions are recognized when the Company and its subsidiaries have a present obligation (legal or constructive) as a result of a past event and it is probable that the Company and its subsidiaries will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

q. Revenue and expense recognition

Revenue

Brokerage commission income related to intermediaries for securities trading are recognized on the date of transactions. Dividends income from shares is recognized upon declaration by the issuers of the equity securities.

Fees from investment manager and advisory services are recognized when the services are rendered based on the terms of the contracts.

Interest income from time deposit, investment management contract and others, and margin receivables are recognized when earned on an accrual basis.

Gains (losses) on trading of marketable securities consist of gains (losses) on securities sold and unrealized gains (losses) from changes in the fair value of marketable securities.

q. Pengakuan pendapatan dan beban (lanjutan)

Pendapatan (lanjutan)

Jasa penjaminan emisi portofolio efek diakui pada saat aktivitas penjaminan emisi secara substansi telah selesai dan total pendapatan telah dapat ditentukan.

Beban

Beban yang terjadi sehubungan dengan perdagangan efek untuk nasabah reguler maupun marjin, manajemen investasi dan penasihat investasi dibebankan pada saat terjadi.

Beban yang timbul sehubungan dengan proses penjaminan emisi diakumulasikan dan dibebankan pada saat pendapatan penjaminan emisi diakui. Dalam hal kegiatan penjaminan emisi tidak diselesaikan dan emisi portofolio efek dibatalkan, maka beban penjaminan emisi tersebut dibebankan langsung sebagai laba rugi tahun berjalan.

Beban lainnya diakui atas dasar akrual.

r. Perpajakan

Perusahaan dan entitas anaknya menerapkan PSAK No. 46 (Revisi 2014), "Pajak Penghasilan". PSAK revisi ini mengatur perlakuan akuntansi untuk pajak penghasilan.

Pajak Final

Peraturan perpajakan di Indonesia mengatur beberapa jenis penghasilan dikenakan pajak yang bersifat final. Pajak final yang dikenakan atas nilai bruto transaksi tetap dikenakan walaupun atas transaksi tersebut pelaku transaksi mengalami kerugian.

Mengacu pada revisi PSAK No. 46 yang disebutkan di atas, pajak final tersebut tidak termasuk dalam lingkup yang diatur oleh PSAK No. 46. Oleh karena itu, Perusahaan memutuskan untuk menyajikan beban pajak final sehubungan dengan bunga obligasi, deposito dan tabungan sebagai pos tersendiri.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

q. Revenue and expense recognition (continued)

Revenue (continued)

Underwriting fees are recognized when underwriting activities are substantially completed and the amount of income has been determined.

Expenses

Expenses relating to trading securities of both regular and margin customers, investment management and advisory services are recognized when incurred.

Expenses incurred relating to underwriting activities are accumulated and charged against income when underwriting fees are recognized. When the underwriting activities are not completed and shares issuance is cancelled, the underwriting expenses are charged to the current year's profit or loss.

Other expenses are recognized on an accrual basis.

r. Taxation

The Company and its subsidiaries applied SFAS No. 46 (Revised 2014), "Income Taxes". The revised SFAS prescribes the accounting treatment for income taxes.

Final Tax

Tax regulation in Indonesia determined that certain taxable income is subject to final tax. Final tax applied to the gross value of transactions is applied even when the parties carrying the transaction recognizing losses.

Referring to revised SFAS No. 46 as mentioned above, final tax is no longer governed by SFAS No. 46. Therefore, the Company has decided to present all of the final tax arising from interest of bonds, time deposits and savings as separate line item.

r. Perpajakan (lanjutan)

Pajak Final (lanjutan)

Perbedaan antara nilai tercatat dari aset revaluasian dan dasar pengenaan pajak merupakan perbedaan termporer sehingga menimbulkan liabilitas atau aset pajak tangguhan, kecuali untuk aset tertentu seperti tanah yang pada saat realisasinya dikenakan pajak final yang dikenakan atas nilai bruto transaksi.

Pajak Kini

Aset dan liabilitas pajak kini untuk tahun berjalan diukur sebesar jumlah yang diharapkan dapat direstitusi dari atau dibayarkan kepada otoritas perpajakan.

Beban pajak kini ditentukan berdasarkan laba kena pajak tahun berjalan yang dihitung berdasarkan tarif pajak yang berlaku.

Kekurangan/kelebihan pembayaran pajak penghasilan dicatat sebagai bagian dari "Beban Pajak Kini" dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian. Perusahaan dan entitas anaknya juga menyajikan bunga/denda, jika ada, sebagai bagian dari "Beban Pajak Kini".

Koreksi terhadap liabilitas perpajakan diakui pada saat surat ketetapan pajak diterima atau, jika diajukan keberatan, pada saat keputusan atas keberatan ditetapkan.

Pajak Tangguhan

Aset dan liabilitas pajak tangguhan diakui menggunakan metode liabilitas atas konsekuensi pajak pada masa mendatang yang timbul dari perbedaan jumlah tercatat aset dan liabilitas menurut laporan keuangan dengan dasar pengenaan pajak aset dan liabilitas pada setiap tanggal pelaporan.

Liabilitas pajak tangguhan diakui untuk semua perbedaan temporer kena pajak dan aset pajak tangguhan diakui untuk perbedaan temporer yang boleh dikurangkan dan akumulasi rugi fiskal, sepanjang besar kemungkinan perbedaan temporer yang boleh dikurangkan dan akumulasi rugi fiskal tersebut dapat dimanfaatkan untuk mengurangi laba kena pajak pada masa depan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

r. Taxation (continued)

Final Tax (continued)

The difference between the carrying amount of a revalued asset and its tax base is a temporary difference and gives rise to a deferred tax liability or asset, except for certain asset such as land, which realization is taxed with final tax on gross value of transaction.

Current Tax

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authority.

Current tax expense is determined based on the taxable profit for the year computed using the prevailing tax rates.

Underpayment/overpayment of income tax are presented as part of "Tax Expense - Current" in the consolidated statement of profit or loss and other comprehensive income. The Company and its subsidiaries also presented interest/penalty, if any, as part of "Tax Expense - Current".

Amendments to tax obligations are recorded when a tax assessment letter is received or, if appealed against, when the result of the appeal is determined.

Deferred Tax

Deferred tax assets and liabilities are recognized using the liability method for the future tax consequences attributable to differences between the carrying amounts of existing assets and liabilities in the financial statements and their respective tax bases at each reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for deductible temporary differences and accumulated fiscal losses to the extent that it is probable that taxable profit will be available in future years against which the deductible temporary differences and accumulated fiscal losses can be utilized.

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG SIGNIFIKAN (lanjutan)

r. Perpajakan (lanjutan)

Pajak Tangguhan (lanjutan)

Jumlah tercatat aset pajak tangguhan ditelaah ulang pada akhir setiap periode pelaporan dan diturunkan apabila laba fiskal mungkin tidak memadai untuk mengkompensasi sebagian atau semua manfaat aset pajak tangguhan tersebut. Pada akhir setiap periode pelaporan, Perusahaan dan entitas anaknya menilai kembali aset pajak tangguhan yang tidak diakui. Perusahaan dan entitas anaknya mengakui aset pajak tangguhan yang sebelumnya tidak diakui apabila besar kemungkinan bahwa laba fiskal pada masa depan akan tersedia untuk pemulihannya.

Pajak tangguhan dihitung dengan menggunakan tarif pajak yang berlaku atau secara substansial telah berlaku pada tanggal pelaporan. Perubahan nilai tercatat aset dan liabilitas pajak tangguhan yang disebabkan oleh perubahan tarif pajak dibebankan pada usaha tahun berjalan, kecuali untuk transaksi-transaksi yang sebelumnya telah langsung dibebankan atau dikreditkan ke ekuitas.

Aset dan liabilitas pajak tangguhan disajikan secara saling hapus dalam laporan posisi keuangan konsolidasian, kecuali aset dan liabilitas pajak tangguhan untuk entitas yang berbeda, sesuai dengan penyajian aset dan liabilitas pajak kini.

s. Laba per saham

Laba per saham dasar dihitung dengan membagi laba tahun berjalan yang diatribusikan kepada pemilik entitas induk dengan rata-rata tertimbang total saham yang ditempatkan dan disetor penuh selama tahun yang bersangkutan.

t. Informasi segmen

Informasi segmen diungkapkan untuk memungkinkan pengguna laporan keuangan konsolidasian untuk mengevaluasi sifat dan dampak keuangan dari aktivitas bisnis yang mana Perusahaan dan entitas anaknya terlibat dalam lingkungan ekonomi dimana Perusahaan beroperasi.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

r. Taxation (continued)

Deferred Tax (continued)

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilized. At the end of each reporting period, the Company and its subsidiaries reassess unrecognized deferred tax assets. The Company and its subsidiaries recognize a previously unrecognized deferred tax asset to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax is calculated at the tax rates that have been enacted or substantively enacted at the reporting date. Changes in the carrying amount of deferred tax assets and liabilities due to a change in tax rates are charged to current year operations, except to the extent that they relate to items previously charged or credited to equity.

Deferred tax assets and liabilities are offset in the consolidated statement of financial position, except if they are for different legal entities, consistent with the presentation of current tax assets and liabilities.

s. Earnings per share

Earnings per share is computed by dividing income for the year attributable to equity holders of the parent entity by the weighted average number of issued and fully paid shares during the related year.

t. Segment information

Segment information is disclosed to enable users of the consolidated financial statement to evaluate the nature and financial effects of the business activities in which the Company and its subsidiaries is involved in and the economic environment where the Company operates.

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG SIGNIFIKAN (lanjutan)

t. Informasi segmen (lanjutan)

Perusahaan dan entitas anaknya menentukan dan menyajikan segmen operasi berdasarkan informasi yang secara internal diberikan kepada pengambil keputusan operasional. Pengambil keputusan operasional Perusahaan adalah Direksi.

Segmen operasi adalah suatu komponen dari entitas:

a) yang terlibat dalam aktivitas bisnis yang mana memperoleh pendapatan dan menimbulkan beban (termasuk pendapatan dan beban terkait dengan transaksi dengan komponen lain dari entitas yang sama);

b) hasil operasinya dikaji ulang secara reguler oleh pengambil keputusan operasional perusahaan untuk membuat keputusan tentang sumber daya yang dialokasikan pada segmen tersebut dan menilai kinerjanya; dan

c) tersedia informasi keuangan yang dapat dipisahkan.

Perusahaan mengungkapkan segmen operasionalnya berdasarkan segmen usaha yang meliputi perantara perdagangan efek dan penjaminan emisi efek, serta kegiatan manajer investasi. Segmen pendapatan, biaya, hasil, aset dan liabilitas, termasuk bagian yang dapat diatribusikan langsung kepada segmen, serta yang dapat dialokasikan dengan dasar yang memadai untuk segmen tersebut

u. Modal saham diperoleh kembali

Perusahaan menetapkan metode biaya (*cost method*) dalam mencatat modal saham diperoleh kembali (*treasury stock*).

Modal saham diperoleh kembali dicatat sebesar harga perolehan kembali saham dan disajikan sebagai pengurang modal saham dalam laporan posisi keuangan konsolidasian. Selisih lebih penerimaan dari penjualan modal saham yang diperoleh kembali di masa yang akan datang atas biaya perolehan atau sebaliknya, akan diperhitungkan sebagai penambah atau pengurang akun agio saham.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

t. Segment information (continued)

The Company and its subsidiaries determine and present operating segments based on the information that is internally provided to the chief operating decision maker. The Company and its subsidiaries' chief operating decision maker is the Board of Directors.

An operating segment is a component of an entity:

a) that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity);

b) whose operating results are reviewed regularly by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance; and

c) for which discrete financial information is available.

The Company discloses its operating segments based on business segments that consist of brokerage and underwriting, and investment manager activities. Segment revenues, expenses, income, assets and liabilities include ítems directly attributable to a segment as well as those that can be allocated on a reasonable basis to that segment.

u. Treasury shares

The Company adopts cost method in recording its treasury shares.

The treasury shares are recorded at its acquisition cost and presented as a contra equity account in the consolidated statement of financial position. The excess of proceeds from future re-sale of treasury stock over the related acquisition cost or vice-versa is accounted for as an addition to or deduction from additional paid-in capital.

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG SIGNIFIKAN (lanjutan)

v. Biaya emisi saham

Beban yang terjadi sehubungan dengan Penawaran Umum Terbatas dengan Hak Memesan Efek Terlebih Dahulu (Rights Issue), dicatat sebagai pengurang tambahan modal disetor, yang merupakan selisih antara nilai yang diterima dari pemegang saham dengan nilai nominal saham.

Dalam menerapkan kebijakan akuntansi Perusahaan dan entitas anaknya, seperti dijelaskan dalam Catatan 2 atas laporan keuangan konsolidasian, manajemen diharuskan untuk membuat pertimbangan, estimasi dan asumsi mengenai nilai tercatat aset dan liabilitas yang tidak tersedia dari sumber lain. Estimasi dan asumsi terkait berdasarkan pengalaman masa lalu dan faktor lain yang dipertimbangkan menjadi relevan. Realisasi dapat berbeda dengan total yang diestimasi.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

v. Shares issuance costs

Cost incurred in relation with Limited Public Offering with Pre-emptive Rights (Rights Issue) is recorded as deduction from the additional paid-up capital which represents the excess of funds received from the shareholders over the par value of share.

In the application of the Company and its subsidiaries' accounting policies, which are described in Note 2 to consolidated financial statements, managements are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

3. PERTIMBANGAN, ESTIMASI, DAN ASUMSI AKUNTANSI YANG SIGNIFIKAN

Pertimbangan yang signifikan

a. Usaha yang berkelanjutan

Manajemen telah melakukan penilaian atas kemampuan Perusahaan dan entitas anaknya untuk melanjutkan kelangsungan usahanya dan berkeyakinan bahwa Perusahaan dan entitas anaknya memiliki sumber daya untuk melanjutkan usahanya di masa mendatang.

Selain itu, manajemen tidak mengetahui adanya ketidakpastian material yang dapat menimbulkan keraguan yang signifikan terhadap kemampuan Perusahaan dan entitas anaknya untuk mempertahankan kelangsungan hidupnya. Oleh karena itu, laporan keuangan konsolidasian telah disusun atas dasar usaha yang berkelanjutan.

b. Nilai wajar atas instrumen keuangan

Dalam rangka penerapan PSAK No. 68, "Pengukuran Nilai Wajar", Perusahaan dan entitas anaknya menyajikan nilai wajar atas instrumen keuangan berdasarkan hierarki nilai wajar berikut:

3. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES, AND ASSUMPTIONS

Significant judgments

a. Going concern

The management has assessed that the Company and its subsidiaries' ability to continue as a going concern and believes that the Company and its subsidiaries have the resources to continue their business in the future.

In addition, management was not aware of any material uncertainty which may cast significant doubt to the Company and its subsidiaries' ability to continue as a going concern. Therefore, the consolidated financial statements have been prepared on a going concern basis.

b. Fair value of financial instruments

Upon the adoption of SFAS No. 68, the Company and its subsidiaries present the fair value of financial instruments based on the following fair value hierarchy:

3. PERTIMBANGAN, ESTIMASI, DAN ASUMSI AKUNTANSI YANG SIGNIFIKAN (lanjutan)

Pertimbangan yang signifikan (lanjutan)

b. Nilai wajar atas instrumen keuangan (lanjutan)

- Tingkat 1 - nilai wajar berdasarkan harga kuotasian (tidak disesuaikan) dalam pasar aktif;
- Tingkat 2 - nilai wajar yang menggunakan input selain harga kuotasian yang termasuk dalam Tingkat 1 yang dapat diobservasi, baik secara langsung (misalnya harga) atau secara tidak langsung (misalnya diperoleh dari harga); dan
- Tingkat 3 - nilai wajar yang menggunakan input yang bukan berdasarkan data pasar yang dapat diobservasi (input yang tidak dapat diobservasi).

Bila nilai wajar aset keuangan dan liabilitas keuangan yang tercatat pada posisi keuangan konsolidasian tidak tersedia di pasar aktif, nilai wajar ditentukan dengan menggunakan berbagai teknik penilaian termasuk penggunaan model matematika statistik.

Masukan (*input*) untuk model ini berasal dari data pasar yang dapat diobservasi. Bila data pasar yang dapat diobservasi tersebut tidak tersedia, manajemen mempertimbangkan masukan dan asumsi yang diperlukan untuk menentukan nilai wajar. Pertimbangan tersebut mencakup pertimbangan seperti model umpan balik likuiditas dan volatilitas untuk transaksi derivatif dan tingkat diskonto jangka panjang, tingkat pelunasan dipercepat dan asumsi tingkat gagal bayar.

Estimasi dan asumsi akun-akun yang signifikan

a. Penurunan nilai efek-efek tersedia untuk dijual

Perusahaan mereviu efek-efek yang diklasifikasikan sebagai tersedia untuk dijual pada setiap tanggal posisi keuangan konsolidasian untuk menilai apakah telah terjadi penurunan nilai. Penurunan nilai atas investasi tersebut dinilai apakah terdapat penurunan signifikan atau berkepanjangan nilai wajar dibawah nilai perolehan atau terdapat bukti objektif telah terjadi penurunan nilai.

3. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES, AND ASSUMPTIONS (continued)

Significant judgments (continued)

b. Fair value of financial instruments (continued)

- *Level 1 - the fair value is based quoted prices (unadjusted) in active markets;*
- *Level 2 - the fair value uses inputs other than quoted prices included within Level 1 that are observable, either directly (i.e, as prices) or indirectly (i.e, derived from prices); and*
- *Level 3 - the fair value uses inputs that are not based on observable market data (unobservable inputs).*

If the fair value of financial assets and financial liabilities recorded in the consolidated statement of financial position is not available in an active market, the fair value is determined using various valuation techniques including the use of statistical mathematical model.

The input for this model comes from observable market data. When observable market data are not available, management considers necessary inputs and assumptions to determine the fair value. Considerations include considerations such as liquidity and volatility feedback model for derivative transactions and long term discount rate, the level of early payment and the level of default assumption.

Significant accounting estimates and assumptions

a. Impairment of available-for-sale securities

The Company reviews securities classified as available-for-sale at each consolidated financial position date to assess whether there is an impairment in value. The impairment of these investments is assessed whether there is significant or prolonged decline in the fair value below its cost or where other objective evidence of impairment exists.

3. PERTIMBANGAN, ESTIMASI, DAN ASUMSI AKUNTANSI YANG SIGNIFIKAN (lanjutan)

Estimasi dan asumsi akun-akun yang signifikan (lanjutan)

a. Penurunan nilai efek-efek tersedia untuk dijual (lanjutan)

Penentuan apa yang dimaksud dengan "signifikan" dan "berkepanjangan" membutuhkan pertimbangan dari Perusahaan.

Dalam menentukan pertimbangan, Perusahaan dan entitas anaknya mengevaluasi, diantaranya faktor lainnya, pergerakan dan durasi harga pasar historis serta sejauh mana nilai wajar dari investasi kurang dari biaya perolehannya.

Nilai tercatat portofolio efek tersedia untuk dijual serta cadangan kerugian penurunan nilai diungkapkan dalam Catatan 5 dan 14.

b. Penurunan nilai piutang

Perusahaan dan entitas anaknya membuat cadangan kerugian penurunan nilai piutang berdasarkan analisa atas ketertagihan pinjaman yang diberikan dan piutang. Cadangan penurunan nilai tersebut dibentuk apabila terdapat kejadian atau perubahan keadaan yang mengindikasikan bahwa saldo tersebut tidak akan tertagih. Identifikasi piutang tidak tertagih memerlukan pertimbangan dan estimasi. Apabila ekspektasi berbeda dari estimasi awal, maka perbedaan ini akan berdampak terhadap nilai tercatat pinjaman yang diberikan dan piutang serta kerugian penurunan nilai piutang pada periode mana perubahan estimasi tersebut terjadi.

Nilai tercatat dan piutang serta cadangan kerugian penurunan nilai diungkapkan dalam Catatan 6, 7, 8, 9, 10, 11 dan 12.

c. Estimasi masa manfaat aset tetap dan aset takberwujud

Masa manfaat setiap aset tetap dan aset takberwujud Perusahaan dan entitas anaknya ditentukan berdasarkan kegunaan yang diharapkan dari penggunaan aset tersebut. Estimasi ini ditentukan berdasarkan evaluasi teknis internal. Masa manfaat setiap aset direviu secara periodik dan disesuaikan apabila prakiraan berbeda dengan estimasi sebelumnya karena keausan, keusangan teknis dan komersial, hukum atau keterbatasan lainnya atas pemakaian aset.

3. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES, AND ASSUMPTIONS (continued)

Significant accounting estimates and assumptions (continued)

a. Impairment of available-for-sale securities (continued)

The determination of what is "significant" or "prolonged" requires judgment from the Company.

In making this judgment, the Company and its subsidiaries evaluate, among others factors, historical market price movements and duration and the extent to which the fair value of the investment is less than the cost.

The carrying value available-for-sale securities and allowance for impairment losses are disclosed in Notes 5 and 14.

b. Impairment of receivables

The Company and its subsidiaries provide allowance for impairment losses of receivables based on an assessment of the recoverability of loans and receivable. Allowances for impairment losses are applied to loans and receivables where events or changes in circumstances indicate that the balances may not be collectible. The identification of bad and doubtful debts requires the use of judgment and estimates. Where the expectations are different from the original estimate, such difference will impact the carrying value of loans and receivable and impairment losses of receivables in the period in which such estimate has been changed.

The carrying value of receivables and allowance for impairment losses are disclosed in Notes 6, 7, 8, 9, 10, 11 and 12.

c. Estimated useful lives of fixed assets and intangible assets

The useful life of each of the item of the Company and its subsidiaries' fixed assets and intangible assets are estimated based on the period over which the asset is expected to be used. Such estimation is based on internal technical evaluation. The estimated useful life of each asset is reviewed periodically and updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the asset.

3. PERTIMBANGAN, ESTIMASI, DAN ASUMSI AKUNTANSI YANG SIGNIFIKAN (lanjutan)

Estimasi dan asumsi akun-akun yang signifikan (lanjutan)

c. Estimasi masa manfaat aset tetap dan aset takberwujud (lanjutan)

Perubahan masa manfaat aset tetap dan aset takberwujud dapat mempengaruhi nilai biaya penyusutan dan amortisasi yang diakui serta nilai tercatat aset tetap dan aset takberwujud (Catatan 15 dan 16).

d. Liabilitas imbalan kerja

Penentuan provisi imbalan kerja tergantung pada pemilihan asumsi tertentu yang digunakan oleh aktuaris dalam menghitung total provisi tersebut. Asumsi tersebut termasuk antara lain tingkat diskonto, tingkat kenaikan gaji dan tingkat kematian. Realisasi yang berbeda dari asumsi Perusahaan dan entitas anaknya diakumulasi dan diamortisasi selama periode datang dan akibatnya akan berpengaruh terhadap total biaya serta provisi yang diakui di masa datang. Walaupun asumsi Perusahaan dan entitasnya anak dianggap tepat dan wajar, namun perubahan signifikan pada kenyataannya atau perubahan signifikan dalam asumsi yang digunakan dapat berpengaruh secara signifikan terhadap provisi imbalan kerja Perusahaan dan entitas anaknya.

Detail dari asumsi yang digunakan dalam perhitungan nilai kini dari imbalan kerja diungkapkan dalam Catatan 26.

e. Aset pajak tangguhan atas akumulasi rugi pajak

Aset pajak tangguhan diakui atas jumlah pajak penghasilan terpulihkan (*recoverable*) pada periode mendatang sebagai akibat perbedaan temporer yang boleh dikurangkan. Justifikasi manajemen diperlukan untuk menentukan jumlah aset pajak tangguhan yang dapat diakui, sesuai dengan waktu yang tepat dan tingkat laba fiskal di masa mendatang sejalan dengan strategi rencana perpajakan ke depan.

Pengakuan aset pajak tangguhan dan liabilitas pajak tangguhan diungkapkan pada Catatan 20.

3. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES, AND ASSUMPTIONS (continued)

Significant accounting estimates and assumptions (continued)

c. Estimated useful lives of fixed assets and intangible assets (continued)

A change in the estimated useful life of any item of fixed assets and intangible assets would affect the recorded depreciation and amortization expense and the carrying values of such assets (Notes 15 and 16).

d. Employee benefits liabilities

The determination of provision for employment benefits is dependent on selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions include among others, discount rate, rate of salary increase and mortality rate. Actual results that differ from the Company and its subsidiaries' assumptions are accumulated and amortized over future periods and therefore, generally affect the recognized expense and recorded provision in future periods. While it is believed that Company and its subsidiaries' assumptions are reasonable and appropriate, significant differences in actual results or significant changes in assumptions may materially affect the the Company and its subsidiaries' provision for employment benefit.

The details of the assumptions used in the calculation of present value of employee benefits are disclosed in Notes 26.

e. Deferred tax assets on accumulated tax losses

Deferred tax assets are recognized for the future recoverable taxable income arising from temporary difference. Management's judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the appropriatlely timing and level of future taxable profits, together with future tax planning strategics.

The recognized deferred tax assets and liabilities are disclosed in Note 20.

6. PIUTANG DAN UTANG PADA LEMBAGA KLIRING DAN PENJAMINAN

Akun ini merupakan penyelesaian efek bersih atas kliring transaksi yang dilakukan oleh Perusahaan melalui PT Kliring Penjaminan Efek Indonesia (KPEI).

Pada tanggal 23 Juli 2018, KPEI mengeluarkan Surat Keputusan Direksi No. KEP-016/DIR/KPEI/0718 yang mensyaratkan setiap perantara efek untuk menjaga minimum setoran jaminan dalam bentuk kas dan setara kas sebesar senilai 10% dari rata-rata nilai penyelesaian harian selama 6 (enam) bulan terakhir. Pada tanggal-tanggal 31 Desember 2020 dan 2019, Perusahaan telah memenuhi minimum setoran jaminan tersebut.

6. RECEIVABLES FROM AND PAYABLES TO CLEARING AND GUARANTEE INSTITUTION

These accounts represent net settlement position of securities transaction through clearing with PT Kliring Penjaminan Efek Indonesia (KPEI).

On July 23, 2018, KPEI issued Director Decision Letter No. KEP-016/DIR/KPEI/0718 requiring each broker to maintain minimum deposits in the form of cash and cash equivalents amounting to 10% of the average daily settlements value during the last 6 (six) months. As of December 31, 2020 and 2019, the Company met that minimum deposits.

Uang jaminan merupakan dana agunan kas yang diwajibkan oleh KPEI sebagai jaminan transaksi yang dilakukan Perusahaan. Uang jaminan tersebut ditempatkan pada PT Bank Mandiri (Persero) Tbk dengan suku bunga sebesar 5,50%-7,10% dan 7,00%-7,65% per tahun masing-masing pada tahun 2020 dan 2019.

Deposits consist of cash collaterals which are required by KPEI for the Company's transactions. Such deposits are placed at PT Bank Mandiri (Persero) Tbk with annual interest rate of 5.50%-7.10% and 7.00%-7.65% in 2020 and 2019, respectively.

Perusahaan tidak membentuk cadangan kerugian penurunan nilai piutang karena pihak manajemen berkeyakinan bahwa seluruh piutang pada lembaga kliring dan penjaminan dapat tertagih.

The Company did not provide an allowance for impairment losses on receivables, as management believes that all receivables from clearing and guarantee institution are collectible.

7. PIUTANG BELI EFEK DENGAN JANJI JUAL KEMBALI (lanjutan)

Transaksi *reverse repo* dijaminkan dengan saham dengan rasio agunan di atas 100% (sesuai dengan perjanjian antara Perusahaan dengan pihak nasabah) dari nilai piutang yang harus terus dijaga. Apabila nilai rasio agunan berada di bawah rasio yang diperjanjikan maka nasabah berkewajiban untuk melunasi sebagian piutang atau menambah jaminan. Pada tanggal 31 Desember 2020 dan 2019 seluruh saldo reverse repo memiliki rasio jaminan di atas 100%.

Analisis atas perubahan dalam nilai tercatat bruto dan cadangan atas kerugian kredit ekspektasian terkait untuk piutang beli efek dengan janji jual kembali adalah sebagai berikut:

7. REVERSE REPO RECEIVABLE (continued)

Reverse repo transactions are guaranteed with shares with collateral ratios above 100% (in accordance with the agreement between the Company and the customer) of the value of receivables that must be maintained. If the collateral ratio is below the agreed ratio, the customer is obliged to pay off a portion of the receivables or add collateral. As of December 31, 2020 and 2019, all reverse repo balances have collateral ratios above 100%.

An analysis of change in the gross carrying amount and the corresponding expected credit loss allowances of reverse repo receivable is as follows:

45. PENGELOLAAN PERMODALAN

Perusahaan mengelola modal ditujukan untuk memastikan kemampuan Perusahaan melanjutkan usaha secara berkelanjutan dan memaksimumkan imbal hasil kepada pemegang saham melalui optimalisasi saldo liabilitas dan ekuitas.

45. CAPITAL MANAGEMENT

The Company manages its capital to ensure that they will be able to continue as going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance.

45. PENGELOLAAN PERMODALAN (lanjutan)

Untuk memelihara atau mencapai struktur modal yang optimal, Perusahaan dapat menyesuaikan nilai pembayaran dividen, imbal hasil kepada pemegang saham, penerbitan saham baru atau membeli kembali saham beredar, mendapatkan pinjaman baru atau menjual aset untuk mengurangi pinjaman. Perusahaan beroperasi dalam lingkungan usaha yang permodalannya diatur oleh regulator.

Tidak terdapat perubahan atas tujuan, kebijakan atau proses dalam mengelola permodalan selama tahun yang berakhir pada tanggal-tanggal 31 Desember 2020 dan 2019.

Modal disetor

Perusahaan yang beroperasi sebagai perantara perdagangan efek yang mengadministrasikan rekening efek nasabah dan penjamin emisi dan entitas anak yang beroperasi sebagai manajer investasi diwajibkan untuk mempunyai modal disetor di atas ketentuan minimum masing-masing sebesar Rp50 miliar dan Rp25 miliar yang ditetapkan oleh Keputusan Menteri Keuangan No. 153/KMK.010/2010 tanggal 31 Agustus 2010 tentang kepemilikan saham dan permodalan perusahaan efek.

Modal Kerja Bersih Disesuaikan (MKBD)

Perusahaan juga memonitor jumlah Modal Kerja Bersih Disesuaikan. Perusahaan berkewajiban untuk memenuhi saldo Modal Kerja Bersih Disesuaikan (MKBD) berdasarkan peraturan BAPEPAM No. V.D.5 yang tertuang dalam Lampiran Keputusan Ketua Bapepam No. KEP-20/PM/2003 tertanggal 8 Mei 2003 yang diperbaharui dengan Keputusan Ketua BAPEPAM-LK No. KEP-550/BL/2010 tertanggal 28 Desember 2010, kemudian diperbaharui dengan Keputusan Ketua BAPEPAM-LK No. KEP-566/BL/2011 tertanggal 31 Oktober 2011, yang kemudian dicabut dan digantikan dengan Peraturan Otoritas Jasa Keuangan No. 52/POJK.04/2020 tanggal 3 Desember 2020 serta peraturan BAPEPAM-LK No. X.E.1 yang tertuang dalam Lampiran Keputusan Ketua BAPEPAM-LK No. KEP-460/BL/2008 tertanggal 10 November 2008.

45. CAPITAL MANAGEMENT (continued)

In order to maintain or achieve an optimal capital structure, the Company may adjust the amount of dividend payment, return capital to shareholders, issue new shares or buy back issued shares, obtain new borrowings or sell assets to reduce borrowings. The Company operates in the environment in which its capital is being regulated by regulator.

No changes were made in the objectives, policies or processes for managing capital during the years ended December 31, 2020 and 2019.

Paid-in capital

The Company that operates as brokerage dealer which administer customers' account and underwriter, and the subsidiaries that operate as investment manager are required to have paid-in capital above the minimum requirement amounting to Rp50 billion and Rp25 billion, respectively, by the Ministry of Finance decision letter No. 153/KMK.010/2010 dated August 31, 2010 concerning the shares ownership and equity of securities companies.

Net Adjusted Working Capital

The Company also monitors the Adjusted Net Working Capital. The Company is required to maintain the adjusted net working capital (ANWC) in accordance with BAPEPAM regulation No. V.D.5 as specified in Bapepam Chairman attachment Decision No. KEP-20/PM/2003 dated May 8, 2003 which has been amended by the Decree of the Chairman of BAPEPAM-LK No. KEP-550/BL/2010 dated December 28, 2010, then amended by Decree of BAPEPAM-LK Chairman No. KEP-566/BL/2011 dated October 31, 2011, which were revoke and subsequantly replaced by Regulation of Board of Financial Services Authority (POJK) No. 52/POJK.04/2020 dated December 3, 2020 and BAPEPAM-LK Rule No. X.E.1 as specified in BAPEPAM-LK Chairman Attachment to Decision No. KEP-460/BL/2008 dated November 10, 2008.

45. PENGELOLAAN PERMODALAN (lanjutan)

Modal Kerja Bersih Disesuaikan (MKBD) (lanjutan)

Berdasarkan kedua peraturan tersebut, pada tahun 2019 dan 2020, perusahaan efek yang menjalankan kegiatan sebagai penjamin emisi efek/perantara pedagang efek yang mengadministrasikan rekening efek nasabah, wajib memelihara MKBD sebesar minimum Rp25.000 atau 6,25% dari jumlah liabilitas tanpa utang subordinasi dan utang dalam rangka penawaran umum/penawaran terbatas ditambah Ranking Liabilities, mana yang lebih tinggi.

Jika hal ini tidak dipantau dan disesuaikan, tingkat modal dan modal kerja sesuai peraturan dapat berada di bawah nilai minimum yang ditetapkan oleh regulator, yang dapat mengakibatkan berbagai sanksi mulai dari denda sampai dengan penghentian sebagian atau seluruh kegiatan usaha.

Untuk mengatasi risiko ini, Perusahaan dan entitas anaknya terus mengevaluasi tingkat kebutuhan modal dan modal kerja berdasarkan peraturan dan memantau perkembangan peraturan dan modal kerja bersih yang disyaratkan dan mempersiapkan peningkatan batas minimum yang diperlukan sesuai peraturan yang mungkin terjadi dari waktu ke waktu di masa datang.

Pada tanggal-tanggal 31 Desember 2020 dan 2019, MKBD Perusahaan di atas saldo minimum yang ditetapkan dalam peraturan ini.

45. CAPITAL MANAGEMENT (continued)

***Net Adjusted Working Capital* (continued)**

Under these two regulations, in 2019 and 2020, as a securities company which carries on business as underwriter/broker dealer which administers the client's securities account, the Company should maintain a minimum Net Adjusted Working Capital ("NAWC") of Rp25,000 or 6.25% of total liabilities without subordinated loans and liabilities related to public offering/limited public offering plus Ranking Liabilities, whichever is higher.

If not properly monitored and adjusted, the regulatory capital and working capital levels could fall below the required minimum amounts set by the regulators, which could expose various sanctions ranging from fines and censure to imposing partial or complete restrictions on its ability to conduct business.

To address the risk, the Company and its subsidiaries continuously evaluate the levels of regulatory capital and working capital requirements and monitors regulatory developments regarding capital and net working capital requirements and prepare for increases in the required minimum levels of regulatory capital that may occur from time to time in the future.

As of December 31, 2020 and 2019, the Company's MKBD is above the minimum balance required by this regulation.

46. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO KEUANGAN

Risiko adalah potensi kerugian yang melekat dalam setiap aktivitas Perusahaan yang dikelola melalui suatu proses identifikasi, pengukuran dan pemantauan yang berkelanjutan, sesuai dengan batas risiko dan kendali lainnya. Proses manajemen risiko ini sangat penting untuk menjamin profitabilitas Perusahaan yang berkelanjutan dan setiap individu di dalam Perusahaan bertanggung jawab untuk eksposur risiko yang berkaitan dengan tanggung jawabnya.

Perusahaan dihadapkan dengan risiko-risiko berikut dari laporan keuangannya:
a. risiko harga pasar
b. risiko suku bunga
c. risiko kredit
d. risiko likuiditas

46. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

Risk is probability of loss that is inherent in the Company's activities which is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to guarantee the Company's continuing profitability and each individual within the Company is accountable for the risk exposures relating to his or her responsibilities.

The Company is exposed to the following risks from its financial statements:
a. market price risk
b. interest rate risk
c. credit risk
d. liquidity risk

46. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO KEUANGAN (lanjutan)

Perusahaan telah mendokumentasikan kebijakan manajemen risiko keuangannya. Kebijakan yang ditetapkan merupakan strategi bisnis secara menyeluruh dan filosofi manajemen risiko. Keseluruhan strategi manajemen risiko Perusahaan ditujukan untuk meminimalkan pengaruh ketidakpastian yang dihadapi dalam pasar terhadap kinerja keuangan Perusahaan. Direksi menentukan kebijakan tertulis manajemen risiko keuangan secara keseluruhan melalui masukan laporan komite-komite risiko yang dibentuk dalam divisi-divisi terkait.

Untuk mengantisipasi risiko yang mungkin timbul dari kegiatan Perusahaan, maka Perusahaan melakukan beberapa langkah antisipasi berupa antara lain:

- Semakin memberdayakan Divisi *Risk Management* dalam memantau kegiatan perdagangan efek;
- Meningkatkan fungsi *Compliance* di Perusahaan untuk mengurangi risiko penghentian sementara atau pencabutan ijin;
- Meningkatkan kualitas dan kapasitas Teknologi Informasi untuk mendukung kegiatan Perusahaan sebagai sebagai Perantara Pedagang Efek, baik saham maupun obligasi;
- Meningkatkan *awareness* akan peraturan-peraturan yang berlaku di kalangan karyawan yang diselenggarakan diselenggarakan bersama oleh Divisi *Human Resources*, *Compliance*, Internal Audit dan *Risk Management*

Risiko harga pasar

Eksposur Perusahaan terhadap risiko harga pasar dapat muncul dari fasiltas pembiayaan transaksi (marjin) yang diberikan oleh Perusahaan kepada nasabah.

Risiko ini muncul jika nilai agunan nasabah mengalami penurunan yang sangat signifikan dan kondisi pasar yang tidak likuid, sehingga agunan tersebut tidak lagi mencukupi untuk menutup liabilitas nasabah kepada Perusahaan. Dalam kondisi ini, Perusahaan berpotensi mengalami kerugian dari piutang tidak tertagih.

46. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

The Company has documented its financial risk management policies. These policies set out the Company's overall business strategies and its risk management philosophy. The Company's overall risk management strategy seeks to minimize adverse effects from the unpredictability of financial markets on the Company's financial performance. The Directors provide written policies for overall financial risk management through input of reports of each risk committee in the related division.

To anticipate the risks that may arise from the activities of the Company, the Company did some preventive actions, such as:

- *More empowering Risk Management Division in monitoring securities trading activities;*
- *Improve functions of Compliance Division to reduce the risk of temporary suspension or revocation of license;*
- *To improve the quality and capacity of information technology to support the activities of the Company as a Broker-Dealer, both stocks and bond*
- *Increase awareness of the rules prevailing among employees organized jointly by the Division of Human Resources, Compliance, Internal Audit and Risk Management.*

Market price risk

The Company's market risks exposure may come from the financing facility on transactions (margin) by the Company to customers.

The risks may be faced out if the collateral value from customer suffered a significant declining and the market condition become unliquid, therefore these collateral is not enough to cover the customers's liabilities to the Company. In such condition, the Company may suffer a loss from such doubtful account.

46. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO KEUANGAN (lanjutan)

Perusahaan dan entitas anaknya juga menghadapi risiko harga pasar terkait dengan portfolio Perusahaan dan entitas anaknya yang termasuk kategori "investasi yang diukur pada nilai wajar melalui laba rugi" (*financial assets at fair value through profit or loss*/"FVTPL"). Penurunan harga pasar pada investasi kategori FVTPL akan menyebabkan penurunan posisi keuangan dan operasional Perusahaan dan entitas anaknya.

Analisa sensitivitas berikut ini ditentukan berdasarkan eksposur risiko atas risiko harga efek yang timbul dari investasi FVTPL pada akhir periode pelaporan.

Di tahun 2020 dan 2019, jika harga pasar efek yang dimiliki Perusahaan menurun/meningkat sebanyak 5% dengan semua variabel konstan, maka laba sebelum pajak konsolidasian untuk tahun yang berakhir pada tanggal-tanggal tersebut menjadi lebih rendah/tinggi masing-masing sebesar Rp12.767.925 dan Rp19.079.836.

Risiko suku bunga

Risiko suku bunga adalah risiko dimana arus kas atau nilai wajar di masa datang atas instrumen keuangan Perusahaan akan berfluktuasi akibat perubahan suku bunga pasar.

Perusahaan dan entitas anaknya belum melakukan lindung nilai terhadap pinjaman yang suku bunganya mengambang karena jangka waktu pinjaman yang pendek. Perusahaan dan entitas anaknya tidak memiliki eksposur yang signifikan terhadap mata uang asing karena Perusahaan tidak memiliki aset dan liabilitas dalam mata uang asing yang signifikan serta transaksi efek yang dilakukan dan melalui Perusahaan dan entitas anaknya di Bursa Efek Indonesia dilakukan dalam mata uang Rupiah. Oleh karena itu, Perusahaan menyakini bahwa dampak fluktuasi suku bunga dan nilai tukar tidak berpengaruh signifikan terhadap kinerja keuangan Perusahaan.

Analisis sensitivitas berikut ini, ditentukan berdasarkan eksposur suku bunga terhadap kewajiban keuangan yang menggunakan suku bunga mengambang. Analisa ini disajikan dengan asumsi saldo liabilitas keuangan pada akhir periode pelaporan masih beredar sepanjang tahun.

46. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

The Company and its subsidiaries also face risks associated with the market price of the Company and its subsidiaries portfolio including the category "investments that are measured at fair value through profit or loss" (financial assets at fair value through profit or loss/"FVTPL"). The decline in the market price of the investment at FVTPL category will lead to a decrease in the Company and its subsidiaries consolidated statement of financial position and operating results.

The sensitivity analyses have been determined based on the exposure to securities price risks arising from FVTPL investments at the end of the reporting period.

In 2020 and 2019, had the owned marketable securities prices decrease/increase by 5% with all other variables held constant, therefore the consolidated income before tax for the years then ended would have been Rp12,767,925 and Rp19,079,836 lower/higher, respectively.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Company's financial instrument will fluctuate because of changes in market interest rates.

The Company and its Subsidiaries have not hedged against floating interest rate loans because the loan term is shorter. The Company and its subsidiaries do not have significant exposure to foreign currencies as the Company and its subsidiaries have small amounts of assets and liabilities denominated in foreign currencies as well as the significant and securities transactions conducted by the Company and its subsidiaries on the Indonesia Stock Exchange which is denominated in Rupiah. Therefore, the Company and its subsidiaries believe that the impact of fluctuations in interest rates and the exchange rate to their financial performance is not significant.

The sensitivity analyses as follows have been determined based on the exposure to interest rate of floating rate financial liabilities. The analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year.

46. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO KEUANGAN (lanjutan)

Risiko suku bunga (lanjutan)

Di tahun 2020 dan 2019, jika suku bunga mengalami perubahan 50 basis poin lebih tinggi/rendah dengan semua variabel konstan, maka laba sebelum pajak konsolidasian untuk tahun yang berakhir pada tanggal-tanggal tersebut menjadi lebih rendah/tinggi masing-masing sebesar Rp45.833 dan Rp54.305.

Risiko kredit

Risiko kredit timbul dari risiko kegagalan *counterparty* memenuhi liabilitas kontraktual yang mengakibatkan kerugian keuangan kepada Perusahaan dan entitas anaknya. Perusahaan dan entitas anaknya tidak memiliki risiko konsentrasi kredit yang signifikan. Perusahaan dan entitas anaknya memiliki kebijakan untuk meyakini bahwa perdagangan dengan nasabah yang memiliki histori kredit yang baik.

Eksposur risiko kredit Perusahaan dan entitas anaknya berkaitan dengan kegiatan broker saham terasosiasi pada posisi kontraktual nasabah yang muncul pada saat perdagangan. Dengan demikian, Perusahaan dan entitas anaknya memerlukan jaminan untuk mengurangi risiko tersebut. Jenis instrumen diterima Perusahaan dan entitas anaknya atas jaminan tersebut dapat berupa kas dan efek yang tercatat di bursa.

Untuk aset keuangan lainnya seperti kas dan setara kas dan jaminan pada lembaga kliring dan penjaminan, Perusahaan dan entitas anaknya meminimalkan risiko kredit dengan melakukan penempatan pada lembaga keuangan yang bereputasi (Catatan 4).

Mitigasi utama dari risiko kredit adalah pengelolaan kecukupan jaminan dalam bentuk efek yang diperdagangkan dengan memperhatikan likuiditas dan volatilitas dari efek-efek yang ada di posisi jaminan tersebut. *Early warning* dibuat dalam bentuk peringkat bagi nasabah dengan memperhitungkan likuiditas posisi jaminan nasabah tersebut dan rasio kecukupannya. Disiplin dalam pengelolaan kecukupan jaminan melalui mekanisme permintaan *top-up* atau *force-sell* merupakan faktor penting untuk menjaga kualitas pembiayaan yang diberikan kepada nasabah.

46. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Interest rate risk (continued)

In 2020 and 2019, had the interest rate had been 50 basis points higher/lower with all other variables held constant, therefore consolidated income before tax for the years then ended would have been Rp45,833 and Rp54,305 lower/higher, respectively.

Credit risk

Credit risk arises from the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company and its subsidiaries. The Company and its subsidiaries have no significant concentration of credit risk. The Company and its subsidiaries have policies in place to ensure that it trades with clients with clean credit history.

The Company and its subsidiaries exposure to credit risk relating to its stock broking activities is associated with its clients' contractual positions that arise on trading. As such, the Company and its subsidiaries required its stock broking clients to post collaterals to mitigate such risks. The types of acceptable instruments that the Company and its subsidiaries may accept from clients are cash and listed securities.

For other financial assets, such as cash and cash equivalents and deposits to clearing and guarantee institution, the Company and its subsidiaries minimizes the credit risk by placing funds with reputable financial institutions (Note 4).

Primary mitigation on the credit risk is to manage the adequacy of collateral in the form of tradeable securities by focusing on the liquidity and volatility of the securities as collateral. Early warning has been made in the form of customer rank by calculating the liquidity of collateral of the customer and the adequacy ratio. Discipline in the management of collateral adequacy using the top-up request or force-sell is an important factor to maintain the financing quality provided to the customers.

46. TUJUAN DAN KEBIJAKAN MANAJEMEN RISIKO KEUANGAN (lanjutan)

Risiko kredit (lanjutan)

Pengelolaan risiko kredit yang lebih spesifik juga dilakukan atas piutang yang bermasalah. Upaya yang dilakukan diantaranya adalah restrukturisasi piutang bermasalah, penagihan melalui proses hukum, pembentukan cadangan kerugian penurunan nilai, hingga pelaksanaan hapus buku.

Risiko kredit dari produk kelolaan entitas anak terutama disebabkan karena emiten atau pihak lain gagal untuk memenuhi kewajiban kontraktualnya. Risiko kredit diminimalisasi oleh entitas anak melalui proses evaluasi risiko atas emiten yang surat berharganya akan dijadikan portofolio produk kelolaan, penerapan suatu kebijakan investasi dengan hanya melakukan investasi pada efek utang yang layak investasi menurut analisa entitas anak sebagai manajer investasi serta sesuai dengan peraturan dan ketentuan yang berlaku. Risiko kredit yang dihadapi produk kelolaan dapat berdampak pada pendapatan kegiatan manajer investasi entitas anak.

Eksposur maksimum risiko kredit yang terkait dengan aset keuangan yang tercantum dalam dalam laporan posisi keuangan konsolidasian per 31 Desember 2020 dan 2019 dengan memperhitungkan jaminan atau pendukung kredit lainnya adalah sebagai berikut:

Nilai tercatat aset keuangan Perusahaan dan entitas anaknya dari selain piutang nasabah (piutang margin) dan piutang beli efek dengan janji jual kembali merupakan eksposur maksimum risiko kredit.

Tabel di bawah menunjukan analisa eksposur maksimum risiko kredit dari piutang nasabah dan piutang beli efek dengan janji jual kembali:

46. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

Credit risk (continued)

Specific credit risk management is performed on non-performing receivable. Such efforts, among others, are restructuring on non-performing receivable, litigation process, providing allowance for impairment losses, and write-off.

Credit risk resulting from losses experienced by products managed by the subsidiaries due to issuer or other party fails to fulfill their contractual obligations. Credit risk is minimized by the subsidiaries through the risk evaluation process on issuers which securities will become portfolio of products managed by the subsidiaries, implementation of investment policy by investing solely on debt securities that are eligible for investment in accordance with subsidiaries' analysis as investment manager and prevailing regulation and guidelines. The credit risk associated with the products managed by the subsidiaries may impact on the income from investment manager activities of the subsidiaries.

Risiko kredit (lanjutan)

Gambaran umum pendekatan untuk memperkirakan kerugian kredit ekspektasian ditetapkan dalam Catatan 2. Ikhtisar kebijakan akuntansi yang signifikan. Untuk data makroekonomi, Perusahaan dan entitas anaknya memperoleh data yang berasal dari situs resmi Bursa Efek Indonesia, termasuk dalam menentukan bobot yang dapat diatribusikan ke beberapa skenario. Penentuan variabel ekonomi *forward-looking* dalam kondisi baik dan buruk dilakukan dengan menggunakan pendekatan persentil. Dalam kasus Indeks Harga Saham Gabungan (IHSG) sebagai variabel ekonomi *forward-looking*, persentil ke-30 dan ke-70 digunakan untuk buruk (*downside*) dan baik (*upside*).

Tabel berikut menunjukkan perkiraan variabel ekonomi *forward-looking* yang digunakan dalam setiap skenario ekonomi untuk perhitungan kerugian kredit ekspektasian untuk tahun yang berakhir pada tanggal 31 Desember 2020 (dalam Rupiah penuh):

Metode dan asumsi yang digunakan oleh Perusahaan dan entitas anaknya dalam mengestimasi nilai wajar dari instrumen keuangan adalah sebagai berikut:

Instrumen keuangan yang disajikan di dalam laporan posisi keuangan konsolidasian dicatat sebesar nilai wajar, atau sebaliknya, disajikan dalam nilai tercatat apabila nilai tersebut mendekati nilai wajarnya atau nilai wajarnya tidak dapat diukur secara andal. Metode-metode dan asumsi-asumsi di bawah ini digunakan untuk mengestimasi nilai wajar untuk masing-masing kelas instrumen keuangan:

(i) Nilai wajar dari kas dan setara kas, piutang beli efek dengan janji jual kembali, piutang nasabah, piutang lembaga kliring dan penjaminan, piutang lain-lain selain pinjaman karyawan, aset lain-lain, utang lembaga kliring dan penjaminan, utang nasabah, utang bank, biaya masih harus dibayar, dan utang lain-lain mendekati nilai tercatat karena instrumen keuangan tersebut memiliki jangka waktu jatuh tempo yang singkat dan memiliki tingkat bunga sesuai pasar.

(ii) Nilai wajar dari portofolio efek - reksadana dan dana kelolaan berdasarkan kontrak bilateral ditentukan berdasarkan nilai aset bersih dana tersebut pada tanggal laporan posisi keuangan konsolidasian.

The methods and assumptions used by the Company and its subsidiaries in estimating the fair value of the financial instruments are as follows:

Financial instruments presented in the consolidated statement of financial position are carried at the fair value, otherwise, they are presented at carrying values as either these are reasonable approximation of fair values or their fair values cannot be reliably measured. The following methods and assumptions are used to estimate the fair value of each class of financial instruments:

(i) Fair values of cash and cash equivalents, reverse repo receivable, receivables from customers, receivables from clearing and guarantee institutions, other receivables - other than employee loan, other assets, payable to clearing and guarantee institution, payable to customers, bank loans, accrued expenses, and other liabilities approximate their carrying amounts due to short-term maturities of these financial instruments and due to the interest rate is at market rate.

(ii) The fair value of marketable securities - mutual funds and managed fund on bilateral contract basis is determined on the basis of net assets value of those funds at the consolidated statement of financial position date.

47. NILAI TERCATAT DAN NILAI WAJAR ATAS ASET KEUANGAN DAN LIABILITAS KEUANGAN (lanjutan)

Instrumen keuangan yang disajikan di dalam laporan posisi keuangan konsolidasian dicatat sebesar nilai wajar, atau sebaliknya, disajikan dalam nilai tercatat apabila nilai tersebut mendekati nilai wajarnya atau nilai wajarnya tidak dapat diukur secara andal. Metode-metode dan asumsi-asumsi di bawah ini digunakan untuk mengestimasi nilai wajar untuk masing-masing kelas instrumen keuangan: (lanjutan)

(iii) Nilai wajar dari portofolio efek - saham dan obligasi ditentukan berdasarkan harga pasar kuotasi yang berlaku pada tanggal laporan posisi keuangan konsolidasian.

(iv) Nilai wajar dari piutang lain-lain - pinjaman karyawan dihitung menggunakan arus kas yang didiskonto berdasarkan suku bunga pasar.

Perusahaan dan entitas anaknya menggunakan hirarki berikut untuk menentukan dan mengungkapkan nilai wajar dari instrumen keuangan:

(i) Tingkat 1: nilai wajar diperoleh dari kuotasi harga pasar aktif (unadjusted) di pasar aktif untuk aset atau liabilitas keuangan yang identik;

(ii) Tingkat 2: pengukuran nilai wajar diperoleh dari input selain dari kuotasi harga pasar yang termasuk dalam Tingkat 1 yang dapat diobservasi untuk aset dan liabilitas, baik secara langsung (seperti harga) maupun tidak langsung (diperoleh dari harga);

(iii) Tingkat 3: pengukuran nilai wajar diperoleh dari teknik valuasi yang di dalamnya terdapat input untuk aset dan liabilitas yang tidak didasarkan pada data yang dapat diobservasi di pasar (input yang tidak dapat diobservasi).

47. CARRYING VALUE AND FAIR VALUE OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES (continued)

Financial instruments presented in the consolidated statement of financial position are carried at the fair value, otherwise, they are presented at carrying values as either these are reasonable approximation of fair values or their fair values cannot be reliably measured. The following methods and assumptions are used to estimate the fair value of each class of financial instruments: (continued)

(iii) The fair value of marketable securities - shares and bonds is determined on the basis of quoted market price at the consolidated statement of financial position date.

(iv) The fair value of other receivables - employee loan is calculated using discounted cash flows using market rate.

The Company and its subsidiaries adopts the following hierarchy for determining and disclosing the fair value of financial instruments:

(i) Level 1: fair values derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;

(ii) Level 2: fair value measurements derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices);

(iii) Level 3: fair value measurements derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

49. STANDAR AKUNTANSI YANG TELAH DITERBITKAN NAMUN BELUM BERLAKU EFEKTIF (lanjutan)

Reformasi Acuan Suku Bunga - Tahap 2 membahas isu yang mungkin mempengaruhi pelaporan keuangan selama reformasi acuan suku bunga, termasuk dampak perubahan arus kas kontraktual atau hubungan lindung nilai yang timbul dari penggantian acuan suku bunga dengan acuan alternatif yang baru. Amendemen ini mengubah persyaratan dalam PSAK 71: Instrumen Keuangan, PSAK 55: Instrumen Keuangan: Pengakuan dan Pengukuran, PSAK 60: Instrumen Keuangan: Pengungkapan, PSAK 62: Kontrak Asuransi dan PSAK 73: Sewa yang terkait dengan:

- perubahan dasar untuk menentukan arus kas kontraktual dari aset keuangan, liabilitas keuangan dan liabilitas sewa;
- akuntansi lindung nilai; dan
- pengungkapan.

Reformasi Acuan Suku Bunga - Tahap 2 hanya berlaku untuk perubahan yang disyaratkan oleh reformasi acuan suku bunga untuk instrumen keuangan dan hubungan lindung nilai.

Amendemen ini berlaku efektif per 1 Januari 2021 dengan penerapan lebih dini diperkenankan.

Amendemen PSAK 57: Provisi, Liabilitas Kontinjensi, dan Aset Kontinjensi tentang Kontrak Memberatkan - Biaya Memenuhi Kontrak

Amendemen ini mengklarifikasi biaya untuk memenuhi suatu kontrak dalam kaitannya dalam menentukan apakah suatu kontrak merupakan kontrak memberatkan.

Amendemen PSAK 57 mengatur bahwa biaya untuk memenuhi kontrak meliputi biaya yang berhubungan langsung dengan kontrak. Biaya yang berhubungan langsung dengan kontrak terdiri dari:

1. biaya inkremental untuk memenuhi kontrak tersebut, dan
2. alokasi biaya lain yang berhubungan langsung untuk memenuhi kontrak.

49. ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE (continued)

Interest Rate Reference Reform - Stage 2 addresses issues that may affect financial reporting during the benchmark interest rate reform, including the impact of changes in contractual cash flows or hedging relationships that arise from replacing the benchmark interest rate with a new alternative reference. These amendments amend the requirements of PSAK 71: Financial Instruments , PSAK 55: Financial Instruments: Recognition and Measurement , PSAK 60: Financial Instruments: Disclosures , PSAK 62: Insurance Contracts and PSAK 73: Leases related to:

- *changes in the basis for determining the contractual cash flows of financial assets, financial liabilities and lease liabilities;*
- *hedge accounting; and*
- *disclosure.*

Interest Rate Reference Reform - Stage 2 applies only to changes required by the benchmark interest rate reform for financial instruments and hedge relationships.

These amendments are effective as of January 1, 2021 with earlier application permitted.

Amendments to PSAK 57: Provisions, Contingent Liabilities, and Contingent Assets regarding Aggravating Contracts - Contract Fulfillment Costs

This amendment clarifies the cost of fulfilling a contract in relation to determining whether a contract is a burdensome contract.

The amendments to PSAK 57 provide that costs to fulfill a contract comprise of costs that are directly related to the contract. Costs that are directly related to the contract consist of:

1. *incremental costs to fulfill the contract, and*
2. *allocation of other costs that are directly related to fulfilling the contract.*

49. STANDAR AKUNTANSI YANG TELAH DITERBITKAN NAMUN BELUM BERLAKU EFEKTIF (lanjutan)

Mulai efektif pada atau setelah 1 Januari 2021 (lanjutan)

Entitas menerapkan amendemen tersebut pada kontrak yang belum terpenuhi semua kewajibannya pada awal periode pelaporan tahunan yang mana entitas pertama kali menerapkan amendemen (tanggal aplikasi awal). Entitas tidak menyajikan kembali informasi komparatif. Sebagai gantinya, entitas mengakui dampak kumulatif dari penerapan awal amendemen sebagai penyesuaian terhadap saldo awal atas saldo laba atau komponen ekuitas lainnya, sebagaimana mestinya, pada tanggal aplikasi awal. Penerapan lebih dini diperkenankan.

Mulai efektif pada atau setelah 1 Januari 2022

Penyesuaian Tahunan 2020 - PSAK 71: Instrumen Keuangan

Penyesuaian ini mengklarifikasi fee (imbalan) yang diakui oleh peminjam terkait penghentian pengakuan liabilitas keuangan. Dalam menentukan fee (imbalan) yang dibayarkan setelah dikurangi fee (imbalan) yang diterima, peminjam hanya memasukkan fee (imbalan) yang dibayarkan atau diterima antara peminjam dan pemberi pinjaman, termasuk fee (imbalan) yang dibayar atau diterima baik peminjam atau pemberi pinjaman atas nama pihak lain.

Entitas menerapkan Penyesuaian Tahunan 2020 untuk liabilitas keuangan yang dimodifikasi atau dipertukarkan pada atau setelah awal periode pelaporan tahunan di mana entitas pertama kali menerapkan amendemen tersebut. Penerapan lebih dini diperkenankan.

Mulai efektif pada atau setelah 1 Januari 2023

Amendemen PSAK 1: Penyajian Laporan Keuangan tentang Klasifikasi Liabilitas sebagai Jangka Pendek atau Jangka Panjang

49. ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE (continued)

Effective beginning on or after January 1, 2021 (continued)

An entity shall apply those amendments to contracts existing at the beginning of the annual reporting period in which the entity first applies the amendments (the date of initial application). The entity shall not restate comparative information. Instead, the entity shall recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the date of initial application. Earlier application is permitted.

Effective beginning on or after January 1, 2022

2020 Annual Improvements – PSAK 71: Financial Instruments

This improvements clarifies the fees that are recognized by the borrower in relation to derecognition of financial liabilities. In determining the fee to be paid after deducting the fee received, the borrower only includes the fees paid or received between the borrower and lender, including fees paid or received by either the borrower or lender on other's behalf.

An entity applies the improvements to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment. Earlier application is permitted.

Amendments to PSAK 1: Classification of Liabilities as Current or Non-current

49. STANDAR AKUNTANSI YANG TELAH DITERBITKAN NAMUN BELUM BERLAKU EFEKTIF (lanjutan)

Mulai efektif pada atau setelah 1 Januari 2023 (lanjutan)

Amandemen menentukan persyaratan untuk mengklasifikasikan liabilitas sebagai jangka pendek atau jangka panjang. Amandemen tersebut menjelaskan:

- Apa yang dimaksud dengan hak untuk menangguhkan penyelesaian
- Bahwa hak entitas untuk menangguhkan penyelesaian liabilitas harus ada pada akhir periode pelaporan
- Klasifikasi tersebut tidak terpengaruh oleh kemungkinan bahwa entitas akan menggunakan haknya untuk menangguhkan penyelesaian liabilitas
- Hanya jika suatu derivatif melekat dalam liabilitas konvertibel merupakan instrumen ekuitas saja, penggunaan frasa liabilitas tidak akan memengaruhi klasifikasinya

Amandemen tersebut berlaku efektif untuk periode pelaporan tahunan yang dimulai pada atau setelah 1 Januari 2023 dan harus diterapkan secara retrospektif. Perusahaan dan entitas anaknya saat ini sedang menilai dampak amandemen terhadap praktik saat ini dan apakah negosiasi ulang atas perjanjian pinjaman yang ada mungkin diperlukan Penerapan lebih dini diperkenankan.

49. ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE (continued)

Effective beginning on or after January 1, 2023 (continued)

The amendments specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- *What is meant by a right to defer settlement*
- *That a right to defer must exist at the end of the reporting period*
- *That classification is unaffected by the likelihood that an entity will exercise its deferral right*
- *That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification*

The amendments are effective for annual reporting periods beginning on or after January 1, 2023 and must be applied retrospectively. The Company and its subsidiaries are currently assessing the impact the amendments will have on current practice and whether existing loan agreements may require renegotiation. Earlier application is permitted.

50. KLASIFIKASI ASET DAN LIABILITAS KEUANGAN PADA TANGGAL IMPLEMENTASI AWAL PSAK 71 DAN PSAK 73 (lanjutan)

Aset keuangan instrumen ekuitas yang dimiliki untuk tujuan strategis telah diklasifikasi sebagai nilai wajar melalui penghasilan komprehensif lain berdasarkan PSAK 71. Sebelum adopsi PSAK 71, instrumen ini diklasifikasikan sebagai tersedia untuk dijual dan diukur pada biaya perolehan karena nilai wajarnya tidak dapat ditentukan secara handal. PSAK 71 menghapus pengecualian ini.

PSAK 73

Tabel berikut menyajikan dampak atas penerapan PSAK 73 pada saat tanggal 1 Januari 2020:

50. CLASSIFICATION OF ASSETS AND FINANCIAL LIABILITIES IN THE EARLY IMPLEMENTATION OF SFAS 71 AND SFAS 73 (continued)

The financial assets of equity instruments held for strategic purposes have been classified as fair value through other comprehensive income according to SFAS 71. Prior to the adoption of SFAS 71, these instruments were classified as available-for-sale and measured at cost of obtaining the assets because their fair values cannot be reliably determined. SFAS 71 removed this exception.

1. IKHTISAR KEBIJAKAN AKUNTANSI YANG SIGNIFIKAN

Dasar penyusunan laporan keuangan tersendiri Entitas Induk

Laporan keuangan tersendiri entitas induk disusun sesuai dengan Pernyataan Standar Akuntansi Keuangan ("PSAK") No. 4 (revisi 2013). "Laporan Keuangan Tersendiri".

PSAK No. 4 (Revisi 2013) mengatur dalam hal entitas menyajikan laporan keuangan tersendiri maka laporan tersebut hanya dapat disajikan sebagai informasi tambahan dalam laporan keuangan konsolidasian. Laporan keuangan tersendiri adalah laporan yang disajikan oleh entitas induk yang mencatat investasi pada entitas anak. entitas asosiasi. dan pengendalian bersama entitas berdasarkan kepemilikan ekuitas langsung bukan berdasarkan pelaporan hasil dan aset neto *investee*.

PSAK No. 4 (Revisi 2015): Laporan Keuangan Tersendiri yang berlaku efektif sejak 1 Januari 2016. memperkenankan metode biaya perolehan dan metode ekuitas sebagai metode pencatatan investasi pada entitas anak. ventura bersama dan entitas asosiasi dalam laporan keuangan tersendri. Perusahaan menerapkan metode biaya perolehan dalam laporan keuangan entitas induk saja pada tanggal dan tahun yang berakhir pada tanggal-tanggal 31 Desember 2020 dan 2019.

Kebijakan akuntansi yang diterapkan dalam penyusunan laporan keuangan tersendiri entitas induk adalah sama dengan kebijakan akuntasi yang diterapkan dalam penyusunan laporan keuangan konsolidasian sebagaimana diungkapkan dalam Catatan 2 atas laporan keuangan konsolidasian. kecuali untuk penyertaan pada entitas anak.

Dalam laporan keuangan Entitas Induk. penyertaan pada entitas anak dicatat pada harga perolehan dikurangi cadangan kerugian penurunan nilai.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation of the separate financial statements the Parent Entity

The separate financial statements of parent entity are prepared in accordance with the statement of Financial Accounting Standards ("SFAS") No. 4 (revised 2013). "Separate Financial Statements".

SFAS No. 4 (Revised 2013) regulates that when an entity presents the separate fincaial statements. such financial statements should be presented as supplementary information to the consolidated financial statements. Separate financial statements are those presented by a parent entity. in which the investments are accounted for on the basis of the direct equity interest rather than on the basis of the reported results and net assets of the investees.

SFAS No. 4 (Revised 2015): Separate Financial Statements that became effective since January 1. 2016. allows the use of the cost method and equity method to record the investment in subsidiaries. joint ventures. and associates in the separate financial statements. The Company implemented cost method in the financial statements of the parent entity only as of and for the years ended December 31. 2020 and 2019.

Accounting policies adopted in the preparation of the parent entity separate financial statements are the same as the accounting policies adopted in the preparation of the consolidated financial statements as disclosed in Note 2 to the consolidated financial statements. except for investments in subsidiaries.

In the Parent Entity's financial statements. investment in subsidiaries is carried at cost less allowance for impairment losses.

2. PENYERTAAN SAHAM PADA ENTITAS ANAK
